OPEN LETTER TO CHAIRMAN POU. Let the Issue be Made on State Banks Under National Supervision Instead of Free Cotuage of Silver.

Carolina: DEAR SIR:-It is a matter of daily surprise and growing wonder that those who are supposed to guide the policy of the party within the State have not yet recognized how fatuous is all this talk about harmony. At the bottom of every political question is a moral consideration which no amount of political posturing, trimming of opinions or con-

The man who believes in sound money and votes for free silver, under any consideration whatever, violates his conscience. Yet this is what we are daily (almost hourly) invited to do. When was it right or even good policy to ask an honest people to do wrong to save the party, the State or nation? The writer has voted the Democratic ticket a dozen years because the party has stood for patriotism, justice, the highest interests of the people, and above all for what is right. Therefore, to-day, this protest against any deviation from the course laid down above.

Cotton Rose 3 to 4 Points in the Early Trading, Lost it. Closing Easy at a Decline of 4 to 5 Points-Liverpool Advices Somewhat Disappointing.

New York Sun's Cotton Review. NEW YORK, June 17 -- Cotton rose points, but lost this and declined the taking theg overnment out of the banking business as the end in view.

"The Baltimore plan," as projected by a gathering of bankers and capitalists in that city a few months ago, was a very significant sign of the growing sentiment in favor of the removal of the 10 per cent. tax on State bank issues in financial circles.

With the Democratic party as cnampion of the people contending for the bast attainable currency it would have best attainable currency, it would have the enthusiastic support of all its members and could look with assurance for Georgia, together with local covering of shorts and some investment of the control shorts and some investment buying, caused organization in New York, which with-out political affiliation of any sort, is lors, and also more or less selling for local and continental account, which caused a decline. Needed rains fell in Arkansas and Tennessee On the whole, Liverpool advices were disappointing, trade there being dull, at weak prices on the spot, while futures showed the effect of considerable liquidation. The speculation here was on a moderate scale. Some stop orders were reported, and they accelerated the decline. Nevertheless, many believe that ultimately evertheless, many believe that ultimately cotton will reach considerably higher quotations. It may be a dragging market for a time, but in the end, it is contended that the generally improved trade conditions in

this country and the backwardness of the crop will tell favorably on the price. A Good Day for the Bulls-Missourl Pa cific and Tennessee Coal and Iron Head the List-St. Paul, Sugar and Chicago Gas Were Extensively Traded In.
