MR. ROACH'S CASE.

To the average man of average sense, whether he have any knowledge of constitutional law or any other sort of law, it will be apt to appear that the position which Senator George took yesterday upon the Roach case is impregnable. It would seem, though a man had at one period of his life been guilty of a criminal offense, that if his own people condone it and elevate him to high p'ace it is no part of the business of his associates to reach back into his past and deny him his rights among them on account of an offense committed before he became one of them. If Mr. Roach had offended since he took his seat in the Senate, or after his election and before he was seated, the case would be materially different. The Senate, in deciding this case, will establish a very important precedent, and if the Republicans by any chance succeed in forcing an investigation of Senator Roach's case they will give warrant for the washing of no small amount of senatorial soiled linen-warrant under which the Democrats will be very certain to proceed, for Mr. Gorman utters no idle threats. Mr. Quay, it may be assumed to begin with, will vote against Mr. Hoar's resolution-if Mr. George's constitutional argument does not so influence him, personal considerations will.

The OBSERVER of yesterday had a clipping about a Columbia telephone girl whose case was before the Charleston Presbytery. She was a member of the Second Presbyterian church of Columbia and was churched for working an hour on Sundays. She appealed her case to the Presbytery where it was argued for her by Rev. J W. Flinn and against her by Rev. G. A. Blackburn, and yesterday's news is that the Presbytery, Thursday night, sustained the church and downed the telephone girl by a vote of 20 to 8. It side Dr. Woodrow voted. The case will be appealed to the Synod. It is not for us to say that the Presbytery was wrong, but its decision appears to be rather a hard one in view of the fact that we are all more or less miserable sinners.

The South, as a whole, as well as the security-holders of the Richmond & Danville Railroad immediately, is to be congratulated upon the fact that Drexel, Morgan & Co. have consented to undertake the re-organization and re-habilita tion of this property and its leased lines They will set the system on its feet and enable it to become even a more powerful factor than it has been in the upbuilding of the South. It is a splendid property and it must be that it has been mismansged at headquarters or it would not have become embarrassed as it now is. Some of its branch lines are non-productive, are even an expense to it; but as a whole it is a property of great possibilities and should now be paying a handsome interest upon the legitimate investment.

It is matter for regret that the Presi dent could not see his way clear to appoint Hon. John J. Hemphill, of South Carolina, to the beach of the Court of Appeals of the District of Columbia, a position for which he had been understood to be slated. Mr. Cleveland intimated, however, some days ago, that he thought it hardly proper to appoint as a member of that court a person who was a member of the Congress which created it. And this is the consideration, doubtless, which influenced him against Mr. Hempbill.

The fact that two Louisiana editors, disappointed about get offices in Wash ington, are to start home on foot, will serve to disabuse the public mind of the impression that every newspaper man, always, and under all circumstances, totes a pass. While these brethren are trudging along their toilsome way they may console themselves with the reflection that though it be long and though they may occasionally have to coon a trestle, they are vindicating the profession against the aspersion that as a whole it is subsidized by monopoly.

Says a Raleigh special of the 18th to

the Wilmington Messenger: The county Alliances all over the State met to-day. Your correspondent asked the Third party chairman, Otho Wilson, if the Wake County Alliance had discussed the matter of the reduction of the cotton acreage. He said that it had not been mentioned, but the Alliance had discussed what he termed the cussedness of the Legislature in attempting to repeal the State Alliance charter.

Why, to be sure. What has the Farmers' Alliance to do with farming? What is there in common between Alliancemen

Your lawyer with a bad case is a shifty citizen, and oftentimes contributes something of interest to the sum of nan knowledge. How, for instance, but for the case twied at Columbia, S. C. Thursday, and reported in yesterday's dispatches, would a waiting world have ever learned that a gentleman who is de-rold of front teeth is denied the pleas-ure of whistling?

The law requires that if the money is not refunded in sixty days after application the matter shall be brought to the attention of the Attorney General of the State, who shall take steps to have it refunded.

The Lincoln Courier says that Thurs day night of last week the barn at the Lincoln county poor house was burned and in the fire were consumed two mules, a horse, a cow and one or two hogs, all belonging to Mr. P. F. Baxter, the keeper of the home; also all the "roughness" in the barn. It is said he could have saved his mules after the fire was discovered, but the wind was blowing towards the other buildings and he turned his attention towards saving the inmates. It was with the greatest difficulty that the other buildings were saved.

