THE 20TH CELEBRATED.

BIG CROWDS AND A FINE TIME.

The Parade and the Races--- Prizes

Won by the Independents-- The Ken-

drick Boys Win Over All --- The Bag

The 108th anniversary celebration of

the Mecklenburg Declaration of Inde-

pendence has come and gone, and, after

a day of crowds and dust, floating ban

ners, gay and gaudy processions, speed

city is once more left to its usual quist-

ade and serenity. A pleasanter day for

the celebration could scarcely have

been desired. The air was cool and

bracing, and heavy banks of clouds

gave protection from the rays of the

sun, and made it just about night so far

as the weather was concerned, for the

exercises of the day. The streets began

to fill up about nine o'clock, and it was

soon apparent that we were to have a

larger crowd than was anticipated. An

excursion train of six coaches' from

Columbia and one of three from States-

ville, emptied crowds of visitors into

the city about ten o'clock, and vehicles

were rolling in from all directions all

morning. The number of visitors at

the lowest estimate was put at about

3,000. At one o'clock the procession

began to form, and at two it was ready

to move. Capt. Jno. R. Erwin, the chief

marshal, was in command, and brought

out the procession in fine style. Happy

McSmith, as drum major, led the band

and then came the mayor and officers

of the fire department in carriages, fol-

lowed in successive order by the Hor-

nets, Pioneers, the Firemen's Pet, Ken-

drick Hose Company No. 4, and Inde-

pendent Hook and Ladder Company.

The Charlotte Bicycle Club, 20 strong,

handsomely uniformed, and mounted

on their glittering machines, were at

the head of the whole, and were a very

attractive feature of the procession.

THE DAKOTA FLOOD. Deadwood Partially Submerged and

Other Towns Swept Away. BISMARCK, DAK., May 21.—A special dispatch to the Tribune gives the following details of the flood at Deadwood. Almost every day for a month there has been a fall of rain which has rendered the roads impassable and thoroughly saturated the ground. A heavy rapidiy under the heavy warm rain of Friday night and Saturday. The gulches or valleys in the hills are from a few hundred feet to probably a quarter of a mile wide. Deadwood is situated at the junction of Whitewood and Deadwood gulches, and numerous other gulches emptied their accumu-lating water from the mountains into these two main gulches, making a vol-ume of water that rushed down Whitewood with resistless force. Central City, Anchor City and Golden Gate are on Deak wood guich, above Dead wood City. The greater portion of Central City was above the flood, but for Anchor City and Goldfish there was no escape, the gulch there being not over 500 feet wide. Pennington is entirely gone. The valley is flooded and half of

the mountains yet. George Chandler and wife and two unknown men are known to have been drowned. Rope and basket communication has been established between the two parts of the city. The main residential por-tion of Deadwood is from 100 to 300 feet above gulch and the main business por-tion is also above the danger line. The portion destroyed was occupied by cheap tenement houses, second class hotels, laundries, small traders, sportjug bouses, livery stables, &c. Some of buildings are built over the streams which at its ordinary stage is but a few feet wide. This locality is generally avoided, however, its danger being re-

is nearly all gone. The water is now falling, though there is much snow in

When the flood came timely warning was given by means of the telephone system which exists in the hills and the most valuable articles were removed by the residents. So far but three bodies have been recovered, but it is believed now that the loss of life has been great. The flood swept every thing before it excepting the most substantial build-The losses in Deadwood will reach \$700,000. Golden Gate, Anchor City, Central City, South Bend and Croon City are all heavy losers.

SHEPRERD DOGS.

The Strange and Attractive Traits of

Our readers have dobtless since childhood heard of the Scotch shepherd dogs and their wonderful sagacity, (slower smounting to reason) but few or their probably, are aware that these dogs have been introduced and are now being used in their favorite work of keeping sheep, within a hundred miles of this place. Mr. Walter T. McArthur, of Montgomery county, who is probably one of the largest sheep owners in Georgis, has for several years had two of these dogs, which during that period, have served him well and faithfully in the care of his flocks. They are so very intelligent that at any time they can be trusted to either watch their charge or to drive them to or from pasture, no matter what may be the distance or nature of the way, a command from their master being all that is necessary to seeme prompt obedience. The sheep composing Mr. McArthur's ficks were purchased from several different persons, and each particular lot naturally remain together and rather separated from the others, each of these bunches being designated by the name of the party from whom they were purchased. These dogs can, at any time, be sent far into the woods for a specified bunch, it only being necessary to give its name, thus: "The McCloud sheep," or "the Nash sheep," and a failure on their part to bring the proper lot, not one being missing, is reckoned among the phenomenal occurrences. As a matter of course, these dogs are of immense service to their owner, and the gentleman who gave us these facts says he doesn't believe that \$1,000 each would buy them. So strong is the instinct in these dogs to watch and keep together all animals of a kind, that three puppies of the above mentioned dogs find their chief enjoyment in driving all the poultry of the yard into some clear space and keeping them for hours, regardless of the fact that not one particle of food can there be obtained by the imprison-ed fowls. On this account it is necessa-

The Pistol Strategy.

