Philadelphia, Oct. 16.—Much interest has been aroused as to the nature of the mysterious paper which halted the Weightman \$60,000,000 will contest in the orphans' court yesterday. Edward T. Davis, the confidential secretary of the late William Weightman, said to-

day. Before going into court yesterday I remarked to my wife: 'The will contest will not last as long as some people think-in fact, it will end with my own testimony, if a certain paper written by Weightman, to which I was the only witness, is still in existence and in the possession of Mrs. Walker. This paper, if called for and produced, will explain why Mr. Weightman made his daughter, Mrs. Walker, his sole legatee in his will of 1895, and so conclusively sat-isfy the attorneys of Mrs. Wister that no coilicil exists that they would most likely abandon the case. This proved to be the result."

When asked what was written on the paper, Mr. Davis said: "Having served Mr. Weightman for more than twenty-five years, I see no reason why I should violate his con-fidence now because he is dead."
