A woman in Philadelphia quarrelled with her husband, swallowed a bottle of laudanum, told him what she did and fixed herself to die comfortably. He ran for a doctor who came with a stomach pump, and next day the woman was sitting at the front door eating canteloupes as if she never dreamed of leaving this vain world.

Here is another illustration of how chickens come home to roost: "Jake" Durt is a member of the Georgia Legislature. W S Bassinger was a candidate for a seat on the Supreme bench. Nine years ago he indulged in a cutting remark to young Dori's father, who was an old man. The young man vowed that he would get even with him. When the contest narrowed down after several days to Blanford and Bassinger. Dort threw himself vigorously into the fight, beat Bassinger and remarked that he had scored one for his father,

SHOT BY HIS WIFE.

An Insane Wife Sends a Bullet Through the Heart of Her Sleeping Husband.

BALTIMORE, MD., August 7.-Mr. L I. Conrad, a lawyer of this city, promi-uent in professional and social life, was shot and killed last night by his wife near Glydon in Baltimore county about 25 miles from this city. Mrs. Conrad has been suffering from illness for some time accompanied by evidence of insanity. She was visited yesterday by her brother and mother, who left her in the afternoon in a quiet condition. and a son of Hon. William H. Conrad, Secretary of War, during Fillmore's administration. He was sleeping by his wife's side when shot. The bullet entered his heart killing him instantly Mrs. Conrad is a cousin of Samuel Hanson who recently killed Charles Ridgely White, in Howard county. She is also a cousin of John Tally and Richard Johnson, both of whom com-mitted suicide. All were suffering from insanity.

The feverish haste with which our esteemed Republican contemporaries publish the statement of Dorsey "that he did not prompt a line, dictate a line or know anything about the publication" of the New York Sun interview indicates that that the "budget" was a dangerous broadside, notwithstanding their original efforts to pooh pooh it and denounce its wicked author.

2 te Mormans Victorious.

OGDEN, August 7-The election yesterday passed on quietly, but little in-terest being taken in it. The Morman licket was elected in each district throughout the Territory with the exception of Summit county, which is in doubt. The majority of the Gentiles refrained from voting. A large ma-fority of the Mormans would, it was known, vote solid as directed by the church, and this fact deprived the elec-

CUTTING THE WIRES.

A Bad Move for the Strikers if True. New York, August 7—The following has just been issued from the executive office of the Western Union telegraph company at New York: "Notice. -It has come to our knowledge that in connection with the strike of operators and linemen an organized plan of cutting and crossing the wires of the West ern Union and other companies in New York city and vicinity has been agreed upon and is now being carried out. In pursuance of such plan a number of our wires have been cut during the past week and fifty wires were cut last night in New York city and vicinity, the work showing all the marks of having been done by skilled hands. One thou sand dollars will be paid by the compa my for the arrest and conviction of each and every person willfully injuring or

destroying any part of the company's telegraph lines. THOS. T. ECKERT, Acting President." In relation to the matter an officia of the telegraph company says the cable box at Cascot, Conn, was destroyed last night and the cables were cut; that 26 of 29 wires were rendered useless at Scoredale, and that the American Union and Atlantic and Pacific routes to Bos ton were interrupted, with the evident intention of preventing the Boston pa-pers from getting full reports of the Sullivan-Slade affair at Madison Square

Hostility to the Jews.

London, August 5.—There is great excitement in Hungary over the result of the trial of the Jews accused of murdering Esther Solymost. At Presburg a mob of anti-Semitics gathered and became so hostile in their demonstrations against the Jews that the author ties were compelled to order out the

military to disperse them. The Jewish residents of Ekatirinslay Russia, were attacked by a mob on the 2d inst. The soldiery had to be called out to disperse the rioters, ten of whom were killed and thirteen wounded. The trouble was caused by a Jew insulting a peasant woman. The town council of Ekatirinslav has resolved to give the Jews 5,000 roubles to compensate them for their losses and to provide shelter for those who were rendered homeless.

