THE PRESIDENT'S MESSAGE.

try's condition as patriotic and intelligent labor and observation suggest.

After reviewing in a general way the reports referred to the Presidents proceeda.

The resumption of specie payments by Chili is a type of great interest and importance both in its direct consequences upon ber own welfare, and as an evidence of the ascendency of sound financial principles in one of the most influential of the South American republics.

I take pleasure in calling to your attention the encomiums bestowed on those vessels of our new navy which took part in the notable ceremony of the Kiel Canal.

Our relations with Great Britian, always intimate and important, have demanded during the past year even a greater share of consideration than is usual. Several vexations questions were left undetermined by the decision of the Behring Sea arbitration tribunal. The application of the principles laid down by that august body has not been followed by the results they were intended to accomplish, because their ex-

ecution has been more or less imperfect. The understanding by which the United States was to pay and Great Britian to receive a lump sum of \$425,000 in full settlement of all British claims for damages arising from

GOLD RESERVE.

Death In a Well in Alamance.

Stress is laid on the importance of the gold reserve. Loss of gold is attributed to the existence of Treasury notes. The rise and fail of the reserve is followed, and the histoy of the bond issues, matters that are fami-inr to our readers, are rehearsed in detail. Then follows a history of the contract with ribly mangling his body. After being rescued he came to consciousness, but the bond syndicate. As to further gold withdrawals it says: Quite large withdrawals for shipment in the immediate futures are predicted in well informed quarters. About \$16,000,000 has been withdrawn during the month of November. The foregoing statement of counts and condition, develops the fast that after increasing our interest bearing bonded indobtedness inore than \$162,000,000 to save our gold reserve, we are nearly where we started, having now in such reserve \$79,333,566, as against \$66,438,377 in Feb. 1894, when the first bonds were issued. The government has paid in gold more than still owes them all, it has paid in gold about one-half of its notes given for silver purchases without extinguishing by such reserve, and of \$16,000,000 in efforts to maintain it. maintain it. Farmers' Institutes. The State Board of Agriculture has

decided that the holding of farmers' institutes shall begin in January and continue during that month and Febrnary, so as to reach the farmiers at a time when they are not busy on their farms. Just as many institutes as possibe will be held within the two months. It is ordered that a new Handbook of the State shall be issued; far more complete than any previous one. It will be prepared by Commis-sioner Patterson, T. K. Bruner and H. B. Battle. A special vote of thanks was tendered the Scaboard Air Line for for its co-operation with the board in furnishing free transportation to the persons who hold farmers' institutes, and also for its hearty cy-operation with the board in the futherance of the

immigration work. The work of Commissioner Patterson in holding institutes was heartily applauded.

News has been received of the killing of Mr. Will P. Summers, a hard-working farmer, in the northwestern part of Alamance county, Wednesday after-noon, by a well's caving in on him. A large chunk of rock and earth fell on him at a depth of about 30 feet, ter-

wife and eight children, the youngest an infant. Southern Railway Indicted. The Southern Railway Company was defendant in Justice Deaver's

court, at Acheville Wednesday, charged with running freight trains on Sunday, and was bound over to court in a bond of \$1,000. Several employees of the company, charged with working on Sunday, filed a demurrer which was overruled and the defendants appealed.
