## VALPARAISO, CHILE'S MAIN SEAPORT, RIVEN BY EARTHQUAKE AND DEVASTATED BY FLAMES

### Hundreds Reported Killed, Though Loss of Life Cannot be Confirmed. Disaster in South American City May be as Proportionately Great as That of San Francisco.

Except for a few private messages received early today reporting an earthquake in Chile and damage to buildings in Valparaiso, no direct news from Chile has as yet been received. The early reports coming from different points stated that the earthquake had resulted in great loss of life and widespread damage to property. Up to 11 o'clock tonight, however, there had been nothing to confirm these reports.

The interruption of all means of communication with Chile causes much anxiety. In the absence of telegraphic communication beyond Puento Del Inca, it has been impossible up to this hour to obtain accurate details of the destruction by the earthquake in Chile. The managers of the telegraph companies here state that nothing is coming through.

The Associated Press correspondent at Buenos Aires cables that it is feared the town of Los Andes in the province of Aconcagua, has been destroyed. At the same time he points out that Buenos Aires has no direct communication with the disturbed district.

Press reports purporting to come from Chile are purely imaginary. London and New York are eagerly seeking for news from the affected district. Officials of the Pacific railway say that it is their belief that the damage at Valparaiso is not nearly so serious as has been stated, but they express the fear that the town of Los Andes has been destroyed.

No official information has reached Washington from Chile, and while positive information is lacking, New York officials of cable companies having connection in South America tonight express the opinion that the first reports of the earthquake were exaggerated.

New York, August 17.—The city of Valparaiso, Chile, is reported badly damaged by earthquake. One report here is that the situation in Valparaiso may prove to be as serious as that in San Francisco. Practically every building in the city is damaged and there are fires in different parts of the city. Many persons are reported killed and injured.

All cables reaching New York from Chile and Valparaiso early tonight were evidently much delayed according to the statements of those officials who are themselves unable to get any information bearing on the situation other than the fact that an earthquake has occurred; that the disturbance has disarranged the telegraphic apparatus and interfered with communication. There is much anxiety tonight among those who have friends and relatives in Chile.

The earthquake has interrupted cable facilities to lower South American points and the communication is restricted to the route via Lisbon. Another report at Lisbon is that the loss of life has not been confirmed.

The cable companies and newspapers are making every effort to secure definite information. It is pointed out that the entire absence of any word from official sources in Valparaiso and other points in Chile may be taken as indicating considerable exaggeration of the reports of loss of life and extent of damages.

A private cable dispatch to W. R. Grace & Co., from Valparaiso, sent by way of Lima, Peru, says that the earthquake in Valparaiso was severe, and that business has been totally suspended.

The dispatch further stated that Grace & Co.'s buildings in Valparaiso were badly damaged but that none of the occupants were injured.

Valparaiso is a fortified seaport of Chile and the most important commercial town of the western coast of South America. It has a population of about 150,000. It is the capital of the province.

Buenos Ayres, August 17.—The newspapers this evening publish telegrams from Mendoza (which is an entrepot for the trade between Buenos Ayres and Chile) with which it communicates by the mountain passes of Ushallata and Portilla) to the effect that many houses in the Los Andes district were destroyed by the earthquake, and that there has been a large number of casualties.

Description of the City. Valparaiso is a fortified seaport of Chile and the most important commercial town of the western coast of South America. It has a population of about 150,000. It is the capital of the province.

### AFFAIRS NORMAL AT BROWNSVILLE

Though Citizens Guard Is Still Watching Negroes. No Trouble Is Expected.

Brownsville, August 17.—The citizens guard is still stationed between Fort Brown and the city of Brownsville, keeping the negro soldiers within barracks. Aside from the feeling of animosity the town is quiet. The citizens have been informed that General McCaskey, commander of the department of Texas, will take immediate steps to relieve the situation. Advice from Austin is that considerable excitement prevails there and a movement is talked of to organize an armed force of citizens to go to Brownsville to assist in keeping the negro troops within the garrison. Governor Lanham is still out of the city. Adjutant-General Pensland said he considered it very unwise to send state troops to Brownsville. The troops are considerably wrought over what they consider an outrage.

