Gen. Grant was defeated for the Presidency of the Society of the Army of the Potomac by Gen. John Newtonand one of the reasons assigned was because he was behind in the payment of dues. Wonder if Conkling will not think that this will give the country another attack?

The State of Virginia expened more than a million of dollars in 1882 for the support of her common schools. Of these, 4962 are white schools and 1525 colored. The State Superintendent of Schools strongly urges increased facilities for the colored children. The white population, between the ages of five and twenty-one, was, in 1880, 314,827, while the colored population between the same ages is 204,080.

The next thing Gen. Sherman knows the Republican editors will be going for his scalp as they did for Conkling's for speaking too candidly. It must be remembered that the Republican party of which Gen. Sherman is a distinguished member, has had control of this country for the pust twenty odd years, with the sad result as pictured by this General, in his speech at the banquet of the Army of the Potomac

A FIENDISH OUTRAGE. The Kinston Gazette publishes a re-

port of a fiendish outrage perpetrated by a negro named Guilford Soon last Tuesday night upon the person of Mrs. Eliza Jones, a widow aged forty-five years, living in Contentnea Neck township in Lenoir county. After she had retired for the night, being alone, the negro knocked at the door, and in reply to her inquiry "who was there," he called her mammy, and she thinking it was her son, got up and let him in and the room being dark did not discover her mistake. The negro at once overpowered and outraged her, remaining in the house all night and repeatedly outraging her. In the morning about day-break he took out a knife stating that he was going to kill her to prevent exposure, but she succeeded in rushing past him out of the house, and by her screams attracted the attention of some colored people living at some distance. To these she told her story but they teared to pursue the villath. He was afterwards arrested and strange to say was released upon a bond of \$200, David Rountree, Esq., going his security. It is further stated that the brute has fled to parts unknown.

THE WILD TORNADO.

Terrible Work of the Winds.

CHICAGO, May 19.—A dispatch to the News from Springfield, Illinois, says: The damage caused by the cyclone storm, which visited this section of the State last night, was more appalling than was at first supposed. It struck the ground on Elijah Ile's farm, south of the junction, and laid waste three dwellings and as many barns and outhouses. Mr. Ile's house, a large two story brick building, was entirely demolished. It was occupied by Mr. Booker, who was considerably injured. A male infant was nearly killed. Across the road from Booker's place, Zebulon Willford's house was swept away by the tornado, but no damage to life resulted. A quarter of a mile further to the northeast the house of Mrs. English was torn to pieces. Everything about the place was entirely des-

Mrs. English was crushed and mangled by falling timbers, but there are hopes of her recovery. Her two little sons, Joseph and Thomas, were only slightly injured. The hurricane struck the earth again four miles east of the city, where the little settlement of Round Prairie is situated, and played havor with the lives and property of farmers in that vicinity. Several persons who took refuge in cellars escaped uninjured, although the houses were swept, from over their heads. Henry Farbec was killed and 12 or 15 persons more or less injured.

From Round Prairie the storm swept on to Dawson, nine miles northeast, but doing no a rious damage till that point was reached: Here a number of houses were torn down and Mrs. Ferris was

At Buffalo, another little hamlet, Mrs. Thomas Chandler was killed by the falling timbers of her house. Another storm is reported to have struck just east of Jacksonville and to have pursued a northeasterly course, 22 miles west of Springfield. It is said the little hamlet of Leitenburg was destroyed and that 8 persons were killed and injured. Full particulars are as yet unobtainable.

The Cyclone at Clinton.

