Ludlow street jail, in New York, is s did to yield the sheriff from \$30,000 to \$40,000 a year.

Allen Thurman, Jr., son of ex-Senator Thurman, of Ohio, is supporting Mr. Foraker, the Republican candidate for Governor.

It is said that Conkling is writing his political recollections. Between Conkling and Blaine, they will probably furnish us with some interesting reading.

Ohio is a progressive State. They eject a man from a theatre there now for sitting in the dress circle and letting his legs dangle over the railing.

It is doubtful whether the Fourth of July will be celebrated much in the United States this year. Conkling has declined to deliver an oration some-The Italians have just enforced a

wise taw which prohibits the sale of patent medicines throughout the kingdom, unless the precise composition of the medicine is given. Every now and then some judge from

the bench declares dealing in options illegal, but the dealing goes right along all the same. A St. Louis judge was the last heard from a few days ago.

The English hangman, Marwood, is reported to have expressed himself to the effect that there is only one man in this world he would really like to hang, and that is Carey, the informer.

Mr. Beecher entered upon his 71st year a few days ago, and, while remarking that mentally and physically he was sound as a bell, was sad over the fact that he weighed 220 pounds against 150 twenty years ago.

Mr. Thurman is credited with the authorship of the tariff plank in the Ohio Democratie platform. He was level-headed, whoever he was, that wrote it. It reads thus:

"We favor a tariff for revenue limited to the necessities of a government economically administered and so adjusted in its application as to prevent unequal burdens, encourage productive interests at home and afford just compensation to labor, but not to create and foster monopolies."

On this all Democrats can stand and pull together.

THE MISSISSIPPI FLOOD. The Levee Buildings at St. Louis Invaded by the Water-Business Stopped-The Flooded Farmers Ask for

Aid-Difficulty in Railroad Travel. ST. Louis, June 26 .- On this side of the liver the whole of the levee is now submerged and in the lowest places the first floors of the stores are flooded from a few inches to a couple of feet deep, Business in houses on the river front is suspended, except in two or three dog-geries, where scaffolds have been built and whiskey is still dispensed for five cents a drink. The Chicago and Alton in connection with the Indianapolis and St. Louis and Wabash roads, are driving piles in the break in their track

gap by Wednesday and their trains running again. A large number of farmers and land owners on the American bottom and residents of Venice and other towns between East St. Louis and Mitchell held a meeting at Venice yesterday afternoon and adopted resolutions call ing for aid. Many of the people who make their appeal are camped in tents on the ridges, surrounded by water or in the open air on the bluff beyond. Many are also housed in box cars on the railroad tracks and a good many of them will be obliged to be fed. Their crops are totally destroyed and they are destitute of money and the necessaries

they will have a good trestle across the

Venice, and it is expected that

The situation in East Carondolet and Cahokia grows worse daily. The water covers the whole of that section of the country. The railroads which have lost their tracks have abandoned the ferrage system between here and Alton and have arranged with the Vandalia road to run their passenger trains. The Indianapolis and St. Louis will send their trains to Effingham, thence to Mattoon. The Wabash will use the Vandalia to Altamont, where it will take its own track, and the Chicago and Alton and Chicago, Burlington and Quincey, will run to Smithboro, where they will connect with their own roads. All other Eastern lines are using their own tracks and all the Western roads are getting trains through with good success. The Vandalia track about which there has been some apprehen-sions is still two-feet above water.

PHILADELPHIA, June 26.—This morning in the presence of the dignitaries of the American Catholic church and of the grand Archbiahop, and with all the sacred ceremonials befitting his high rank, the final rites were paid to the mortal remains of Archbishop Wood, and they were sealed in the Catholical ervet.

THE DESTROYING PLOOD.

More Breaks in the Levees, Towns Dro waed Out, and Miles of Bottom Lands Submerged, and Incalculable Damage Done.

ST. Louis, June 26-Advices from Chester, Randolph county, Illinois, say that St Mary's levee, opposite that point in Missouri, broke Sunday night and St Mary's bottom, large wheat raising region, is nearly flooded, 20,000 acres of wheat are under water on this bottom alone. From Chester to Grand Tower southward on the Illinois side, a distance of 25 miles with an average distance of 25 miles with an average width of 10 miles and embracing an area of 250 miles, nearly all is sub-merged and crops destroyed, entailing great loss, and north of Chester nearly all the way up to St Louis the bottom is said to be inundated except here and there a high ridge which is out of the water. Thousands of families are either living in flooded houses or have fled to the bluffs for safety, and the loss of crops and general farm property is almost incalculable. The American bottom extends from Alton to Cairo, something over 200 miles, a large part of which is pretty thickly settled. All this great tract is subject to overflow in freshets like the present.