### NEW RAILWAY IDEA GROWS IN FAVOR

Much Interest Now Being Taken in the Proposed \$100,000 Bond Issue.

Special to Daily Industrial News. High Point, N. C., August 17.—The all absorbing question here now is that of the new railroad. The proposition for \$100,000 bond issue for a new railroad to connect somewhere about Wadesboro or Rockingham with the Seaboard, or lower down with the Atlantic Coast Line, has brought forth a warm discussion. So far only 500 voters have registered and most of these have put their names on the book during the past ten days. Those who oppose the proposition think that High Point can get the same accommodations for less money and a longer guarantee than ten years. Those who favor it argue that this is the only chance to get another road to compete with the Southern. Your correspondent is informed that Swift & Co., of Chicago, will erect a glue factory here, mention of which was made a few days ago. Their agent, who has been here, will report favorably on it. The factory will supply all the furniture makers in the state. It is stated today that Levi Johnson, late of Washington and his son-in-law, Mr. Clapp, together with others here will soon embark in the printing business. A stock company is being organized. Mr. Johnson was in the interior department for twenty years. The contractor says that he hopes to have the new passenger depot complete by October.

### PEASANTS BEAT BACK COSSACKS

In Battle in Russian Province. They Fight Like Wild Animals.

St. Petersburg, August 17.—At the headquarters of the gendarmerie here intelligence was received today of another collision between Cossacks and peasantry in the province of Penza. In this affair the mob showed such determination and fury that troops were forced to retreat, carrying off several of their wounded. Five of the peasants were killed and several score wounded.

The peasants are reported to have fought more like wild animals than human beings. In their fury they seized a priest, who was hurrying up to assist the wounded and beat him almost to death before the wife of a sick peasant whom he had aided, recognized him and intervened.

A serious affray occurred today in the suburb of Kolpina between workmen of the government arms factory and soldiers, arising from a quarrel between a patrol of six soldiers and a dozen workmen. Each side received casualties and the fight was continued with stones, clubs and rifle butts.

### SHOOTING CONTINUES ON WARSAW STREETS

Warsaw, August 17.—This morning two patrolmen were shot and killed and two wounded. Strong detachments of troops searched pedestrians throughout the city and all passengers arriving on the Vienna railroad are searched. At 8 o'clock this evening police, infantry and Cossacks stopped traffic and cut off the Jewish districts from the rest of the city.

### SEVEN WHALES STRANDED ON ISLAND OFF FLORIDA

St. Augustine, Fla., August 17.—Fishermen found seven large whales stranded on the beach of Anastasia Island today. They vary in length from twelve to twenty feet. There is considerable excitement over the find and work will at once be begun extracting the oil.

### NEGROES INDORSE LYING IN MURDER OF NEGRO

Issue an Address in Regard to Mob Violence at Greenwood, S. C.

Columbia, S. C., August 17.—Governor Heyward returned this afternoon from the scene of the lynching of the negro Bob Davis near Greenwood last evening. When asked for a statement concerning the lynching the governor said he had nothing to say further than that after a conference with Solicitor Cooper, of the Greenwood circuit, he had instructed that official to take immediate steps to prosecute the known members of the mob.

As the sentiment among the best citizens of the county, as well as a number of negroes, is in sympathy with the action of the mob, it is hardly probable that the prosecutions will amount to anything.

A negro school teacher of the neighborhood has written a card to the newspapers in which he indorses the lynching of Davis.

The negro citizens of Greenwood county today issued the following address in regard to the lynching of Bob Davis:

"We, the negroes of this county, wish to say that we are with you and in anything so serious as this you gave assistance in what you think best. We cannot afford, as a race, to uphold anything that tends to lower our Christian or moral standing, and the quicker we show that we are ready to help trace the rascal to his den, the quicker will we have the sympathy of the white man when we are intruded upon. Some colored persons may say that negroes should not have assisted the white men in their search, but we say to them, 'You are simply needing common sense.' If there is anything lacking on the part of the negro race it is that of self-respect, and we say that if he cannot respect himself, teach him, and do not be partial how and what manner the lesson be given. Now, until the leaders of the race establish the fact that we should join in and overtake any rascal, we are not in full discharge of our duty. Then let us as a race learn to respect ourselves and thereby expect it of others."

