THE RICHMOND DUELISTS.

They Meet at Last and Elam Gets Ball in His Thigh. STAUNTON, VA. June 30.—It is impossible at this time to gather any minute details of the duel. Elam had been concealed not many miles from the scene of combat for several days past. He was at the residence of John Lewis, son of Hon. J. F. Lewis. The arrangement for a meeting was ma-tured in Richmond at the time when Elam was in that vicinity and Beirne in West Virginia. Some point midway between the two places was fixed as the place. A change of seconds was made and the cartel as previously determined namely, Colt's six-shooters, at eight

Both principals managed to evade the vigilance of the authorities, and at 6 o'clock this morning met in a strip of woods about two miles from Waynesboro, junction of the Shenandosh Valley and Chesapeake & Ohio Railroad. The distance was marked off and at the first fire neither of the men was struck. Beirne, the challenger, demanded a sec-ond shot, which was granted, and the builet from his pistol imbedded itself in the upper part of Elam's right thigh. Beirne was untouched. Elam fell to the ground, and Beirne raising his hat to his fallen opponent, was hurried into a carriage and driven rapidly away. Subsequently he took the Shenandoah Valley train at Crimora. Elam was also conveyed in a carriage to a house near by, his surgeon attending him. It was found that the extraction of the would be attended with danger and a consultation among the surgeons was held. The fact that the ball failed to force itself through is taken as evidence, in connection with the character of the weapon used and the distance, that it came in direct contact with one

of the large bones. No arrests have been made, nor does there seem to be any disposition to institute a legal investigation. Elam was removed to the residence of John F.

Lewis and his wife sent for. LATER.-When the combatants took their positions several gentlemen present who were not immediately connected with the affair were asked to retire and they did so. The physician gave the words: "Gentlemen are you ready Fire-one-two-three." Shots were to be exchanged after the word fire, and before the words three. At the word one both pistols were discharged in quick succession, but without effect. The same programme was then repeated, both reports being almost simultaneous, and just at the word "one," as Elam staggered under the effect of the shot his second ran forward and assisted him to the cushions which had been laid on the ground.

The wounded man was under the impression that the ball had penetrated both legs and insisted that such was the When assured by the surgeon that it had not even gone through one leg and that the intense pain in the other was from sympathy, he expressed regret that he had not demanded another shot. He was perfectly cool and collected and gave directions in a strong, composed voice. Beirne also acted with deliberation and although pale seemed perfectly cool. He was taken away by his second after it was discovered that

Elam could not again stand. Elam was then placed in an ambu-lance which started for the residence of Lieut-Gov Lewis, some 15 or 20 miles distant. It was doubtful what the affect of the ride would be, and in case the wounded man was notable to stand it preparations have been made for his entertainment at the house of some one one. After the ball struck Elem he gave one or two steps forward and from that it was thought that the leg was not broken. The surgeon, however, stated that the muscle would have sus-

tained him for that length of time. In the meeting this morning between Beirne and Elam, the provisions of the original cartel were carried out until Elam was shot. The cartel provided that after the first fire if neither was hurt the word should be given for a d round, and that then the parties second round, and that the advance if should continue firing and advance if they chose. On the second round Elam received Beirne's shot in his thigh and staggered or fell and exclaimed "I am Beirne ceased firing and his seconds declared that their principal was satisfied. Beirne then raised his hat, saluted his opponent and walked to his carriage, which he entered, and was driven away. Elam was helped to his carriage and taken to Linwood, the residence of Lt Gov Lewis in Rockingham county, only a few miles from the

The ball in Elam's thigh was probed for on the field but was not found. The wound is not considered dangerous, however. Beirne's seconds were Frank Wright, of Petersburg, and Wm Emmett Chockley, of this city. Elam's friends were D Sheffrey Lewis and J D Snellings. The delay in meeting was caused by fear of arrest. Three attempts were made to arrest Beirne. The parties were nearly 250 miles apart and had tolcome to the place of meet-ing in private conveyances, travelling mostly at night. Everybody seems pleased that the duel did not terminate fatally to either.

Another Challenge for Beirne.

CHARLOTTESVILLE, VA, June 80 .-The Post-Republic, of Rockingham county, Va, says it is stated that Beirne was challenged by a leading readjuster to fight again an early day.

A Marquis Who Won't be Bullied.

MANDAM, DAKOTA, June 30.—The brought the Marquis De Mores, who had a fight with a mob at his ranch last Tuesday. The coroner's verdict in the inquest on the body of Luffley, who was killed, was that he met his death at the hands of De Mores and his two men. They will be brought before Justice Baleman for a hearing. Public sentiment is entirely against the desperadoes. The Marquis left his premises in charge of armed men, as threats of burning them have been made.

