Mrs Langtry is now on the ocean on her way back to England. How will Gebhard pass the lagging hours in her absence?

The cost of stopping a railroad train is said to be from forty to sixty cents, but when two trains running at full speed meet and stop each other it costs several thousand dollars.

Dr Mott, chairman of the Republican State executive committee, has issued a circular denying the truth of a report sent from Raleigh to the New York Sun, that he had sent a Mr Gillespie to Raleigh to levy a \$75,000 assessment on the Federal office holders in the State to start a daily prper at Raleigh. He says these officeholders ought to contribute to an enterprise of that kind, but they don't contribute worth a cent, He figures that it will take about \$17,-000 to run the machine for fifteen months, most of which has been subscribed by men not office holders.

Money to Flow in Ohio.

News Journal Columbus special: "So I am to understand that the biggest money is to win the election. That's the Republican theory is it?" To this the Republican theory is it? To this query my Republican friend replied: "Why, there hasn't been an important election for ten years but has been de-cided by money. A large number of our fellows, including Foster, wanted Townsend laid on the abelf last year, so they refused to put up the funds, and Newman made it. If \$50,000 had been put in at the right time the Republican Newman made it. 11 \$50,000 had been put in at the right time the Republican ticket would have been elected by 15,-000 majority." "How much have you got in the polythis year?" "Oh, I won't tell you. Look at that. There's a part of it." Saying which he opened a page of note paper, partially covered with names and figures, and held it up before me. I desired him to let me make a consoft it but he declined and returned copy of it, but he declined and returned it to his pocket. The momentary glance at the paper did not afford me time to memorize its entire contents, but I recall enough of them to make an interesting item. As 1 remember the list it was this way: Gov. Foster \$25,000

FROM WASHINGTON.

Report on River and Harbor Improve ments--No Fever at New Orleans.

WASHINGTON, July 26.—Capt Mercer corps of engineers U S A, in charge of the river and harbor improvements in Virginia and the Carolinas has submit-ted to Gen Wright his annual report of operations in that district during the last fiscal year. From the report it last nacal year. From the report it appears that improvements were made in the harbor at Norfolk and ap-proaches Black Water river, Va, North Landing river, Va and N C, Meherrin river, N C, Currituck Sound, Pamlico and Tar river, N C, Beaufort harbor, N C, Neuse river, N C, Trent river, N C, New river, N C, Contentnes creek, N C, Cone Fast river, at Wilmington, N New river, N.C., Contenthea dreek, N.C., Cape Fear river, at Wilmington, N.C., Town creek, N.C., Yadkin river, N.C., Georgetown harbor, S.C., Waccama, river, S.C., Great Pee Dee river, S.C., Santee river, S.C., and Waterree river, S.C., During the year \$201,468 was expended and \$475,200 is the estimated

sum required for the continuation of the work during the next fiscal year. Owing to the crowded condition of the harbor at Norfolk a demand has been made for the removal of naval been made for the removal of naval anchorage and dredging of Barkley flats, but the appropriation is insuffi-cient for the purpose. At Beanfort operations were confined to the con-struction of jetties and on Cape Fear river near Wilmington to the removal of snags and overhanging trees. At Georgetown harbor, S C, no work was undertaken because of the inadequacy of anoromistions

of appropriations, dent Jones, of the New Orleand Pres board of health, to-day telegraphed to Surgeon General Hamilton that up to date there has not been even a suspi-cious case of fever in New Orleans this year and that city is in s healthy condition.

Alarmed at the Orders Issued.

NORFOLK, July 26.-Surgeon General Hamilton's order establishing the hos-pital barge Selden off Sewell's Point and Secretary Folger's telegram to the collector of customs at Baltimore to instruct revenue steamer Ewing to stop all foreign vessels from entering the Capes, and if any sickness be found on board to require them to anchor near ocean view until boarded by the health officer, has aroused, in connec-tion with the arrival of the British steamer Andean at Hampton Roads from Vera Cruz with cases of sickness supposed to be yellow fever, alarm and protest at this port. The Norfolk and Portsmouth cotton exchange, Norfolk and Portsmouth Merchants and Manu-

CHARLOTTE, N. C., FRIDAY, JULY 27, 1883. THE REAL STATUS.