"We think we voice the sentiment of every respectable negro in the country, when we say that the country is rid of one of the meanest, most disrespectful characters imaginable and your thoughts are ours."  
(Signed.)  
"COLORED CITIZENS OF GREENWOOD COUNTY."

### DYING PRESIDENT OWED DEFUNCT BANK \$500,000

Chelsea, Mass., August 17.—Following the official information given by Bank Examiner Ewer to the comptroller of the currency at Washington, that the failure of the First National Bank of Chelsea, the doors of which were closed last night, was due to excessive loans made to officers and directors of the bank, it became understood today that the principal factor in the suspension of the bank was a large indebtedness on the part of its president Sylvester B. Hineley.

### GIRL MARKS CLEAN UP IN STOCKS BY PARTY

Baltimore, August 17.—A youthful Hetty Green has burst on Baltimore's financial horizon in the person of Miss Nettie Owen, daughter of Mr. and Mrs. Henry Owen, of 423 St. Paul street, who last night, in the first flush of successful investment, gave a dinner party to twenty friends in celebration of her victory over the bears.

Her three sisters, Ella, Edith and Lillian, have all been successful in the market, but Nettie obtained a block of United States Steel at 33 and walked away with the profits won by selling out at 40.

At the party her father played his banjo to the accompaniment of the piano, and sang feelingly, "If Time Were Money, I'd be a Millionaire," and "When You Ain't Got No Money, You Needn't Come Around."

### WED AT A PICNIC AS THOUSANDS LOOK ON

New Castle, Pa., August 17.—One of the chief events of the annual outing of the Lawrence County Merchants' Association at Cascade Park yesterday was the public wedding of John L. Logan, of this city, and Miss Estella Belle Bishop, of Shenango township. He is 21 years and she is three years his junior.

Until they were driven to the park in a closed carriage and were ushered upon the stage of the summer theater, no one in the vast assemblage knew their identity except the committee in charge and the Rev. W. J. McClintock, who performed the ceremony.

The pair received enough presents of furniture, carpets, household goods and groceries to start them up in housekeeping and stock their larder for months. These were donated by the various merchants as an inducement for a pair to be married at the outing. Four pairs applied, but the first that came won.

### HARLAN JOINS THE COMMISSION

President Announces Appointment of Associate Justice's Son.

Oyster Bay, N. C., August 17.—President Roosevelt today appointed James S. Harlan, of Chicago, a member of the interstate commerce commission. Mr. Harlan is a son of John M. Harlan, associate justice of the supreme court of the United States. He is a lawyer of extensive practice and held for some time the position of attorney-general of Porto Rico.

The appointment of Mr. Harlan completes the membership of the commission as provided for under the new railroad rate law. The appointment was decided upon by President Roosevelt several weeks ago, but was deemed best not to make the announcement until this time.

Attorney-General Moody, who was a guest of President Roosevelt last night, left Oyster Bay for Washington. He said he had discussed with the president the matter of filling several vacancies on the federal bench.

### AMERICANS FLEE FROM MEXICO

Foreign Residents of the Greaser Republic Certain an Uprising Will Take Place.

San Antonio, Tex., August 17.—Notwithstanding the efforts of the Mexican government and our own state department to allay the fears of American residents in Mexico regarding the reports that an uprising against foreigners is to take place on or about September 16, many Americans are sending their families out of the republic.

Within the last week a number of them have come to San Antonio. With one accord they say that while they do not expect the uprising to be successful, and that the Diaz government will suppress it quickly, they are confident that there will be trouble and that fatalities are probable. In many cases men who have positions in Mexico have remained at work, but have sent their families here.

A man who lives at San Luis Potosi brought his family to this city and will return. For obvious reasons his name cannot be made public. He would lose his position and would not be safe in Mexico if he should be quoted. But he is familiar with conditions and has told his friends that he is convinced that there will be trouble. He says the laboring classes are aroused and are determined to make an attempt on or about September 16 to drive foreigners out of the republic. He does not expect the uprising to succeed, but he fears that a number of foreigners will be killed.