Gen Crook on His Way to Washington. ALBUQUERQUE. N. M., June 20.—Gen Crook arrived here last evening. He will proceed to Washington direct, ac-companied by Capt Jno Burke, of his staff. The bucks had not returned to the San Carlos reservation when he left Prescett. Gen Crook is positive they will bring in little Charlie McComas, if he is still alive.

A Case of Cholera Brought to Havre. HAVRE, June 30.—The steamer Kate, which has arrived from Bombay, has been obliged to stay in the Boads and perform quarantine with the steamer St. Bernard, which arrived yesterday from the same place with a case of Asiatic cholera on board.

THE HILL INVESTIGATION.

An Expert Discourses on Granite-Ex-Senator Kellogg's Case in Court, WASHINGTON, June 30 .- The Hill in Washington, June 30.—The Hill investigation was resumed to-day. John McArthur, architect from 1875, has had charge of the work upon the Philadelphia public building. The original plans for the basement called for brick lining for the piers. Changes were made from the original plans and granite was used instead of brick. Hill, however, had nothing to do with the changes. On the cross examination the witness was asked his opinion as an expert whether it cost more to complete the Philadelphia building under the modified contract would have cost under the fifteen per cent contract. He could not state positively as to the rela-tive cost without taking the plans and making computations of the actual cost. The work under the modified contract was inferior in quality to that performed under the fitteen per cent, contract. He did not know what the changes cost. He believed the changes improved the character of the building. In reply to questions by the committee the witness stated that granite of same quality as that being used upon the Philadelphia building could have been obtained from other quarries at the time the change was made from the fifteen per cent. confracts. As a matter of fact different kinds of granite were used in the building. He would not have felt justified in paying exorbitant sprices for the granite if other granite could have been obtained.

In the criminal court to-day argument was heard upon the pleas in abatement entered in the case of ex-Senator Kellogg. Bliss for the government raised the objection that the substance of the pleas was proper matter for a motion ty quash and not for a plea in abate-ment. The court seemed disposed to adopt this view. Still Wilson, counsel for ex-Senator Kellogg, insisted upon a ruling upon the pleas as submitted, reserving the right to make the same ground for a motion to quash. Argument was then heard upon pleas sepa-

Especial attention was given to the plea alleging improper selection of the grand jury that returned the indictment against ex-Senator Kellogg. Bliss, Wilson, Shallabarger and Merrick participated in the argument, at its conclusion Wilson asked for a decision but upon a statement of Assistant District Attorney Perry, that the point was of much importance and would affect the other "Star Route" cases the court coutinued the cases until Saturday next.

Alexandria Takes Precautions. ALEXANDRIA, July 30.-Inspection of the fresh water canal shows that the water is good. There is no epidemic here. The panic over the cholera reports is subsiding. Sanitary commissioners have been appointed here, com-posed of consols, dectors and engineers. There have been six deaths from cholera at Mansurah to-day.

A Fact Which Failed to Reach the

Press. MONTGOMERY, June 30.—The fact that Paul Strobach, U S marshal for this district, has just been triumphantly acquitted of the charges brought against him, unaccountably failed to reach the press of the country. The trial excited great interest here, and the acquittal was a gratifying vindica-tion of the marshal.

E CHEAPER PREIGHT RATES. The Baltimore Merchants Inaugurate a

Movement for Lower Freights---Re-

bates Offered, etc. From all indications, our Southern merchants will have the advantage, the coming season, of lower freight rates than ever, as the Baltimore merchants have already begun to move for cheaper Southern freight rates, and intend to have them. Some of the circulars of the Baltimore merchants and manufacturers' association, issued for Southern distribution, offering to all regular mer-chants who desire to visit Baltimore during the season a rebate of 30 per cent on the cost of the regular all rail limited ticket to Baltimore, have already been received in Charlotte. This applies to the following named cities and the section of country contiguous thereto: Columbia, & C.; Macon, Augusta, Atlanta, Ga.; Montgomery, Ala.; Athens, Ga.; Charleston, Savannah, Rome, Dal-ton, Chattanooga, Kuoxville, Bristol and Charlotte.

