# EASTERN LEAF BELT TO OPEN WEEK EARLIER New Cases Of

Prices Are Good On Carolinas **Belt Markets** 

UP OVER LAST WEEK

Production Of All Flue-Cured Types Estimated At 1,005,007,000 Lbs.

IS LESS THAN IN 1947

Marketing the 1948 crop of fluecured tobacco will advance a step this week with opening of auctions in the Eastern North Carolina Belt today

This is about a week earlier than last year, when sales started

Meanwhile, the Carolinas Belt ended its second week of sales with price averages slightly higher than the average of the preceding week. Some primings averaged \$4 better than the previous week, but most grades were up \$1 to \$2, the U. S. and N. C. Departments of Agriculture reported.

Because of a reduction of about 28 per cent in overall flue-cured acreage this year, the Eastern Belt is expected to fall short of last year's sales, the U.S. and N.C. Departments of Agriculture re-

The belt last year sold 449,762,-491 pounds at an average price of \$43.48 per hundred pounds.

The U.S. Crop Reporting Board estimated, as of Aug. 1, that the 1948 crop of type 12 tobacco would be 335,160,000 pounds or about 131,000,000 pounds under the record harvest of 1947 and the smallest crop since 1943.

Production of all flue-cured types this year was estimated at 1.005.007.000 pounds-almost 312,night watched their living quart- 500,000 pounds less than the 1947 output.