IR. HENDERSON'S FINE WORK, ICE, THIS YEAR AND LAST. THE REASON FOR THE HIGHER PRICE

rices Here and Elsewhere - The Business Conducted Last Year Without Profit -A Factory to Be Started Here If Water Can Be Found. To the Editor of the Observe

To the Editor of the Observer:

I am a little amused at the articles you have published, one under the head of "The Ice Combine" and the other under the heading "Keep Cool." I do not usually rush into print when anything is said ab ut me, but these two articles are so entirely misleading, that in justice to myself I request that you publish this article and let the public know what I have to say about it. The ice machine will certainly be built at Charlotte if a supply of water can be had; that is the first and chief requisite to the successful operation of an ice machine.

As to the prices of ice in Charlotte, I want to give you and the public a com-

want to give you and the public a com-parison between the prices we made of 50, 60 and 70 cents per hundred for ice, owing to the quantity, and the prices at which ice is sold in other States.

At Rome, Ga, in lots of 100 pounds at a time, 50 cents per hundred; lots of 90 pounds, 60 cents; in lots of 25 pounds, 80 cents, and in less quantities one cent per pound In Chicago, Ill., daily de-livery of 90 pounds per week, 60 cents per week; 100 pounds, 40 cents per hun-dred. The prices of the Florida Ice Manufacturing Association are 500 to 1,000 pounds, 55 cents per hundred; 1,000 pounds and over, 50 cents per hundred; 25 to 100 pounds, 60 cents per hundred; \$7 00 per ton. At Columbus, Miss., the retail price to families is one cent per pound; 100 pounds or over, 50 cents per hundred. The New York City Hygeia Ice Company, family supplies, 50 cents per hundred. Springfield, Ohio, family supplies, 65—cents per hundred. Chester, Penn., 35 pounds per week, 35 cents per week, 70 pounds per week, 45 cents per week; 105 pounds per week, 60 cents per week; 100 to 500 pounds at one time, 40 cents per hundred. In Philadelphia, 70 pounds per week, 35 cents; 100 pounds or over, 35 cents per hundred. At Pittsburg, Pa., 70 pounds per week, 48 cents; 140 pounds per week, 84 cents per week; 200 pounds per week, \$ 00 per week. At Spartanburg, S. C., ivered in 5 pound lots, \$1 25 per hundred; 20 to 100 pounds, one cent per pound; 12 pounds, 15 cents; 7 pounds, 10 cents; 3 pounds, 5 cents. At Sumter, S. C., retail price for local trade, 50 cents per hundred pounds. At Nashville, Tenn., 5 pounds ice, 5 cents; 100 to 500 pounds, 40 cents per hundred. At Rich-Va., 5 pounds ice, 5 cents; 10 pounds to 100 pounds, \(\frac{1}{2}\) cent per pound; 100 to 1,000 pounds, 40 cents per hun-

dred Now the prices that I made (I take the responsibility of having made the prices for the ice that we are selling at Charlotte) are, on an average, just the same as ice is sold at 90 per cent. of the points in the South where ice is manufactured. The prices at which ice has been sold in Charlotte for the last three years has not been profitable either to myself or the parties who operated the ice machine

Both of us have been selling our ice at just about what it cost us to produce it, and we just simply concluded that it was time we stopped that and try to make a little money out of it. The advance of the price of ice over what it was last year and the year before is a very small one, and was made for the season.

It is not my intention to start a small ice factory in Charlotte, but to put up one of sufficient capacity to supply the entire demand of and the surrounding territory. The The Republican has information that orders for a good portion of this machine Robinson's circus will be in Winston have already been given, and it will be erected just as soon as a sufficient supply of water can be found. In the meantime, we have got to have the ice from somewhere, and we propose to buy it wherever we can get it the cheapest. Yours, very respectfully,

WM E. WORTH. Wilmington, N. C. April 11, 1893.