The town of St Mary's,on the Missouri side of the river, is partly submerged and Kaskaskia on the Illinois side is to be abandoned, the people there having sent to Chester for steamboats to carry them away. The levee three miles above Cape Girardeau, Mo, one about fifty miles above Cairo and another at Price's Landing, 25 miles down the river, broke Sunday night and a large volume of water rushed over the bottom. Other points on both sides of the river below here, particularly on the Illinois side, are about in the same condition as above described, and it may be said that pretty much all the bottom and between here and Cairo has more or less water on it.

DEFAULTER POLK.

His Case Called--- Asking for a Postponement With the Hope of Being Able to Pay Back the Amount of His Defalcation.

NASHVILLE, June 26 .- The case of M T. Polk, defaulting State Treasurer, was called in the Criminal Court this morning. Polk's counsel asked for continu-ance on account of the absence of the man who was his clerk and book-keeper while treasurer, who is his main witness. He stated that Polk had placed in the hands of the Attorney General of the State \$50,000, and has assurance that \$10,000 more will be paid by another party as soon as he returns from New York: that he has also \$9,000 in the hands of his attorney, and has sold a farm in Florida for \$5,000, and that the deed has been delivered to his attorney to deliver when the purchas money is paid to the State. The affidavit further states that his attorney and the Attorney General for the State have sold his interest in certain North Carolina property, from which \$15,000 will be realized to the State. He further states that the estate of the late Thos. O'Conner owes him \$30,000, or thereabouts, and the manager thereof has premised to pay the same in a short time, as soon as it can be collected, which sum, under the agreement be-tween his attorney and the Attorney General, is to be paid directly to the State. The affidavit goes on to state that the affiant expects to pay the State the entire amount of his liability, and has appointed J. B. Killibrew to take charge of his mines in Mexico, to work or sell them, to raise money with which to pay the State, and is confident that by the sale of such property he will realize the full sum claimed by the

THE REVENUE DISTRICTS.

The Reduction in the Different States A Saving of \$200,000 a year.

WASHINGTON, June 26 .- The effect of

esterday's extensive order in regard to the internal revenue service is to retricts from 126 to 80 a reduction of 46 instead of 44 as was erroneously announced at the treasury department yesterday. The following statement shows the number of districts reduced in each State and Territory affected by the executive order: Alabama and Nevada 1, Connecticut 1, Georgia 1, Dako-ta 1, Wyoming 1, Arizona 1, Pennsylva-nia 4, Virginia 2, North Carolina 1, Tennessee 1, Kentucky 2, Ohio 4, Indiana 3, Illinois 2, Michigan 2, Wisconsin 2, Iowa 1, Missouri 2, Minnesota 1, West Virginia 1, Maryland 1, Massachusetts 1, New York 5, Washington Territory New Jersey 1, Idaho 1, Montana total 46. It is stated at the Internal Revenue Bureau that it will require at least three weeks to carry into effect the provisions of the President's order and that it is probable that the transfer of offices cannot be effected before the arst of August. An estimate was also made in the Bureau that an annual saving of \$200,000 will result from the reduction in the number of collection

"ASSISTED EMIGRANTS."

The Cabinet Considers the Question and Reselves to Prohibit the Landing of Paupers.

Washington, June 26.—At the cabi net meeting to-day the principal ques-tion considered was in relation to the alleged shipment of pauper immigrants alleged snipment of pauper immigrants to this country from Ireland by the British authorities. The result of the deliberations on this subject was shown in the subsequent action of the Secretary of the Treasury, who telegraphed instructions to the collectors of customs at New York to co-operate with the commissioners of immigration at that port to prevent the landing of im-migrants found to be paupers within the meaning of the law. In the event that such pauper immigrants may have already landed as is reported to be the case with a large number shipped on the steamship Parnessia, the collector is instructed to take all practicable measures to have them reshipped to the port from whence they came.

Earl Spencer Makes a Few Remarks. DUBLIN, June 25.—Earl Spencer, Lord Lieutenant, replying to an ad-dress presented to him at Limerick, spoke in deprecation of American emi-gration. He said he believed that care ful aid to emigrants having a prospect of success abroad was beneficial both to Ireland and to the districts which they Ireland and to the districts which they leave. He regretted the necessity for the passage of the crimes act, which was distanteful both to Parliament and to the Government, but he said he abhorred the crimes which had rendered it necessary. In conclusion, Earl Spencer said he rejoiced that greater respect was now paid to law and order throughout the land.

