NEW ORLEANS, La , Aug. 22, 1894. Mr. J. T. Very respectfully, JOSEPH JONES, M. D., LL. D., Professor Chemistry and Medical Jurisprudence, Tulane University.

ASHEVILLE, N. C., Sept. 9, 1893. Mr. J. T. Harris: We have been sel ing the Harris Lithia Water for some time, and find it a ready seller; those who have tried it are loud in its praise. The doctors here regard it as superior to either the Buffalo or Londonderry Waters. We predict for it a wonderfu sale when its merits become more generally known. Yours very truly, RAYSOR & SMITH.

ALBANY, N. Y., April 17 .- In pursuance of the recommendation of the Governor that the Legislature take action to see that the State is properly represented at the Cotton States and International Exposition soon to be held at Atlanta, Ga., the ways and means committee of the Assembly will to-morrow introduce a bill. The measure will provide that Mrs. Levi P. Morton, Mrs. Howard Townsend, of Mount Vernon, and Mrs. Donald McLean, of New York city, with three commissioners to be appointed by the Governor, constitute a commission to take charge of the New York State exhibit at the fair, which is to be held from September 18th to December 31st of this year. The bill will appropriate \$25,000 for the

expenses of the commission. It was the intention of the committee to allow the bill to go to the Governor without naming the women who are to constitute a part of the commission. A communication was received from the Colonial Dames of America, requesting the appointment of the three women who have been named. It was in order not to place the Governor in the position of appointing Mrs. Morton, that she and her colleagues were named by the committee.

The Stock Market Regalging Strength. New York, April 17.—To day's stock market was irregular, but in the main it showed a pronounced undertone of strength on rumors of an approaching settlement of the anthracite controversy. Jersey Central rose over 1%. Reading gained about a point and the two Delawares were strong. The Western Vanderbilt shares advanced smartly on small dealings. Manhattan was conspicuous with a gain ot 3%. The passing of the Baltimore & Ohio dividend caused a break of 5% in the stock. In the Industrial list General Electric broke early 114% on the termination of the recent negotiations, but it later re-vered about all the loss. Sugar was string and fractionally higher, and Chicago 1.5 was irregular. The market closed with a rallying tendency and strong in mu t lustances.