The "a nure nent' about this matter is all with Mr. worth-the ice buyers of Charlotte are not tickled a bit. The price of ice at other places is a matter that is hardly pertinent to the present discussion-the one point that the OB SERVER made is that the price of ice in Charlotte this year has been advanced over the price that prevailed last year, Worth sustains this statement. That is the only thing the people here are interested in-not the whys and wherefores. It is understood here, for instance, that a good deal of money was lost last year in sinking a well for an ice factory, some estimating the cost of the well as high as \$9,000, but the people of Charlotte have nothing to do with that. As to getting water here for an ice factory, we apprehend that, with streams all around the city, there should be no trouble on this score, but it is not the OBSERVER's business to undertake the settlement of that question. Its duty is done when it rivets attention upon the fact that the peop'e of Charlot e in an age when the tendency is toward the cheapening of products of all kinds, are paying more for ice this year than they did last.—OBSERVER.]

THE YOUNG KING HAS GRIT.

Re Arrests the Servian Ministers and Declares Himself Ruler. BELGRADE, April 14.-King Alexander has arrested the regents and ministers of Servia. He has declared that he has attained his majority and has assum-

ed the government of the country. The arrests were made at a grand ban quet given at the palace to celebrate King Alexander's success in passing the examinations prescribed for Servian students. At midnight, while the festivities were in progress, the king proclaimed that he had attained his majority and had, with his Skupshan, assumed the govern

ment of the country. When the deposed regents and ministers heard the proclamation they were dumbfounded. The king and his advisers acted promptly and the soldiers in waiting placed the regents and ministers under arrest. The army is loyal to the king.

Long before daybreak the king pro-ceeded to the barracks, where he was received with joyous acclamations and expressions of loyalty. A new ministry was appointed with M. Daketch as prime minister. This morning the king issued a decree

dissolving the Skupshan and writs for a new election have been sent to the various constituencies. The act of Alexander appears to mee with the approval of the populace.

I hereby give notice that at the recent session of the General Assembly of North Carolina the following act was passed to wit: N ACT Allowing an Increase of Tax-A ation for Public Graded Schools in

Charlotte. The General Assembly of North Carolina

do enact: Sec. 1. That the board of aldermen of the city of Charlotte, N. C., shall have power to levy an annual tax for the support and maintenance of the Public Graded Schools in said city, which annual tax shall not exceed twenty cents on the one hundred dollars value of property and sixty cents on the poll. Sec. 2. This act shall not take effect

until it shall have been ratified by a vote of a majority of the qualified voters of the city of Charlotte, N. C. Sec. 3. That it shall be the duty of the mayor of the city of Charlotte, N. C. to cause publication to be made, for thirty days prior to the first Monday in May, 1893, in at least one of the newspapers published in the city of Charlotte, N. C., notice setting forth this act and giving public notice that on the said first Monday in May, 1893, the polls will be open at the usual polling places in the several wards for the purpose of voting for the ratification or rejection of this act.

Sec. 4. That on the first Monday in May, 1893, the polls shall be open at the usual polling places in the said several wards for the purpose of voting for the ratification or rejection of this act. That it shall be the duty of the mayor and and board of aldermen of the city of Charlotte, N. C., to provide at each of the said several polling places a separate ballot box for the reception of such ballots. Those voting in favor of the ratification of this act shall vote a ticket bearing the word "Ratification," and those voting against its ratification shall vote a

ticket bearing the word "Rejected." Sec. 5. That said election shall be conducted by the same judges and in the same manner as is provided for the election of a mayor and aldermen of said city, and the ballots shall be counted, and the result declared in the same manner as is now provided for the election of the mayor and board of aldermen; and if a majority of the ballots shall be found to be in favor of the ratification of this act, then this act shall be immediately in full force and effect, but in case the majority shall be found against its ratification it shall be then of no effect.

Sec. 6. That this act shall be in force from and after its ratification. Ratified this, the third day of March, State of North Carolina, office of Secre-

tary of State, Raleigh, March 16th, I, Octavius Coke, Secretary of State of the Ftate of North Carolina, do hereby certify the foregoing two (2) sheets to be a true copy from the records of this office. Dene in office at Raleigh, this

See what the most noted physician of South Carolina has to say for this famous

After a long and varied experience in the use of mineral waters from many sources, both foreign and domestic, I am fully persuaded that the Harris Lithia Water possesses efficacy in the treatment of affections of the kidney and bladder unequalled by any other water of which I have made trial.

This opinion is based upon observation of its effects on my patients for the past three years, during which time I have prescribed it freely and almost uniformly

with benefit in the medicable maladies shove mentioned.

When failure to relieve has occurred I have imputed it to insufficient use of the water, for my experience teaches me that from one to two quarts daily should be taken from two to four weeks, to secure its full remedial effects.
