The Western Union Officials Report Business Running Smoothly and Strikers Returning to Work.

NEW YORK, August 2 .- There seems to be no change to day in the attitude of the Western Union Company toward the striking operators. The officers of the company reported this morning that the usual force of operators returned to duty, and that business was all up last night and is now moving promptly Four more of the strikers returned to work this morning at the Western Union office in this city. They are said to be first class operators. Reports from the eastern district received by the company this morning state that many operators were returning to their pusts each day, and in most of the offices the force is as large as before the strike. In many cases it is reported that members of the Brotherhood who desire to resume work flud their places occupied and are obliged to apply elsewhere. From Superintendent Trabue, of the southern division, word comes that one of the operators at Chattanooga and another at Mobile had returned to duty this morning, and that both ranked as first class men. Reports had come from various points in the South of railroad operators refusing to take commercial ousiness, but all had been promptly dis charged by the railroad superintendents and their places readily filled by the Western Union officials. They denied the truth of the report started by the strikers that the company were cutting their own wires to have an excuse for delaying business.

The last contingent of the striking dress and cloak makers returned to work this morning, having gained their point, and the trouble is now at an end. The Manhatton Suit and Cloak Company was the last to give in. The employees will now get fifteen dollars a week for 10 hours a day's work, and no night work unless paid extra.

CHARLESTON HARBOR.

Report of the Progress of the Wor Done.

WASHINGTON, August 2 .- The report of Col Gilmore, engineer in charge of the river and harbor improvements in South Carolina, Georgia and, Florida, has been received at the War Department. In regard to the improvement of Charleston harbor, the report says the operations for improving the entrance to this harbor were carried out during the past year in conformity to the plan submitted in 1878 to establish and maintain a low water channel of not less than 21 feet in depth across the The Inhabitants Fleeing for Safety .----Awfal Scenes in the Theatre at Casmicciola when the Earthquake Occurred. The burials of victims of the earthquake were continued throughout the day. Two hundred and eighty bodies were buried at Casamicciola, 90 at Loc-ce, and 29 at Forio. The latest estimate places the number of deaths at between 4,000 and 5,000. As it would be impos-sible to recover and bury all the bodies, Signor Genala, Minister of Public Works, has ordered that, in view of the horrible exhalations from the decomposing remains, the unrecovered corpses be left where they lie, and liquid lime be poured over the ruins made by the earthquake. Casamicciola will thus be con-

verted into a vast cemetery. The search of the ruins for bodies of victims of the earthquake on the Jaland of Ischia was continued last night. All the bodies recovered are buried immediately to prevent miasma. Two thousand soldiers digging in the ruins sayed 1,000 lives up to midday on Sunday and exhumed 24 persons alive on Monday. The only American known to have been injured by the earthquake was i Miss Van Allen, and she is only slightly hurt.

An eye witness describes the scene at the theatre at Casamicciola, when the earthquake occurred, as an awful one. The curtain had just risen when a tremendous shock was felt. A fearful roar followed, and the ground rocked like the sea in a storm. A great cry of terror arose from the audience, who were thrown into a heap, and a large number of them were buried beneath the timbers of the building, which fell upon them. Two more shocks occurred. All who could rushed outside of the theatre and hundreds of persons clambered into the trees in the vicinity for safety. Most of the people, however, escaped to the shore, where bonfires were lighted as signals of distress.

Hundreds of haif naked men and women, wild with terror and grief, ran to and fro among the ruins with torches during the night, searching for missing friends.

A Useful Invention for Gins. We had the pleasure yesterday of making the acquaintance of Capt. John A. Harrison, of Henderson, N.C., who is now in the city, at the Central Hotel, selling State and county rights for a seed cotton elevator and distributor for gin houses. We had heard of the in-vention, but had no conception of the structure of the machine. It is claimed that it will elevate 800 pounds of seed cotton per minute, and distribute it into different apartments of the house, saving enough time to pay for ginning the entire crop. With this help at the command of ginners a great amount of labor can be saved and the work of ginning expedited.

The Poplar Tent Fair.

The celebrated Poplar Tent Fair is to be held on next Wednesday and Thursday, 8th and 9th insts., and Mr. J. B Harris, the president, who was in the city yesterday, tells us that all the arrangements have been completed for a big time. I Hon: B. T. Bennett will deliver an address before the people from the grand stand on the morning of the 8th. Gov. Jarvis, who has written that he will be present, will also deliver an address. Maj. W. A. Graham, of Gaston county, will address the people on the second day of the fair. The list of entries is large and interesting, and it is now certain that the fair this year will equal that of any previous year. So far no wedding has been arranged for, the fun resulting from the one had last year being regarded as sufficient to last two years. Poplar Tent is eighteen miles from Charlotte, and, as is usually the case, a large party of Charlotte people will be there.

The Stabbing of Senator Vance's Son. Mr. Z-b Vance, who was stabbed in Asheville one week ago this morning, is still improving and will soon be up again. From parties who were present and who ought to know all about it we have learned additional particulars, quite different from the first reports, and which will be read with interest: Cromwell is a bad character, a bartender in Asheville, and Zeb was neither playing pool with him nor had had any quarrel with him. The officers of the Richmond & Danville Railroad, in Richmond, concede that the road has passed into the hands of the Seney syndicate. The question of interest in that city now is whether the Danville road will be operated by the new party in unison with the East Tennessee, Virginia and Georgia railroad. The best opinion seems to be that it will. The latter road has all along depended on the Norfolk and Western road to get to the seaboard. It may, under this verified system, by the use of the Western North Carolina road, come into the Dangille road at Salisbury, N. C., and use it back to West Point, or by a change of switch at Danville use the Midland track to Washington. The fact that the traffic of the proposed system may find its way to deep water at West Point is probable when it is remembered that the steamers of Mr. Clyde, one of the parties SOUTH CAROLINA NEWS.

Reports from the Striking Brotherhood -- A Ravisher Lynched.

NEW YORK, August 2.-At the headquarters of the Brotherhood of Teleraphers it was said that there was nothing new to day regarding the strike and that the men were all satisfied with the prospect and were confident of suc-ceeding in the end. The work of pay-ing off the men was conducted to-day. The strikers are in high glee over the storm as it was said that much damage would be done to the Western Union wires and would create still greater confusion in the affairs of the office. The reports of the discharge of railroad operators who refused to take Western Union business and the supplying of new men to fill their places were discredited and said to be a fiction of the Telegraph Company to encourage their hard worked employes last night. A crowd assembled at the jail in

Mayersville and demanded the keys from the sheriff, who refused to surrender them. They then broke in the door and took out D W Pressel who was under arrest for the rape of a girl nine years old and hanged him in the coart house yard.