CLINTON, ILL, May 19.—A terrible cyclone passed over this vicinity last night, doing a large amount of damage and killing several people. The wind took a southerly course and followed up Salt Greek in this county, on the line of which many houses were totally destroyed. About six miles south of Clinton the wind tore down a house, killing Peter Clifton, his wife, an eight year old daughter, and fatally injuring another child. Members of a family named Bennison were seriously injured, and many other families more or less injured, whose names could not be obtained. The damage is very great. obtained. Number of Persons Killed and Injured and much Property Destroyed,

RACINE, WIS, May 19.-Investigation begun early this morning only served to swell the list of casualties and make more sweeping the destruction done by the cyclone last night. It is now estimated that fully 20 persons were killed and 100 injured. One hundred and fifty louses were demolished, and had the eyclone struck the business centre the damage would not easily have been calculable. At the Western Union Junetion, 7 miles west of Racine, many houses were struck and one young man named named Webber was killed.

The killed at Racine so far as known, are as follows: Willie and John Kastavick, 11 and 18 years old; a little slaughter of Peter Dressel, aged 6; an infant child of August Kisnor; a young daughter of Barney Wilking and a young son missing; Paul Kupl and Alflert Kupl, probably fatally injured:

Another Set of Civil Service Rules. From the Burlington Hawkeye.

The following suggestions are most respectfully submitted to the Civil Service Commission for the guidance of Government employees, not necessarily for acceptance, but merely as a guarantee that the Hawkeye is right up to the front in this glorious reform.

1. Punctuality during business hours and constant attendance at the desk is not necessary, but clerks should write the date of pay day and amount of salary on their hearts with books of

2. No perquisites allowed to subordi nates. The custom has been found pernicious in its tendency, aud subversive of honest administration. The head of the department has ample time to rope in any little loose swag that may be wandering around un-

3. Citizens of 70 years of age and up ward, transacting business with any of the departments, should be addressed by the junior clerk as "Sir," and not "Young fellah," as heretofore. It is also desirable that appointees from the New England and Southern States should acquire some general mode of addressing ladies other than "Marm"

4. Clerks of the third class, who are learning to write, will be permitted to practice on Government stationary during the day, but it is not permissible to carry office supplies to one's night

5. In addressing the head of a bureau or department, clerks must address him by his full title. Only doorkeepers and janitors will be permitted to call him "Say, you!"
6. Post no bills.

7. Newspaper correspondents and magazine writers holding positions in the departments are not expected to at-tend to any duties save their literary work. If that is any indication of what they can do in the way of clerical work. it is evidently money in the Government's pocket to keep from doing any 8. All employees are requested, nay

implored, always to speak of the Cabinet as "we." 9. Please keep off the grass, 10. Do not hitch to the trees 11. Gas burned after 12 o'clock will

be charged extra. 12. Procure tickets before entering the train. 13. Beware of pickpockets. 14. Do not pick any leaf, shrub or

15. Gents without baggage are required to pay in advance, 16. Smoking on the second this building is prohibited.

17. Five dollars fine for crossing this bridge faster than a walk. 18. No fishing or shooting allowed or

19. Children having seats at the table will be charged full rates.

20. This way out.

Many of these rules have been in operation all over the continent for many years, and have received the general and hearty approval of the public.

The bag race, the foot race, and the walking match will follow the Hose Company's race. The celebration will be brought to a close by a brilliant hop at the Buford House to-morrow night. Liddell & Co.'s Dallas Enterprise,

A few weeks ago, we spoke of the establishment at Dallas, Texas, of a branch munufacturing house by Messrs Liddell & Co., of this city, and the following from the Dallas Herald in regard to the industry, will go to show hew it is prospering: "Prominent among the large enterprises recently set on foot in Dallas, is that of the Texas Cotton Press company, located near the Fair Grounds. The principal factory of this celebrated press is at Charlotte, North Carolina, and only two years ago it made its first sale in Texas through Sydney Smith & Co., of Dallas, which resulted in the sale of 46 in 1881-'82,and 133 in 1882 - 83. This increase of sales connected with the great satisfaction the press gave, decided Liddell & Co., of Charlotte, to establish somewhere west of the Mississippi river, a branch factory similar to one they have in Montgomery, Alabama, Through the influence of Sidney Smith & Co., Dallas was selected and the company immediately formed, consisting of W. S. Liddell, Sidney Smith, H. W. Godbold and J. I. Reekes. Ground was purchased and shops erected, and they now have one of the best appointed shops our reportor has seen in a long while. All the machinery in it has been specially built for them and for the manufacture of the press. Their planer for woods weighs 14,000 pounds, cost \$2,200, and will dress four sides of a piece of timber once running through. Their boring are all patented by Mr. Liddell and have made for themselves quite a reputation among manufactures in the