Stockholders' Meeting To-Day. A special train will leave this city this morning at seven o'clock for Columbia to carry all who desire to attend the meeting of the stockholders of the Charlotte, Columbia & Augusta Railroad in that city to-day. This is to be an important meeting, as the question of issuing \$3,500,000 of bonds for the improvement of the road is to be deproject will be raised, and it is thought the vote of the stockholders will be unanimous for issuing the bonds. All of the stockholders with whom we have talked appear to be in favor of it, and none of them anticipate any trouble in passing the resolutions providing for the issuing of the bonds at the meeting

On the opening day there will be a team match for the championship and a handsome gold medal to the successful team. During the tournament there will be twelve regulation team matches, a number of special matches for valuable prizes, individual contests and sweepstakes shooting. The programme is quite varied and altogether the most attractive yet offered by the association. The place selected for the tournament is one of the loveliest summer résorts in the mountains of Western North Carolina, and the occasion promises to be one of rare enjoyment. The executive committee of the association is as follows: Col Walter Steele, president, Rockingham, N C; H H Thompson, vice-president, Spartanburg, SC; T H Gibbs, secretary and treasurer, Columbia, S C; D E Smoak, Orangeburg, S C; D C Waddell, Asheville, N C; S Van Gilder, Asheville, N C.

Can't Stand the Regulations.

Capt Fred Krogg, the favorite old Air Line engineer who lately went further South to run on a bon ton line, has become disgusted with his job on account of the new regulations adopted by his road, and now yearns for the Air Line again, The following are the regulations now in force on his road, and he says that as soon as a job is open for him on the Air Line, he's going to resign, and come back on a road that is not quite so tony:

GENERAL ORDER NO 1265.

The following regulations will be in force on the line on and after July 1st. and must be strictly obeyed:

1. Engineers must part their hair exactly in the middle, to a hair, and stand in the centre of the engine cab, in order that the engine may run evenly and steadily.

2. Firemen are not allowed to carry off coal in their hair. Before leaving the tender they must comb their hair with a fine comb and deposit the coal dust in the bin. s. Conductors are not allowed to

speak to passengers except on business of the road and then their replies must be either "yeat" "nay," "verily," "one dollar and fifty cents," as the case may be. Conductors will not be permitted to have pookets either in coats, vest, pants or underwear; will not chew, smoke or spit, or take a drink of anything except water, and then only once between leaving and arriving points. except where the thermometer goes over 106 in the shade.

4. Baggage masters and train men are not allowed to whistle, sing or swear. They are required to be proof against dynamite, dogs and bludgeens.

be recognized by their names, but will be numbered in some conspicuous place so as to be readily recognizable by the Inspector passing in their rear at any time. No employee will be permitted to sit down between M. and Atlanta, on pain of instant dismissal from service. 6. The waving of handkerchiefs to female acquaintances by employees is strictly prohibited.

7. Employess are not allowed to hold a train for any purpose. 8. The regulation length of mous-taches is two faches, sixteen on a side, and of side-whiskers four and a half inches, evenly shaped on both sides.

Tent Fair. To afford the country people a chance to see his marvelous paintings, Mr Arthur Butt has been showing his panoramas at various points in the county. He has just returned to the city from a short trip, having given two exhibitions at Steel Creek church and two at Pineville. The paintings were exhibited in the churches, and attracted large crowds. At Steel Creek people came from within two miles of Charlotte to see the paintings. Mr Butt is now in correspondence with the president of the Poplar Tent Fair Association, relative to the exhibition of his paintings at the approaching fair to be held at that place in August, and thinks that he will have no difficulty in arranging to show his panorama there. Should he decide to show at Poplar Tent, he will give five or six daily matinees besides the evening show, to accommodate the crowd.

Ker and the Star-Route Case-Some of His Defective Indictments.

WASHINGTON, June 24,-Mr. Ker resterday in the star-route cases as the ole representative of the government It is not known as yet whether Mr Merrick proposes to continue in the case, but some of his warm friends are very much opposed to his doing so, for the reason, as they say, that it will be impossible to secure convictions under the indictments drawn by Mr. Ker, and Mr. Bliss, the Republican counsel, not appearing, political capital will be made out of the fact that the prosecution was conducted by Democratic lawyers alone. It was stated at the court house yesterday, on the most reliable authority, that the indictment drawn up by Mr. Keragainst ex-Senator Kellogg had been fully examined by several of the most eminent counsel in the United States, and they had unanimously agreed in the opinion that it was defective and could not be sustained. It is strange, after the experience the Attorney-General has had with Mr. Ker, he persists in retaining him, especially as it is generally believed he is sincere in de-siring a conviction of all parties who have defrauded the government. He sent Mr. Ker down to South Carolina sent Mr. Ker down to South Carolina to draw up indictments in the election cases in that State. Eight of the nine indictments which Mr. Ker prepared were promptly thrown out by the court. Mr. Ker had then nothing to do but retrace his steps. He came back to Washington, and explained his return by a blood-curdling account of the ruffianism exhibited toward him by the South Carolina Democrats, which had just about as much foundation as his account of the scenes in Washington on nt of the scenes in Washington on account of the scenes in Washington on the day the star-route verdict was rendered. It will be inexcusable if the Attorney-General continues to prosecute the star-route cases with Mr. Ker's incharge and with Mr. Ker's indictments as the basis of prosecution. If he does, it is the universal opinion of bench and bar that the government will again be ignominiously worsted. will again be ignominiously worsted.