"Nobody who keeps his eyes and ears open in Mexico can fail to see what is coming," he said. "I would not take the chance and expose my family to the danger."

The correspondent has seen a letter from a well-informed man who lives in a mining town in the state of Durango, in which he says that so certain are the Americans that there will be trouble that they have armed themselves. Supplies of arms and ammunition have been shipped to the Americans from the United States, says this man, and at the first sign of trouble the Americans will stand together and fight for their lives.

Woman Whipped Not American. St. Petersburg, August 17.—It has been definitely ascertained that M'lie Smirnov, the woman who was whipped by men of the Chevalier Guards, has no American connections. She is a local dressmaker.

### ROOSEVELT FOR CANNON AS THE NEXT PRESIDENT

Is Said to Have Greeted the Speaker as the Next Chief Executive.

### ALLEGED PROPHECY MADE AT SAGAMORE HILL

Was Delivered During Call of Illinois Man and National Chairman Sherman at Oyster Bay, According to Washington Newspaper.

By JOHN E. MONK. Washington, August 17.—Following hard on the heels of the formal launching of Speaker Cannon's presidential boom at his district convention, comes a story, printed here today, that President Roosevelt has predicted that the speaker will be the next president.

According to the Washington Post, which tells the story on what it says is the best of authority, Mr. Roosevelt assumed the role of prophet on the occasion of the speaker's recent visit to Sagamore Hill, with National Chairman Sherman, of the Republican congressional committee, and other party leaders.

After a conference of some hours, at which campaign plans were discussed in detail, the president is said to have approached Mr. Cannon, holding out his hand and saying: "Mr. Speaker, you will be the next president of the United States."

It is not suggested that President Roosevelt favors Cannon above the other presidential aspirants; on the contrary, it is stated that Secretary Root would be his first choice, but realizing that Root's candidacy is out of the question, he is for Secretary Taft. However, according to this hot weather gossip, the president, while favoring Taft, is inclined to believe that the finger of destiny is pointed toward the statesman from Illinois.

Whatever credence is to be placed in this report, it is certain that "Uncle Joe" is "going some" as a candidate for first honors in the next Republican national convention, and that his boom is attaining decidedly formidable proportions. His friends are doing systematic and organized work in his behalf, and that is more than the supporters of any other prospective candidate, possibly excepting Vice-President Fairbanks, are doing.

### FIFTY MEN BURIED ALIVE IN TUNNEL NEAR BRISTOL, VA

Cavein Occurs in the Clinch Mountain Excavations.

### AIR BEING PUMPED TO THE ENTOMBED MEN

Women and Children Gathered Around Entrance to the Work Weeping and Calling for Their Relatives — No Bodies Recovered.

Bristol, Va., August 17.—Fifty men are entombed alive in the Clinch mountain tunnel at Clinchport, Va., as a result of a cavein, which occurred this morning. It is not known whether the men are dead or alive, but the work of rescue is being rushed as fast as possible.

Air is being pumped in the tunnel by several pumps for a distance of 700 feet and a large force of men is working in an effort to rescue the unfortunate before they perish, if they are not already dead. The cavein occurred unexpectedly, and it is not known who is responsible.

The men entombed are chiefly natives of that mountainous section of south-east Virginia and the excitement and anxiety is intense. Men, women and children are at the mouth of the tunnel waiting news of those dear to them inside, and pitiable scenes are being enacted.

Women are screaming and wringing their hands and crying hysterically for fathers, brothers and loved ones who are prisoners in the black hole and perhaps dead or dying. The work of rescue will continue as rapidly as possible, though it cannot be stated with any degree of certainty how long it will take to reach the men.

No bodies have as yet been recovered. The tunnel is being driven through Clinch mountain and is to be one mile in length. It has been already extended about seven hundred feet, and the men are a considerable distance in the hole.

The contract for this tunnel was let some months ago by the South and Western Railway at \$2,200,000, and is to be one of the longest and most expensive tunnels in the south.

Clinchport is a small place in Scott county, west here and Big Stone Gap, on the line of the Virginia and Southwestern, forty-three miles from Bristol.