northwest. These shops are now in active operation and a visit to them will be a treat to any one who has a fancy for nice work. Orders have already accumulated for nearly one hundred-presses from Texas alone, and already they are turning them out at the rate of five each day, they will not more than be able to supply the demand as they have agencies in Arkansas and Louisians to supply as well as in Texas."

Sunday Notes, Local and General. Rev. O. F. Gregory, pastor of the Baplist church in this city, having returned from Waco, services will be held at the church as usual. For his morning sermon Mr Gregory will preach upon What I Saw and Heard in Texas." At 8 p. m., theme, "The Angels, and Their

visitors to the city are cordially invited to attend. At the Catholic church, low mass will be celebrated at 7 a. m: high mass at 11. Rev. Julius Pohl, O. S. B., will officiate.

The Hindoos pray to 330,000,000 gods. The Baptists are erecting a church at Salt Lake City, almost under the shadow of the great Mormon Temple. In Great Britain there are 3,483

Baptist churches with a membership of 296,618. Two hundred students have been con-

verted at a revival in the Ohio Wesleyan University. It is reported that Pope Leo contemplates sending a Papal ambassador to

Washington, D C. Mr Wannamaker, the Philadelphia merchant, organized his famous Bethany Mission Sunday school a quarter of a century ago and now he has the sat isfaction of knowing that the church which grew out of it, has 1,400 members. A week ago last Sunday 245 new members were received into church-fellowship, mostly from the Sunday school.

Martin Luther was born November 10th 1483. It is proposed by his followers in this country to erect a monument to his memory in the city of Washington, in the shape of a monument of the great reformer, similar to the one at Worms. The Christian Intelligencer, New York, will receive gifts to this werthy purpose.

The great jurist, Lord Bramwell. says that Saturday is "pay-day, drinkday and crime-day." Josh Billings has this to say: "Most men concede that it looks foolish to see a boy dragging a heavy sled up hill for the fleetin' pleasure of ridin' down again; but it appears to me that the boy is a sage by the side of the young man who works hard all week and drinks up his wages on Sat-Rev D H Buel, D D, Asheville, Rev | urday night." Put that in your scrap book. One of the English "Salvation Army"

Captains recently preached a ten-minute sermon standing on his head. This is ahead of anything yet developed by this "army," We do not wonder that Mr Spurgeon is worried at these modern movements:, "One thing I notice, when a brother gets perfectly holy, he becomes wholly useless, and has lost the passion which others have for seeking the lost sheep of the house of Israel. I do not find that our Christian people at all improve as workers, as men of prayer, as men of communion with God, by imbibing any of the novelties that have lately been produced among us."

A Little Cyclone in Minnesota. DULUTH, MINN., May 19.—A wind storm, amounting almost to a cyclone, passed over this place between one and two o'clock yesterday afternoon. Sev-eral houses were demolished, countless lumber piles scattered, and some damage done to mills. No life was lost so far as known, and no person seriously

A Protest.

We desire to express our disapprove of the manifest unkindness on part of the Committee iu not allowing us to participate in the firemen's contest to-morrow. While young as members, and as an organization, we say that does not disqualify us as active firemen and ask to be recognized by the Committee and placed on equal footing with others in the contest.

KENDRICK HOSE Co., No. 4. Eminent J. J. Caldwell. Baltimore, M. D., states "I have used Colden's Liquid Beef Tonic largely in Debliity, Febrile and Nervous Diseases, and I have found it one of the most reliable of nutrient tonics in use or to be found in pharmacy." (Take no other.) Of druggists.