A Fizzled Uprising.

LONDON, August 7 .- A Times correspondent says the rising of the meeting at Bedagose ended in a most undignified manner. Very little harm was done by the insurgents beyond slight damage to railway and robbery of regimental and municipal moneys. It is doubtful whether the movement was ever serious. It is stated in some quarters that the outbreak was only part of a pr gramme of a gigantic stock jobbing speculation conducted by a certain clique which has for a long time been making extraordinary efforts to destroy the improving credit of Spain.

Two Paintul Accidents.

Yesterday afternoon, little Willie Timmons, who works in the job department of the JOURNAL-OBSERVER office, met with an exceedingly painful accident in the press room. He was engaged at one of the job presses which was running at full speed, when in some manner he got one of his fingers caught between the teeth of two cog wheels. The finger was ground up to the hand, and though the press had to be stopped and turned back before the finger could be released, the little fellow never flinched but stood the pain bravely. The finger was terribly lacerated and the bones crushed, but Dr. Brevard, who attended the case, thinks that amputation will not have to

be resorted to. Out at the baseball ground, Mr John Witherspoon tried to stop a hot ball and was painfully The ball struck the end of one of his fingers, tearing away the entire nail and badly splitting the finger. It appears-like a person is liable to get hurt at anything, these days.

Two weeks ago the Western Union Company cut its own wires and removed the instruments from the office in that town, thus depriving the citizens of that place of the benefit of the wires and all because Miss Mary Ormand, the operator, was a member of the Brotherhood and had joined the strike. The Western Union moved out of a warm berth and the Southern Telegraph Company, seeing its opportunity, hopped into the place vacated by the W. U. The wires of the new company were run into the office in that town yesterday. and Miss Ormand, the late W. U. operator, was placed in charge of the new office. The Western Union has thus been kicked out of Concord for good. Display of North Carolina Gems at

Prof. Chas. T. Wheeler, of this city, who spent some years in study under the late Prof. Humphries, the eminent mineralogist, and who has since gathered together a fine selection of North Carolina gems, has prepared a cabinet to send to Boston for display in the great exposition. We have alluded to Prof. Wheeler's collection before, but he has since added several valuable specimens, and his cabinet of minerals is now not only a beautiful, but a very valuable one. It is interesting as showing the numbers and varieties of precious gems that are to be found in our State and will no doubt attract considerable attention at Boston. The gems were found in the counties of Burke, Catawba, Caldwell, Yaney, Alexander, Mitchell, Clay and Iredell, and the following list embraces the collection for

Polished gems .- Diamond 1; aqua marines, very fine, 3; rutilated amethysts, 15; beryls, blue and green, 10; rutilated quartz, very fine, 25; Hiddenite, 1; sun stones, 2; serpentines, 10; agates, moss and fortification, 50; garnets, perfectly transparent and flawless

In rough state.—Smoky quartz tals; rutilated quartz crystals, red, white and black; quartz crystal containing a fluid; quartz crystal with pasal plane; massive quartz corundum, ruby and sapphire varieties; beryl in large crystals; tourmaline; granular quartz; quartz crystal containing layers of red clay; amethysts; quarts crystals containing smoky and amethyst tints; rutile matter across quartz crystal; actinolite; baryta; chalcedony; moon-

