was the reply. Mr. Gebhard made an incredulous retort, which was couched in far from complimentary language, and Mr. San-ford rejoined: "I tell you, sir, that we are going to

call on some ladies. We may call on Mrs. Langtry for all you know."
"You are a —— liar!" cried Mr. Geb-

Car Loads of Drunks Have a Rattling Time After the Celebration-Conduc tor Cut-Two People Shot at Hunters-ville--Disgraceful Scenes Aboard the

Capt. Mike Land, who carried out the return excursion train to Columbia Monday evening, and Capt. William Clarkson, who carried out the Statesville bound train each had crowded cars. Plenty of liquor was aboard and before either train had left the city many miles, the drunken passengers began to "raise Cain." When a few miles out two negroes got to fighting on Capt. Land's train and one of them was cutting the other all to pieces with to attend a big social event at that a razor. Capt. Land endeavored to put a stop to the row, when the negro who had the razor turned upon him and struck at him savagely. The razor struck Capt. Land's hand, inflicting a deep and painful wound. Capt. Land drew his pistol and fired at the negro, who dropped the razor and ran through the cars until he came to the baggage car, and seeing that he was pursued, he jumped from the car and went headlong down an embankment. The train was stopped and a party jumped off and captured the negro. He was taken on board and carried to one of the towns along the railroad and placed in jail where he will be held until he is brought to answer for his lawlessnest. Capt. Land's cut is a very severe one. The negro who was assaulted on the train was backed in a terrible manner, but will live. There were several other rows on this train, but none serious.

> The train that pulled out for Statesville held the crowd that took the cake. A good many colored people were aboard with a large party of young men. The cars smelled so strongly of whiskey that the people living along the railroad were made drunk as the train passed by, and the atmosphere was blue with profanity and thick with flying fists. A man could hardly stand ammed under the seats. Eyes that were bleared and puffed from drink seemed to be the favorite targets and the rapidity with which they were closed and tied up in craps was astonishing. Every other man had an eye in mourning and these who could keep their teeth in their mouth's considered themselves fortunate. The fighting gradually narrowed down to an issue between the blacks and the whites and when the train reached Huntersville open battle was declared. The white men drew their pistols and fired into the crowd standing around the depot. The firing was commenced just as the train moved out of Huntersville and the bullets intended for the negroes went wide of their mark and struck into a crowd of spectators standing near the depot, two of whom, both studeuts going to school at Huntersville were wounded. A bullet passed almost through the left foot of Mr. Julius Potts, inflicting an exceedingly painful wound. Another bullet struck Mr. William Worsham in the left shoulder, making a serious wound. The bullets were extracted by the local physicians. Who the parties were who fired the shots is, of course, not known, and it is not likely that they will ever be brought to justice.

creditably. "The Need of Educated Men in the South" was the subject of the third speech delivered by J H Lumpkin, of Georgia. This subject was developed with reference to her special needs as a New South. The speech was characterized by solid thought and great earnestness in delivery.

The last and best speech of the occasion was made by L W Dick of South Carolina, on "Virginia." Beginning with the small band who early in the history of the American colonies sailed up the Chesapeake and settled upon her shores, he traced Virginia's history Revolution, and spoke of her noble representations in the young republic. He drew a vivid picture of her sufferings andheroism during the sectional contest, touched upon her resurgence after the days of reconstruction, lamented her present "falling off" under the leadership of Mahone, and predicted a return to ber "first love" in the near future. with a Tucker and Daniels leading the with a Tucker and Daniels leading the wan. Beautiful bouquets were literally showered upon each one of the speakers and every one went away highly pleased with "the young lords of the silver bow."