The Baltimore Sun of yesterday states that "the transportation committee of the Baltimore merchants' and manufacturers' association, Mr. John E Hurst, chairman, yesterday afternoon had a conference with the presidents managers and general freight agents of Virginia and the Carolinas. The representatives of the several transportation lines included Cel. John M. Robinson, president of the Seaboard Air Line; E. E. G. Ghio, superintendent; F. W Clark, general agent of the Carolina Central, of that system; R. L. Poor, general agent Baltimore Bay line; Hon. R. R. Bridgers, president: B. F. Newcomer and Harry Walters, vice presidents Atlantic Coast line; T. M. Emerson, general freigt agent of the same; Sol. Haas, traffic manager of the associated lines; Colonel A. L. Rives, vice president and general manager Richmond & Danville system; James H. Drake, general freight agent; Reuben Foster, general manager, and George F. Needham, general freight agent Baltimore and York river line, and R. M. Sully, general freight agent Petersburg and Weldon railroad.

leading merchants at the meeting. Mr Hurst, in welcoming the railway visitors, said the merchants of Baltimore would present for the consideration of the managers of the several lines the disadvantages under which they were laboring owing to the discriminations against this city. The differential rate in favor of Baltimore as against New York, a distance of 190 miles, is 6 cents per 100 pounds on first class goods, and 3 cents for the lower classes. The differential against Baltimore in favor of Richmond and Norfolk is 25 cents per 100 pounds on first class, and proportionately high on the lower classes Baltimore asked of the represented roads, of which she is by far the best customer, that she should be put upon

a fair footing in the carrying rates. "Colonel Robinson suggested that the secretary of the association, Mr. Bland, should be authorized to prepare a de-tailed statement bearing on the griev ance complained of, article by article, and the merchants' committee could then lay the whole matter before the

railroads' committee, "The results of the meeting were considered as satisfactory to the merchants who expect concessions from the railroads as the outcome."

Death of a Distinguished Old Man.

We have just received news of the death of Col. Dan. Coleman, one of the old time landmarks of Concord, but for some time past a resident of Washington City, where he held a position in the treasury Department of the United States. Col. Coleman died at the home of his son, Prof. D. R. Coleman, at Belleville, Ontario, on the 22nd ult Paralysis was the immediate cause of his death. He was aged 84 years and three months. Col. Coleman was a lawyer by profession, and in the years gone by was a well known member of the bar. He was a Republican in politics, and on Gen. Grant being elected to the Presidency, he was given a place in the treasury department, from which be was removed when Garfield was elected because he was a Grant man. He was at one time a man of wealth and infigence, but lost all of his savings in the broken Freedmen's Bank. Since he lost his place in the treasury department he has been living in Canada with his son, Prof. Dan. R. Coleman, who is superintendent of the Belleville deaf, dumb and blind asylum.

Opening of the Newton Normal . Prof. Mitchell, superintendent of our city graded school, is teaching in the normal school which opened last Wednesday at Newton. This is the third annual session, and it opened with 97 names enrolled in the regular normal department, representing eighteen counties, and 50 in the primary department, making 147. In speaking of Prof. Mitchell, the Enterprise says that "his reputation in the State is too well known to be increased by anything that held on the 9th of August, will be one | we might say. DUE WEST.

Commencement Exercises at the Fe-male College-A Delightful Enter-tainment Attended by Thousands of

DUE WEST, S. C., June 29.—Thursday morning was bright and beautiful, and at an early hour the roads were thronged with visitors. It would be no exaggeration to say that there were be-tween three and four thousand people on the grounds. Promptly at 10 o'clock the young ladies of the Female College were marched into the hall and upon

teresting programme was entered upon.

The essays were beautifully written, and were read by different distinguished gentlemen chosen by the young ladies. The costumes of the graduating class were beautiful. The music, as it class were beautiful. The music, as it appears on the programme, was rendered with magnetic touch on the piano and with sweet clarion tones. The vocal and instrumental departments are under the efficient supervision of Misses LeGal, Miller and Penick; the the latter is a fair daughter of North Carolina, and deserves especial mention for the successful training of her pupils. The art department is filled by Miss Galloway, and the many beautiful specimens on the walls of the hall evidence her efficiency. The Female College has this year in art the largest amount of work that has ever been done in drawing, in painting on large mother-of-pearl shells, in oil on the old Barbotine ware of Europe, reproduced mother-of-pearl shells, in oil on the old Barbotine ware of Europe, reproduced in this country, and in oil on canvas. The following are some of the beautiful specimens on exhibition: "In the White Mountains," which represents beauty, skill and decided taste. "On the Rhine," and "Castle on the Danube," by one who has handled the brush only nine months. "Lake Magrove" and "Prison of Chillon" are very fine, "Among the Alps" is universally admired. There was a great variety on shells, plaques and canvas, heads and landscapes in crayon, &c., if not so large at least as beautiful and representing as much skill and artistic taste.

Grier, which was pathetic and touching. The degrees were conferred upon the class by President Kennedy with an appropriate address. Thus ended the exercises. They were unsurpassed, and were enjoyed by the vast audience.

The reception at the Female College given in honor of the graduating classes was all that could be expected. There was an array of female beauty that is seldom seen, and the touching inspiration of the occasion seemed to sweep the chords of all hearts, young and old, which were blended in mutual joy and happiness.