An Address by the Brotherhood.--The Western Union Telling Lies to Bol-ster up Confidence--A Grand Concert Edison's Check--Yesterday's Stam-pede of Operators--The Strikers Firm, Jubilent, and Backed With Plenty of Money.

The Brotherhood of telegraphers of this city have prepared the following address to the public, in explanation of the principles for which they are now battling, and to give the public a true idea of their cause:

To THE PUBLIC: Many of you have never learned the principles governing the Brotherhood of telegraphers. Read the following, then judge whether we are right or wrong: "Labor is noble and holy." To defend it from degrada-tion, to divest it of the evils to body, mind and estate, which ignorance and fraud have imposed: the rescue the toiler from the grasp of the selfah is a work worthy of the noblest and best of our race. Open and public associations having failed, after a struggle of cen-turies, to protect or advance the inter-ests of labor, we have lawfally con-structed this order, covered by a veil of secrecy, not to promote or shield wrong doing, but to shield ourselves from per-secution and wrong by men in our own sphere and calling, as well as others out of it, when we endeavor to secure the power of organized effort and co opera-tion we but imitated the example of capital heretofore set in numberless in-stances, and whether intended or not, they crurh the manly hopes of labor and trample poor humanity in the dust. We mean no conflict with legitimate enterprises, no antagonism to neces-net render the man of the secure the other control is a struggen of labor To THE PUBLIC: Many of you have parke fair outco BAId A Poissnons Suggestion. By the new Pharmacopola, of 1880 and made obligatory, the strength of opium and its preparations are very much stronger (50 per cent.) Thus the maximum dose of laudanum was heretofore forty drops, it is now twenty-five. Therefore, in giving doses without a prescription people should remember this, as what was before a small does

We mean no conflict with legitimate enterprises, no antagonism to neces-sary capital, but men in their hasts and greed, blinded by self interest, overlook the interests of others, and sometimes withate the rights of those they deem helpicas. We mean to support the dig-nity of labor, to affirm the nobility of all who sam their bread by the sweat of their brow. We, with all our strength, support laws made to har-monize labor and capital, for labor alone gives life and value to capital, and also those laws which tend to light-en the exhaustiveness of toll. We use every lawful and honorable means to procure and retain employ for one an-ether, coupled with just and fair remu-heration, and should accident or mis-fortune befall any of our members, will now kill. The present Pharma-copicia, of 1880, anys: "Its powdared opium should contain not less than 12 nor more than 16 per cent of morphine when assayed by the process given under opium." The process of assay does not give an account of all the morphis in opium by from 1 to 2 per fortune befall any of our members render such aid as lies within our pow Pharmacoposis definition, in ordinary son, Mr. G. W. Dillard ; from Transyl

protesting in the strongest terms against the policy of the Western Union: Every paper in that city, with one or two erceptions, are strongly in favor of the Brotherhood. They are continually in receipt of offers of pecuniary aid from all sources. Thos. A. Edison has pre-sented his check for \$500. They are gaining strength every day. Not a

man going back. At noon yesterday twenty-four men left the office in New York, reducing the force to less than 68 women and "scabs."

The striking Brotherhood yesterday gained a big advantage and tightened the owners, and adorned the chairman's their grip on the throat of the stubborn Western Union. In Washington City eight of the best operators who had heretofore held out against the strike. left their instruments, and, escorted by one hundred enthusiastic members of the Brotherhood, marched through the streets of the city to the headquarters of the strikers, where a grand jubilee. was held. This is the worst, blow the Western Union has had since the strike commenced. The operators here re-ceived favorable reports from all over the country yesterday. There is still no truce in the strike, and the operators are confident that they will win not withstanding Mr. Eckert's bluster and

and more lies.

LAWYERS IN COUNCIL.

