afternoon'two arrests were fnade in this city that caused a great surprise among our citizens, and the surprise was increased to astonishment as the developments of the trial were made known. The parties arrested were J E Adams, who has been ticket agent for the Air Line, Richmond and Danville and CC & A Railroads in this city for two years past, and Capt E O Nesbit, who is well known to the traveling public as a conductor on the Air Line road. The charge upon which they were arrested was embezzlement. Mr Adams was arrested a few minutes before time to sell tickets for the 2 o'elock trains and taken to the office of Capt R P Waring, trial justice. Capt Nesbit was in bed at his boarding house when the officer spepped in on him. The when the officer depped in on him. The two parties accured dessrs Burwell & Walker for coursel while the prosecu-tion was represented by Judge David Schengt, Maik W J Montgomery and Col H C Jones. The allegation of the railroad company was that Mr Adams and Mr Ne bit were acting in collusion to defraul the milroad company, and had been at it for some time past, presumably for two years. But one case brought against the conductor. It Mercer Slaughter, the general passen-

was going wrong on the Air Line road, and on instituting an investigation, he found that not only was something wrong on the Air Line road, but all was not correct in the Charlotte ticket office. A detective was employed to work up the case and his labors culminated in the arrest and trial yesterday.

Some very remarkable changes have occurred in the groups of spots on the sun, during the past few days. The spots can be detected with a strong opera glass. One of the groups which recently consisted of four conspicuous county commissioners the following valuation per mile was ordered to be black and jagged holes in the shining placed on the various railroads of the surface broke up in a few hours into a county: great number of small spots, which

In another group enormous white bridges were thrown across a black central chasm as broad as the Atlantic, and in a third group a vast depression, resembling a shadowy veil drawn over the glowing photo-sphere was developed around a cluster of dark pits. All around these wonder-ful groups the glowing surface of the held at the next regular meeting of the board for a county physician for the jail and poor house for the ensuing year, and that the clerk of the board be authorized to receive sealed bids from physicians in the meantime, the board sun appeared in the telescope covered thick with white specks like the flaky thick with white specks like the flaky particles in a mass of butter-milk, and here and there appeared intensely bril-liant crinkling lines, marking the spots where sprouts and jets of flery hydro-gen gas were bursting forth from the sun's interior. When will the astrono-mers be able to tell what causes these at their discretion.

'The Pennsylvania Legislature which has been called in extra session, perm is been called n extra session, per-m is itself to become excited by a dis-cussion of the question whether there were any Demograts in the Federal ar-my during the year which wound up in big row. The supression prevails among well informed people that if the war had been left to the Republican to fight, establishing the Confederacy would have been a sort of holiday business.

Mr Philip Armour, the shrewd Scotchman, who manipulates the pork market of Chicago, is worth \$20,000,000, which .he has accumulated in pork speculahe has accumulated in pork specula-tions. He is practically boss of the pork trade and when he feels like ad-ding a few more spectrels to his store he goes out and buys we all the pork in sight, and then fixes the price to suit himself. Venderbill, Gould and other stock manipulators and speculators make their money cut of people who go into Wall street and take their chances, but Mr Armour has a different class of victims, people who have to eat plain food like fat pork, and from those he has wrung his millions.

Republicans set two members of the lower house. Circuit elerk, assessor, two supervisors half the magistrates and constables. Both parties pledge them-selves faithfully to carry out the terms of the fusion. The nominations made by the Republicans were all colored men. The Democrats deferred making nominations for one month. The fusionists believe they will defeat Independents at the polls next November. The Independents held a caucus to-day and express themselves as satisfied with what the Democrats and Bepublicans have done and assert that they will de-feat the fusion nominees in November.

### Mississippi Crimes and Casualties.

VICKSBURG, July 3.—Capt. M. L. Cole, a member of the board of super-visors, was found in the road this morning, between this city and his residence, which is five miles distant, with his body riddled with buckshot. No arrests have been made, but there is a clue to

the murderer. A special to the Herald from Mayers-ville says that Bichard Gregor a noted negro politician of this State, and clerk of the Circuit and Chancey, Courts of Issaguens county, dropped dead yester-day of heart disease.

The murderer of Mrs Christine Urm-bach was taken from juil at Mayersville yesterday and lynched. A dispatch from Skipwith, Miss., says

place in the package in the depot in Charlotte, never having been stamped or punched. It was further proven that the agent Adams never charged himself with the sale of ticket No 2912. Capt Wm Clarkson, a conductor on the

A T & O Railroad, was then produced as a witness by the prosecution, to prove that some months ago Mr Adams made a proposition to him to do the same thing on the A T & O road, adding that it was being done by other conductors and there was big money in it. Capt Clarkson indignantly scouted

the proposition and reported what Adams had said to him to the authori-State. ties, the next day. Efforts were then commenced to catch the parties. Mr Jas

M Berry, an Atlanta detective, with, Mr George Farrington, of our city police force as assistant, went to work and very soon had what they considered to be good evidence of the guilt of the carties.

Mr Nesbit was also charged with collecting fares in cash on the road and not returning or accounting for it to the

company, and there was evidence that on the 10th of June, 1883, two fares were paid him and he accounted for only one in his return. There was much more evidence but this is the substance of it all.

> The defendants offered no evidence. The defendants offered no evidence. The justice decided that there was reasonable cause. Then there was much discussion in reference as to the amount of the bonds. The justice de-cided that he would require of Mr Adams a \$1500 funtified bond, and two bonds from Acabit in the sum of \$750 each. The parties were bound over to the Inform Court

the Inferior Court. Mr W I Snider, at whose house Mr Adams has boarded for the past two years, signed his bond and Adams was released. Capt Mesbit failed to give bond and was taken to jail, but it is thought that as as soon his friends in Georgia can be communicated with he will have no difficulty in giving the required bond. Mr Adams is a young unmarried man, and came to this city about two years ago from Georgia. He was con-sidered a most meral, upright young man, and enjoyed the full confidence of our people, all of whom are astonished at yesterday's revelations.

Nobody has enjoyed a better name than Capt Nesbit, and those who know him can scarcely realize that such a thing has come to pass. He was known by all to be a strictly steady man, never indulging in drink or using tobacco and