ing taxoble property in Mallard Creek Important Railroad Contract. Our North Carolina Railroad enterprises are still booming. The Atlanta Constitution says that the South Carolina Pacific Railway Company has contracted with the Cape Fear and Yadkin Valley Railroad Company to meet the road of the latter company at the State line within the next twelve months. The preliminaries have all been arranged, and if the right of way can be secured, the road will be built in the next year. It will run from Bennettsville, S. C., to some point on the North Carolina line, and thence to Fayetteville. Westward the road will be extended to Camden, connecting there with the South Carolina Railway, and at Society Hill with the Cheraw and Salisbury railroad, thus furnishing two outlets to Charleston. Ultimately the Cape Fear and Yadkin Valley Company will extend its lines to Abingdon, Va., where through connections with Cincinnati will be reached. Marriage of Mr. M. L. Mott. Mr Marshall L Mott, son of Dr John Mott, of Statesville, was married in the Episcopal church in this city yesterday afternoon at 3 o'clock, to Miss Mamie Sanchez, a young lady of Augusta, Ga, who had been spending a few weeks at the Sparkling Catawba Springs, and who was on her return home. Mr Mott and Miss Sanchez, accompanied by Mr Miller, a cousin of the young lady, arrived in the city yesterday morning and stopped at the Buford House. It was Miss Sanchez' intention to take the noon train yesterday with her cousin for her home in Augusta, but Cupid is capricious. Mr Miller went on without Miss Sanchez, and shortly after the train bore him away, the happy pair, after having procured the necessary license, took a carriage and drove to the Episcopal church, where Rev J B Cheshire united them in the bonds. Mr Ike Lowman acted as the groom's best man, but there were no other attendants. After the wedding, the newly married drove back to the hotel, where they will remain several days. So quietly was the whole affair conducted that the city or the kind going on until after it was over, and of course the surprise was a complete one. Perhaps the most important event in the history of the Dry Goods business in this section is the completion of the magnificent establishment of

Wittkowsky & Baruch.

To the friends and acquaintances of this old established house living all over the country there is no need of introduction, but we deem it only proper to call the attention of the people who are so situated living miles and miles away from us, that we are now in a position' to offer facilities to purchasers of Dry Goods, etc., that are not equalled outside of New York.

After many months of patient waiting and anxiety the large corps of artisans and mechanics that have been employed are about to vacate, leaving behind them everything so perfect in all appointments and requirements for the transaction of an immense business that on entering this Mart of Fashion one can immediately observe that every detail that experience could desire or taste could suggest has been attended to. Everything that in any way could add to the comfort and convenience of customers has been zealously looked after and provided for. The premises have been enlarged to more than four times its former capacity, while several new departments have been added, all of which are entirely new features. and supplying a want that has long been "felt in this section. All these vast improvements, provided at an immense outlay of capital, must necessarily have a telling effect on the business interests of this growing and beautiful city. For was in profound ignorance of anything | now ladies of the most refined tastes, for which the Carolinas are proverbial can find in this establishment every requisite of a wardrobe, for either street or toilet.

New Departures.

We feel that nowhere on this continent is there a wider field for progress than in the balmy valleys of the lovely South. Ourselves animated and imbued with the most enthusiastic spirit for the elevation and advancement of commercial interests of our section are determined to keep abreast of the times, With new and advanced ideas crowding out the old, pluck instead of luck, cash instead of credit, ability in place of cheek, science and energy beating down the old fogy plan of doing business, old goods and long prices find no restingplace with us, our motte is and shall be

by always keeping the Regulator
in the House!

For, whatever the allment may be, a thoroughly safe purgative, alternative and tomic can never be out of place. The remody is harmless and does not interfere with business or pleasure.

And has all the power and efficacy of Calomel or Quinine, without any of the injurious after effects.

A Governor's Testimony.

Simmons Liver Regulator has been in use in my family for some time, and I am satisfied it is a valuable addition to the medical science.

J. GILL SHORTER, Governor of Ala.

Hon. Alexander H. Stephens, of Gausays: Have derived some benefit from the use of Simmons Liver Regulator, and wish to give it a further trial.

"The only Thing that never falls to Believe."—I have used many remedies for Dyspepsia, Liver Affection and Debility, but never have found anything to benefit me to the extent Simmons Liver Regulator has. I sent from Minsesota to Georgia for it, and would send further for such a medicine, and would advise all who are similarly affected to give it a trial as it seems the only thing that never falls to relieve.

P. M. JAHHER, Minneapolis, Minn.

Dr. T. W. Mason says: From actual ex-perience in the use of Simmons Liver Regulator in my practice I have been and am satisfied to use and prescribe it as a purgative medicine.