Digerne

Ninth Judicial District met in convention at Hendersonville on the 25th. Col Alban T. Davidson, of Asheville, was chosen permanent chairman, and W. A. Smith, Esq., secretary. The place of meeting was the court house, which had been decorated by the ladies in a most unexceptionable manner. The mos hoice exotics of the different ho ouses in the town were kindly lent by

and secretary's deaks. This duty was under the immediate supervision of Mrs. S. V. Pickens, Mrs. D. M. Hodges and Miss Ollie Kate Alley, than whom no better selection could have been made. Col. Davidson, on taking the chair, made an address of unusual pathos and power, showing what the duties of the profession were, and urging the members to stand up for profesional honor. It is impossible in a brief article like this to do justice to the speech; suffice it to say, his most ardent admirers were more than pleased. The following programme of Business was reported by the committee to whom the

subject was referred, and adopted: 1. The Relation of Attorney and Client. 2. Professional Courtesy.

3. The Belation of the Legal Profes sion to Society. 4 The Business Conduct of the Court and Bar, and seating assistent A.

5. Professional Conduct. 6. Permanent Organization of a Dis-trict and State Association. To Mr. S. V. Pickens, the chairm

00.01 this, the General Business Commi belongs the honor of having projected and carried to; a successful consumma tion this meeting. Our corresp noticed in attendance from Ashaville Col. W. H. names and sums I cannot recall, but they probably aggregated from \$25,000 to \$30,000. The sums above given ag-gregate \$192,500, and the total sum on the sheet, as near as I can recollect it, Was \$225,000.

California Ranches.

A list of the big ranches of San Luis Obispo county is given. Few counties are suffering more from the aggregation of land in the hands of wealthy men. There is one ranch of more than 50,000 acres, 4 of more than 40,000, 2 containing over 30,000 and less than 43,000 acres, 4 between 20,000 and 30,000, and 9 between 10,000 and 20,000. The Tribune says, by way of comment: "In some of our neighboring counties there are tracts of 100,000 acres in the possession of sheep herders who live in an 8-by-10 shanty, without book or newspaper, little above the sheep in intellect. There may be one nest of children, no more, who are compelled to lead a life of seclusion and ignorance away from socie-ty and all that is elevating. Not a schoel house, not a church, not a fruit tree, or even a flower mark the wide desolution.

Pistol Practice in Kentucky. Boston Traveller's Washington Latter.

Said Congressman Culbertson, of Ken-Said Congressman Culterison, of Ken-tucky, the other evening: "There are a great many gentlemen who can take a deliberate aim and make a fine shot with a pistol, but to draw fire at once and hit the mark is an entirely different matter. We practice that a great deal down in Kentucky." "How?" was asked, "Why," responded the Congress-man, "we commence when we are boys. I remember that when I was a boy we I remember that when I was a boy we used to go out and stand back to the mark, and then we would turn and fire instantly, and we finally became so ex-pert that we could hit every time." "How large was the mark?" said a gentleman who was present. "Oh, it was a plank cut out the size of an ordinary man," significantly answered the Kentuckian.

Swimming in High Altitudes.

Cheyenne (Wyoming) Leader.

Tenderfeet should know, and all others should not forget, that it is more difficult to keep afloat in water in this altitude than in a, less altitude. That accounts for the numerous cases of drowning, even in comparatively small atreams. Young men who could swim with facility in the East have found with facility in the East have found out to their sorrow, and too late, that they could not do the same here. The light atmosphere considerably reduces the buoyant power of water. This is the case to a remarkable degree on Lake Tahoe, the highest body of water on the continent. In this water even pine wood sinks and when a man is drowned wood sinks, and when a man is drowned his body never rises.

A Requisition for a North Carolina Murderer.

COLUMEIA, July 25 .- The Governor of North Carolina sent a requisition on Governor Thompson yesterday for the delivery of the body of Edward Boone, white, at presht confined in jail at Ab-beville Court House. Boone is charged with murder in North Carolina. He will be delivered up as soon as the Governor returns.