A handsome senorita went to one of the best photographers in Madrid lately to have her picture taken. When the posture was all settled, and the cloth was about to be drawn, the artist threw a glance at his subject, and, to his con-sternation, found that she was holding a pistol to her head. "What are you doing?" he cried; "you will not shoot yourself, it will ruin my business; besides it would be wicked to mar so lovely a face." "Do not be afraid," she re-plied; "I have no thought of spoiling the original of one of your best picgoing to send him my photograph in this posture, with the message that I'll fire if he does not return to me." A few weeks after the photographer had the pleasure of taking the potraits of a young married pair—without the pistol.

A Fish Pond Poisoned.

The water at Stewart's pond was last Saturday noticed to be covered with dead fishes, of all sizes from the minnow to the trout, and a great desire was manifested to known the cause. The fish would rise to the surface dead and fairly lined the banks whither they were wafted by the waves. No reason can be assigned for this singular mor tality among the finny tribe except that some malicious person has poisoned the water of the pond.

Mr. Wm. Dowmun, a citizen of Concord, got tired of the dust and the crowds, and strolling out by the Air-Line depot, sought a grassy spot under the shade of a pine tree, and feel asleep. While he was peacefully slumbering some enterprising individual who had spotted him, slipped up and went through his pockets. On waking Mr Downum found that his watch and \$7 in cash had gone to somebody else's pocket. Open air naps in this city are always costly to the persons indulging in

them.

He broke the sash all to pieces knocking out the iron grating at the same time. After doing this, he went back into the cell, and, with a drawn club, dared any one to molest him. Superintendent Yandle, with the assistance of a colored man, by a bit of skillful maneuvering, managed to throw a noose over the maniac's head, and, pulling him to the wall, disarmed him when he was once more securely caged When he gets into one of these moods

was manifested in the result as there was on the occasion of the races last year. The different companies were clad in running costumes and made a fine show, and as they were paraded out to take their places for the race, our citizens could not help but have a feeling of pride over the handsome body of firemen. The Pioneers took the first run, each company's turn being decided by lot. As the red block fell the Pion eers started off in splendid style, and made the plug in the quick time of 3234 seconds. The Independents were declared the winners and the shouts of the crowd rent the air. Immediately after the Independents ran, the Kendrick Hose Company No. 4 took the course for their race for \$50 prize offered by Mr. J. M. Kendrick for the best time of the day. The youngsters jerked their reel over ground from the drop of the block at a rate that astonished and made a remarkably good run. They reached the plug in 321/4 seconds and threw water in 56 seconds, beating the best time made by the companies of the regular fire department. The young firemen's victory was received with shouts of joy and en-

thusiasm by the crowd. After the races Col. A. M. Waddell presented the several prizes to the winners in appropriate remarks. To the Independents, the champions of the day, he presented the cash prize of \$25 offered by the fire department, and the silver trumpet offered by Chief Harrison. To the Kendrick Hose Company, he presented the cash prize of \$50 offered by Mr. J. M. Kendrick. After the presentation the successful boys paraded the streets exhibiting brooms as a demonstration of joy as well as an isdieation of their victories. The Independents had not made a run with a reel or practiced a single time in preparation for the race and they have cause to be jubilant over their success, The most amusing feature of the

evening was Joe Fischesser's bag race which was run from Independence Square to the Buford House. TALE OF THE DRIFT WOOD.

Party of Fishermen Discover the

Decomposed Remains of a White

Last Saturday afternoon a party of colored men fishing in a creek about two miles from Laurinburg, had their day's sport spoiled by a ghastly discovery made through investigating a pile of driftwood. Their attention was attracted by a swarm of flies on a plank that was floating down the stream and out of curiosity they investigated to find the cause. One end of the plank was under a log, and when they pulled it out, a swollen discolored corpse shot up-out of the water before their horrified gaze. From the appearance of the corpse, it must have been in the water for a considerable length of time, probably a month. Decomposition had so far advanced that it was only identified as a white man's corpse by the shape of the foot. An examination showed that the skull was badly cracked, which proves clearly that it was a case of murder. The coroner of Robeson county, was informed of the discovery of the body and yesterday summoned a jury to hold an inquest, the result of which we were not able to learn. Nobody in that section of the country is known to be missing, and it thought that the body found is that of one of the Gypsy fortune tellers, who spent sometime in Robeson last March. The discovery created a good deal of excitement and hundreds visited the scene of the find on Sunday to see the sickening object.

