BARD TO KILL.

A Negro with two Bullets in his head, Walks Three Miles, Eats a Hearty Meal and Talks Rationally.

CHICAGO, July 9.—Sam Cook the negro who in a fit of jealous rage shot Emms Shores, a colored girl, at Potasi, Mo., last Thursday evening and then shot himself and subsequently eluded pursuit, was captured yesterday and taken back to Potasi. In his attempt to kill himself after shooting the girl he fired two bullets into his head, one of which penetrated both hemispheres of the brain, the other passed through one hemisphere and both bullets are now in his skull. Notwithstanding these wounds, from both of which his brain oczed in considerable quantity, the negro roamed the woods from Thursday evening till Sunday morning when he ate a very hearty meal, talked rationally and walked three miles from the place where he was captured to Potasi. The physicians say that he cannot live. The girl still lives, but is partly dead from the effect of the bullet which entered back of her head and passed under and into her spinal column.

### A Texas Assassination.

WASHINGTON, July 9.—The Department of Justice has received additional information in regard to the assassina-tion of "Judge" Haughn, principal wit-ness for the government in the pending election cases in Texas. The Department is informed that threats have been made by the defendants in those cases that they will not be prosecuted by the government, that when they go into court they will go armed, and, if the trial should result in conviction, they will kill the court and everybody connected with it. The assassination of Judge Haughn has given rise to considerable uneasiness in Texas, and it is not known how soon others may go the same way. The writer asks that his name be not used in this matter, for should it be known he would not live to see the sunshine again.

church controversy which has grown out of high church tendencies of Arthur Ritchie, pastor of the church of the Ascension, and which has already served to draw out a letter of protest from the Rishop of this Diocese, had another sensational reature added to it yesterday. Rector Richie at the morning service announced that at the conclusion of the service a requiem mass would be said for the soullof Daniel Fountain who was drowned in Lake Michigan in the latter part of May. The announcement of the requiem mass was apparently such a pronounced step toward Bomanism as to cause even the parishioners of the church of the Ascension to rebel who had hitherto stood by the pastor and one-half of the congregation left the church. In the meantime at the request of the widow of Daniel Fountain the celebration of the mass has been postponed for a few days. It is believed now that the Bishop will be compelled to order a trial of the pastor for infringement of the church rules. CHICAGO, July 9.—The Episcopa the church rules.

Dangers of Making a Fuss with Chick she at Night. 30

One of our good citizens came near having his earthly affairs wound up night before last, while fooling around his own chicken coop. He had arrived inithe city at 2 o'clock that night from Concord, bringing with him, a let of fine spring chickens, and on reaching his residence be went at once to the coop to put up the chickens for the night. His next door neighbor hearing the racket concluded that somebody was trying to rob his chicken roost, and opening a window, he held his pistol in the direction of the noise and fired. Instantly a yell from the citizen apprised the neighbor that a mistake had been made and he put up his pistol to hear the explanation, which of course was simple and easily made. The bullet missed the citizen about half a yard and passed through both sides of the chicken coop.

The express company is taxed \$250 annually instead of \$200. Each local insurance agent is taxed \$15. Resident cotton buyers are taxed \$25, and non-resident buyers \$50. The patient did well enough until Sunday, when it was found that on account of his enfeebled vitality gangrene had set in, and to save the unfortunate man's life, amputation had to be resorted to. The leg was yesterday evening amputated, and unless gangrene attacks the stump which is not considered probable, Alfred will escape with his life. He survived the shock of the second operation remarkably well and the doctors speak hopefully of his case.

Incendiary Pires at Matthews. The citizens of the lively little town of Matthews were considerably exer. cised night before last over an outbreak of incendiarism in their midst, on large barn being burned and a residence saturated with kerosene and fired. The residence was saved through the exertions of the citizens. The barn was the property of Mr W P Williams and was totally destroyed, together with about thirty bushels of wheat. No live stock was burned with the barn. A short while after this fire originated the dwelling house of Mr J Sol Reed was discovered to be burning on the roof, but as the flames were then in their in-ciplency, the citizens soon extinguished them. On the roof where the fire had been burning the presence of kerosene oil was plainly detected, showing that the villain had saturated the roof before applying the match. She Ends a Quarrel with Her Husband by Killing Him with a Pire Shovels-A Sunday Afternoon Tragedy in Ire-

Last Sunday afternoon, near Mount Mourne, in Iredell county, a colored man named Sam Harris, was stricken dead to the earth with a fire shovel in the hands of his wife. The tragedy ocurred at Harris' bome, about three niles northwest of Mount Mourne. near Capt. W. J. Brawley's place, just before dark. Harris got into a quarrel with his wife and they soon came to blows. The woman get her hands on one of these old fashloned heavy fire shovels, and swinging it aloft, she brought it down with terrible force on her husband's head. The blunt edge of the shovel fairly shattered his skull and he fell to the floor and died without a word. The woman was arrested, we understand, and held in custody to await the result of the coroner's inquest, which was to have been held yesterday, but from which we could eard nothing. It is a clear case of murder and the woman will no doubt be tried for her life at Statesville.

The murdered man was a most respectable darkey and was well thought of by his white neighbors. He meekly bore many tirades and tongue lashings from his worse half, and when at last he offered to remonstrate with her, it was only to meet death at her hands. The affair has occasioned a great deal of excitement among the colored population and their sympathies are with the murdered man, although they avail him little. If the savage woman escapes the gallows, penitentiary, or death, she will stand a mighty poor chance of ever getting another husband in this country.

Mad Dog Killing in Long Creek, and Something About Lemley's Snakes.

Mr Jim McDonald entertained his friends at the court house yesterday morning in relating the thrilling perambulations of a rabid canine in Long Creek township Sunday, and how, after shooting at the dog half a dozen times, a well aimed bullet laid the canine out. Donald had an exciting time chasing and killing it. It bit several other dogs in the neighborhood, but all of them have since been shot and killed.

"Are you a reporter for the paper?" enquired Esq. R. F. Blythe, of Lemley's township, and on being informed that we were, he wanted to know if we would not like to have a snake story to print. Of course we did. "Well." the Squire continued, "the boys ploughing in my cern last Saturday, killed five big copperheads within two feet of each other. They were big ones too, and put together in a line measured 23 feet."

This interruption over, Mr McDonald resumed his recital about the mad dog killing and the reporter stepped aside with Coroner Smith to jot down a piece of news which is given elsewhere.