The Young Voter.

facturing exchange held a meeting to-day and passed resolutions petitioning the Secretary of the Treasury and Sur-geon General to remove the hospital barge to Linn Haven Bay just outside of Cape Henry, and also to order inter-quarantine at that point all infected

ressels that may enter Hampton Roads

Judge Lynch Performs in Montana. ST. PAUL, MINN, July 26 .- A special from Miles City, Montana, says a party of masqued men proceeded to the coun-ty jail last night, overpowered the jailer and seized a prisoner named Rigney and took him about a mile and hanged and took him about a mile and hanged him to the projecting end of a railroad tie over a culvert. Rigney had been lodged in jail the day before for disor-derly conduct and was reported to be a hard case and being accused of rob-bing and other crimes. He was a bar-tender in the saloon of the Cosmopoli-tan Theatre. Two hours after the hang-ing the theatre was burned, together with six other buildings, entailing a loss of \$50,000. It is generally believed that the fire was the work of an incen-diary in retallation for the hanging of Rigney.

Pension Swindlers.

PHILADELPHIA, July 26-Ran-kin and Fank and Mrs Peabody, alias Briggs, arrested yesterday charged with swindling the pension officer were brought before the US commissioner to-day. It appeared that the name of to-day. It appeared that the name of the pensioner was genuine and that Rankin had been employed as her agent, but the application had been made fifteen years ago and applicant has been dead some years. Rankin used the genuine name and the actual facts for the swindle, both men were held in default of \$5,000 bail and the woman was held as a witness.

The Washington Office Rushing of Short Force.

Short Force. WASHINGTON, July 26.—It now appears that only six men were discharged from the main office to-day. It was given out to day, however, that the en-tire seven had gone. One member of the night force is absent to-hight, but he is reported to be sired out and rest-ing. Including this tired man there remain in the Western Union main office only five men, exclusive of chiefs, of the entire day and night force em-ployed when the strike began. To-night Chief Young announces that the press reports are going off in good style and the wires working well.

A Brig With Fever on Board.

A Brig With Fever on Beard. PHILADELPHIA, July 26.—The quar-antine physician to day reported to the board of health that Patrick Kelly, a seaman of the brig Julia Blake died of yellow fever last night at the hospital at Lazaretto station, at which place he had been removed from the vassel. The brig which was bound from Hawana for this port leaded with bones. in bags is detained at quarantine and will be thoroughly fumigated an't the eargo re-moved before being permitted to pass up the river she will probably be de-tained at the station for three weeks.

They Deny the Charge of Mangling.

They Deny the Charge of Manging. WASHINGTON, July 26.—The men dis-charged to-day indignantly deny the charge of Supt Zublin, that they had in-tentionally mangled and wilfully caus-ed errors in business passing through their hands. They say that they were urged by Mr Zublin up to the moment of their dismissal, to withdraw from the agreement to strike under threat of dismissal, is conclusive evidence that the charge is wholly groundless. Supt. Zublin will have his headquarters in Washington for the present. Washington for the present.

render such aid as lies within our pow-er to give, without inquiring their country or creed, and without approv-ing of general strikes among artisans, yet should it become justly necessary to enjoin an oppresser, we will protect and aid any of our members who there-by may suffer loss, and as opportunity offers extend a helping hand to all branches of honorable toil. BROTHERHOOD OF TELEGRAPHERS.

The Western Union company has done all within its power to deceive the public by giving it false and highly colored reports of the condition of the strike. It has been representing its affairs to be brightening, when in fact the company is being pushed closer to the wall every day. They claim for instance, that in New York city they have 300 operators at work. Mr. Campbell, manager of the strikers' headquarters, in New York, says, "I can furnish a list of the names of all the operators who have been at work today in the Western Union building. There were 92, and of that number just 28 deserve the name of operators and 20 of those are second class. Twenty-one of the 92 were women. Many of these people are from the country and are inexperienced. To all these facts I can furnish an affidavit. I am also prepared to prove that the average delay on messages is from 8 to 12 hours. If this strike lasts until next Saturday we will have 95 per cent. of the entire number