### \$25,000,000 MADE ON SUDDEN RISE IN PACIFIC STOCKS

Frantic Trading Marks Upward Rush of Union and Southern Pacific Shares.

### ADVANCE FOLLOWED NEWS OF DIVIDENDS

Announcement Was Entirely Unexpected by the Traders and Scramble for Stocks Immediately Follows the News — First Dividend of So. Pac. Common.

New York, August 17.—Amid scenes of frantic trading on the stock exchange, Union Pacific common stock rushed upward 17 1/8 points a share and that of Southern Pacific 67 3/8 points today, after an announcement of dividends far in excess of what the traders had any reason to expect.

The result was that a large number of traders who had sold the stock short suffered sharp losses and according to an estimate reported by the Evening Post, a pool in Union Pacific stock realized profits amounting to \$10,000,000 and a similar pool in Southern Pacific \$10,000,000. Notwithstanding the meeting of the executive committees of the Union Pacific and Southern Pacific roads in this city yesterday the bulk of the brokers were totally unprepared for the announcement of dividends which was made public soon after the opening of today's market.

The dividends were: Union Pacific, preferred, 2 per cent., semiannually; common, 2 per cent., semiannually; Southern Pacific, common, 2 1/2 per cent., semiannually. Union Pacific, common, heretofore paid 3 per cent. and today's dividend was the first ever declared to Southern Pacific common.

Brokers were swept into a mad struggle to buy the two stocks within a minute after the announcement was circulated, and the excited scenes which ensued have hardly been exceeded since the great struggle to control North Pacific five years ago. The shorts in both Pacifics were surprised and unprepared for the upward rush which followed and led the scramble to cover. Within half an hour after the announcement Union Pacific had bounded up more than 8 points and Southern Pacific nearly seven.

Feverish activity prevailed in the two stocks throughout the session, with various halts in the upward movement when the traders sold to realize profits. Except for these halts the upward movement in Union Pacific continued throughout the day almost to the close of the market, when there was a slight recession on profit taking. Southern Pacific's advance, however, was halted early and held. Union Pacific's extreme advance was from 162 7/8 to 179 3/4, and Southern Pacific's from 837 3/8 to 89. Union Pacific closed at 178 1/2 and Southern Pacific at 87 3/8.

The total sales of Union Pacific were 647,100 shares and of Southern Pacific 481,600 shares.

The executive committee of the Union Pacific Railroad Company and the Southern Pacific company announced that the following dividends were being declared: A semiannual dividend of 2 per cent. on the preferred and a semiannual dividend of 3 per cent. on the common stock of the Union Pacific, and a semiannual dividend of 2 1/2 per cent. on the common stock of the Southern Pacific company. The 5 per cent. dividend on the common stock of Union Pacific compares with a previous dividend of 3 per cent. on that stock. The dividend on Southern Pacific common stock is the first ever declared on that stock. The announcement of the dividend says:

"It is understood that of the dividend of 5 per cent. on the common stocks of the Union Pacific, 3 per cent. is charged to surplus earnings of the railroad and 2 per cent. to income from investments."

### THE REV. A. M. WYNN DIES.

Was One of the Best Known Men of the Southern Methodist Episcopal Church.

Columbus, Ga., August 17.—The Rev. Dr. A. M. Wynn, one of the "Grand Old Men" of the Southern Methodist Episcopal church, died this afternoon at an advanced age after having been in ill health for a number of years. Dr. Wynn was one of the two first missionaries sent by the Southern Methodist church to the California gold fields in 1850, and spent several years there.

Dr. Wynn filled numerous charges in the South Georgia conference and was repeatedly pastor of St. Luke and St. Paul churches in this city, being more thoroughly identified with Methodism in this city than any other living man.

### STEAMSHIP CARRIED A YELLOW FEVER PATIENT

New Orleans, April 18.—President Irion, of the state board of health today received a telegram from the acting surgeon-general of the marine hospital service, stating that a case of yellow fever was taken to Matanzas from Havana on the Italian steamship Miguel P. Pinellos August 15, and that the vessel had been disinfected and sailed for New Orleans.

She will be placed in quarantine at the Mississippi quarantine station for six days.
