BIRMINGHAM, Ala , April 26 -Just as yesterday, the wigwam was crowded long before the convention began. There

was the same eager interest marked on large number of guests on last evening every face. Ropes had been strung from 8 to 12, the occasion being in honor across the middle of the wigwam and of Mr. and Mrs. Alexander W. Offer Them as Privileged Motions, and Explains His Position-Mr. Reed Opposes Ineffectually-Saven Members Present and Not Voting-A Little Business Transacted.

WASHINGTON, April 26 - The usual objection was made upon the Republican side of the House to the pro forma approval of the previous day's journal. and a yes and nay vote was taken. The journal was approved, yeas 237; nays 0; pres-ent but not voting, 7. Mr. Mahon, Republican, of Pennsylvania, rising to a question of privilege sent to the clerk's desk and had read the following resolu-

"Resolved, That the sergeant-at-arms is hereby directed to pay to members and delegates their salary on the 4th day of each and every month, as provided by law, and that he shall not deduct any part of a member's salary on account of

the absence under the act of August 16, 1856, until the absence of a member has been duly certified to him under a rule or some attention of this House by the officer authorized to certify the same." Mr. Outhwalte, Democrat, of Ohio, made the point that the resolution was

not privileged. When the debate upon the point of order had concluded, Speak er Crisp ruled as follows: "The gentleman from Pennsylvania

[Mr. Mahon] submits a resolution which he claims raises a privileged question. The constitution says that members shall receive a salary to be fixed by law. Congress has passed a law fixing the salary of members, and all that this House thas ever undertaken to do under its fules in dealing with the question of salaries is to provide that the sergeant-starms shall keep the accounts for the pay and milesge of members and delegates and pay them as provided by law. When you turn to the law you find that the eer geant-at-arms is required to deduct from the monthly pay of members for those

days when they are absent, except for sickness of themselves or sickness of their families." Mr. Reed-"That is not the law. The Speaker-"Gentlemen state that this is not the law. It is not the purpose or province of the House of Representatives to determine what is existing law This House can make law, but when it comes to the construction of law, that matter is for the courts, and not for the House. sythe, Mon , forty-six miles west of Fort Keogh FORSYTHE, Mont., April 26 -Although Col. Page and his 250 United States regulars moved with great caution in capturing the Montana Coxey army this morning, nearly 100 of the train stealers escaped to the woods. Those captured made no resistance whatever The number taken by the detachment of the Twenty-second regiment was 331 including Gen Hogan, Engineer Harmon and Fireman Brady. The Common weal-

ers were ridiculously poorly armed, only three revolvers being found. Three of the men were found to be slightly wounded, their injuries having been received in the skirmish at Billings yesterday. Seventy five deputy United States mar-

sha's arrived here during the afternoon and the Hogan contingent of Coxey's army was turned over to them The train in charge of the marshals, escorted by a detachment of the Twenty-second Regiment, started for Helesa this evening. The prisoners will be arraighed in the United States District Court there with out delay on the charge of the theil of a train and disobedience of an injunction The general bellef is that only six or eight of the leaders will be held and the remainder will be hauled back to Batte and set at liberty. Col. Swayne had prepared for a retrograde movement on the part of the Commonwealers by placing four companies from Fort Custer on the railroad after the train passed cast of Custer.

Browne's Men Have Clubs.

WASHINGTON, April 25 - A Post special from Frederick, Md, says: aside from the excitement in camp this oven ing, there was another incident tust was worthy of note, as possibly covering one of Browne's deep laid schemes. He calls "issuing banners of peace" to the men. It is likely that the Washington authori ties would term it "making an armed body of the Commonweal." The "banners of peace" are about 5x12 inches, made of cotton, and printed with the legend, "Peace on earth, and good will towards men" They are neither remarkable nor formidable.