The McSmith Band. Mesmith's band won laurels for itself yesterday, and if our citizens never felt a pride in it before, they certainly do now. The visitors were particularly struck with the excellence of the music and compliments to the band were heard right and left. Beyond a doubt, there is not another such a band in the State, and Charlotte never before had proud of the McSmith band, and feel that it is an honor and a blessing to the town. Long may it live.

The crowd in town yesterday behaved itself fairly well until late in the afternoon, when knock down and drag out arguments suddenly became so numerous that it was difficult to keep tal-

ly. The first and most serious row occrued between Abner Farrow and Jno. Ardrey, both colored, at the Lincolnton depot. Ardrey was aroused with a club with which he belabored Farrow over the head in a savage manner. The scalp of Farrow's head was laid open in every direction and but for the interference of bystanders, Farrow would no doubt have been killed outright. Dr. O'Donoghue sewed up the wounds and Justice Davidson bound the parties over to court. Farrow will not be able

to get out of bed for some time. About time the races commenced, a person could look along the line of people and every few minutes see some fellow's head go down and heels up and a stir in the crowd around would indicate that a row was on hand. Five or six fights followed each other in rapid succession, but none resulted very seriously. One man was pulled out of the crowd with all of his cheek laid open, and bloody frem head to foot. The police arrested all the parties and will have them arrainged before the mayor

Chronic Diar-REGULATOR Ague, Malaria, and all Diseases

SYMPTOMS OF A DISEASED LIVER.

Bad Breath; Pain in the Side, sometimes the pain is felt under the Shoulder-blade, mistaken for Rheumalism; general loss of appetite; Bowels generally costive, sometimes alternating with lax; the head is troubled with pain, is dull and heavy with considerable loss of memory, accompanied with a painful sensation of leaving undone something which ought to have been done; a slight, dry cough and flushed face is sometimes an attendant, often mistaken for consumption; the patient complains of weariness and unbility; nervous, easily startled; feet cold or huming, sometimes a prickly sensation of the akin exists; spirits are low and despondent, and, although satisfied that exercise would be beneficial, yet one can hardly summon up fortitude to try it—in fact, distrusts every remedy. Several of the above symptoms aftend the disease, but cases have occurred when but few of them existed, yet examination after death has shown the Liver to have been extensively deranged.

It should be used by all persons, old and young, whenever any of the above symptoms appear. Persons Traveling or Living in Un-healthy Localities, by taking a dose occasion-ally to keep the Liver in healthy action, will avoid all Malaria, Billious attacks, Dirriness, Nau-ses, Drowniness, Depression of Spirits, etc. It will invigorate like a glass of wine, but is no in-foxioating beverage.

If You have eaten anything hard of digestion, or feel heavy after meals, or sleep-less at night, take a dose and you will be relieved. Time and Doctors' Bills will be saved by always keeping the Regulator
in the House!
For, whatever the alment may be, a thoroughly safe purgadire, alterative and tonic can never be but of place. The remedy is harmleas nd does not interfere with business or

tried to shoot, but Curtis was quicke and shot Burgess, who turned and staggered towards the door, Curtis still firing on him. Burgess took only a few steps and fell dead two feet from where he had killed Donley. Two men were accidentally wounded but it is thought not seriously. Curtis at once surrendered to the authorities and requested an immediate trial. He sent word from the jail to the wounded men that he would pay all their expenses for time lost and if permanently injured would fully provide for them. Burgess in tended to kill Curtis at the time of th shooting of Donley and is alleged to

have threatened Curtis' life on several occasions Public sentiment is evidently with Curtis. ST. Louis, May 21.-Two more deaths ave occurred at Staunton, Ills, resulting from the storm of Friday night. Additional reports from places not heretofore heard from show that the storm in Illinois was wide spread and very destructive. Houses and other farm property was destroyed in all di-rections within an area of a dozen counties and many persons were either killed or seriously wounded. Thirteen houses on Greeley prairie, a few miles south of Murrayville were blown down

and residences were destroyed or badly wrecked, but no deaths are reported. WASHINGTON, May 21.—The court of claims to-day decided in the case of Lawton, of S C, vs the United States. that the government is liable for the amount bid by the commissioners un-der direct tax laws at their sales in ex-