of railroad and commercial operators in the Brotherhood." "Can you support the strikers for

three months?" morning. M A Dauphin, on behalf of the Low isiana Lottery company, has instituted suit against Postmaster. General Gris-ham, for damages, to test whether he has the right or not, to exclude the lot-tery company's letters, do., from the mails. The body of Mr. Jan Means of

nails. - The body of Mr. Jan Meares, of Wilmington, the young man who com-mitted suicide at the Haywood White Salphur Springs, at Waynesville, at mentianed in yesterday's paper, arrived in this city on the Statesville train yesterday morning and remained in the express office until night, when it was ent to Wilmington on the Chrolina Central train. We could learn no ad ditional particulars. The circular of the Fort Mill Acad-emy for 1885-85, has just been issued from the Lourenaz-Onservez, job presses. This school has been in suc-constition to its friends and foundes. During the year just closed, there have been 85 pupils anvoiled. serious consequences that will arise through the incompetency of students that will be forced to fill the places of regular railroad operators, in case the latter were ordered to strike. We are receiving all the financial aid required and have further guarantee of any and have further guarances on any amounts necessary. The concert prom-ises to be a great success Friday night, advertising, pisne, etc., all gratis, 3,000 tickets have been printed and being

practice, gives an opium which really uanis, Mesars W. A. Geat and W. B. ontains from 18 to 17 per cent n the average being 15 per cent; but if its preparations be made by its new formulas a 12 per cent powder will then contain 5.44 grains of morphis in each fluid ounce, while if a 16 per cent powder is used the preparation will contain 7.25 grains—a difference much too great for any accurate therapeutic applics-tion, hence the adoption by us of a uni-form and definite intermediate propor-tion, of 6 grains in each fluid ounce, equivalent to 7.5 grains of sulphate of morphia, and this is just one half more than the old standard of 4 grains to the fluid ounce. The new standard is 1 grain of morphia in each 80 minims, or 1 grain of sulphate of morphia in each 64 minims—making 16 minims, the equivalent of one quarter of a grain of the sulphate. This uniform proportion will give very effective and accurate propara. 7.25 grains-a difference much too gree

the sulphate. This uniform proportion will give very effective and accurate preparations, well adapted to that predosage that best guards against overeffects.

An Excursion of Northerners-Me

The excursion of Pennsylvanians into North Carolina next month will be a big affair, and the party will take in the greater portion of our State. They will arrive in Charlotte on, or about the 6th of August, and will leave here for Lincolnton and will be accompanied by McSmith's band, to whom the following invitation has been extended by the manager of the excursion :

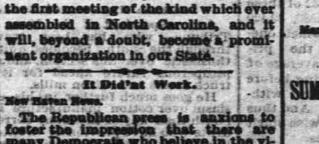

"We extend to you and your band complimentary passage with an extur-sion party from Pennsylvania who will visit your city on or about August 6th, going from Charlotte up to Lincolnton thence to Springs Patterson's near Shelby. If you do not desire to go to Lincolnton, then we can arrange that you follow to Lincolnton the day we go up to Patterson's. Several State officials and prominent gentlemen of North Carolina will be along. There will be six or eight Pennsylvania edit-ors with the party. About fifty in all. A special train will be at our disposal. "We extend to you and your band

Requisition for a Murderer.

A requisition was received at the axecutive department yesterday, says the Columbia Register, from the Governor of North Carolina for the body of Ed-ward Boone, who was arrested at Bradley, in Abbeville county, last Mon-day a week ago, charged with the murder of John S Woodfin. The crime was committed in Xancy county, N C, in 1878. Boone was arrested before in Virginia, whither he had fied, but man-aged to escape. He has been working at the blacksmith trade in Bradley for a short time. A brother of the deceased a short time. A brother of the deceased had discovered where the murdarer was through letters to the latter's wife and her departure from her North Carolins home, he following her to Bradley's. The necessary papers have been sent to the Sheriff of Abbeville for the transfer of the murderer. A Card From Generale Beau
