Now I want you young men to realiz that when you have received great ad vantages, great responsibilities go with those advantages, and that you have no right, as a citizen in a land like this, to keep in darkness upon any pub lic question; nor have you a right to listen to any persuasions except the persuasions which come from your conscience and your judgment.

These sentiments would be sufficient to "rnoble and lift above common-place the dullest speech otherwise that was over made, and whether he is elected or defeated they will remain a crown of glory to Mr. Bryan. No man running for a great office and seeking to bend everything his way could have ut tered them except the man who has the breadth and the magnanimity t ask for charitable consideration of the conduct of the Yale students who had hooted at him.

He is a big, broad man. If there had remained a doubt of the fact this Jacksonville speech would have established

PRINCIPLE AND PELF The Wilmington Star, in an editorial under the above caption, observes that Populist party, the rank and file of which is honest, although the leaders are not. Two years ago they fused with electors, which is proper, both having the Republicans, with whom they had nominated the same candidate, who nothing in common save the greed for spoils, and this year they have done the same thing where the grasping demands of the Republicans did not prevent a trade. While pretending to be actuated by principle, their sole inspiration has been the spoils of office, upon which they have kept a steady eye in every movement they made." The election of Mr. C. P. Bronies of this city, to be principal of the New England Textile School about being established at Lewell, Massachusetts, by the city and the State, is gratifying from two points of view-first, that Charlotte should furnish a man who is selected for his skill and knowledge of the textile art, and, second, that the South should have made so much proglotte.

Road policy is interesting and doubtless true. The Populist leaders were offered on Bryan's election by Bookscheming, according to this report, to demand the nomination of Watson instead of Sewall in the electoral college, against Courtwright's remaining \$2,000. provided the Democrats and ropulists together had a majority when that body met. THE VIEWS VARY.

In no previous campaign were th political calculators ever so far apart as they are in this. How badly somebody is deceived is shown by the fact that it was read in one of the metropolitan papers yesterday that the Democrats are certain of Illinois by 75,000 majority, while this paragraph was found in the very next one picked up: Republican National Committeeman lamieson and his associate fighters in Illinois completed this afternoon their last poll of the State. It gives the State to McKinley by 178,000 plurality, and the prospective plurality of John R. Tanner, the Republican candidate for Governor against Altgeld, is put at the same figure

In the same paper from which the above quotation is made the following s found: In Indiana the canvass has been very exciting. The deciding factor in the election will be the German-American

vote. A recent canvass of Terre Haute, Fort Wayne, Evansville and other cities containing a large German population shows that the voters there are now strong for McKinley. There is also a very numerous sound money Democratic vote, enough to assure the State to McKinley.

We oppose to this the following extract from a letter of the 22nd, written from Terre Haute by Mr. J. N. Bohannon, of Hickory, this State, an intelligent traveling man, who, at the date gent traveling man, who, at the date party is now the policy recommended of this letter, had been in Indiana for to the Populists. These two States-Illinois and Indiana-are undoubtedly very important in this election, but the contrariety claimed by both Democrats and Republicans by 15,000 to 20,000 majority. dington, of this city, returned from to strengthen their party. The callous readiness of the Popu ists to join, in any coalition that prom ses to forward their office-grabbin ourposes has totally destroyed whatver of public confidence has heretofo existed in the professed honesty of tha party, if party it can be called. It has injured the latter and driven its support many thoughtful volved in any kind of political fusion in some there is none whatever. In number of States the Populists fused with the Democrats on Bryan in fact a Populist. But in Texas they ential candidate in a deal with the Re publicans for the State officers and longressmen. In North Carolina their deals are still more inextricably confus ng and dishonest, always, however with the one object in view, to secur verything in sight. AYER TRIES TO SAVE PEARSON

They Are Plead With Very Pathetically to Support the Gold-Bug Republican Candidate in the Mountain District - The Populist State Chairman Says Party Power Not Party Principle is the Moving Consideration With Populists.

Observer Bureau, Park Hotel. Raleigh, Oct. 26. Your correspondent gave almost all f a confidential circular sent out by Populist State Chairman Ayer. It was justly deemed a remarkable production, but here is another confidential circular which, to use a bit of slang, "takes the cake." The reasons for suporting Republicans are put in a way worthy of a Philadelphia lawyer. It vill be seen that there was never such thing possible as a fusion of Demorate and Populists on State and congressional tickets, let alone county and legislative, and the wildest "rainbow chaser" will have to admit this now.

The circular letter is dated October 17th and is to county chairmen. It is these words send you by this mail a copy of the Caucasian containing correspondence that passed between the chairman of the People's party executive commit-tee and the Chairman of the Democratic State executive committee. You will understand from this correspondence that the co-operation entered into by the action of the State committees of the People's party and the Republican appeal to you, to support with all your ower the action of your committee. receives one grand You can easily see that a game of politics is being played in this State. Of course the Democratic papers call him a gold-bug, His record does not show it. If you will ask him he will tell you without hesitation that he is opposed to the gold standard. His record is better than that of many of the Democrats who have professed to favor silver, and his party has been our friend, while the party of Mr. Adams has been our bitterest and most implacable foe.

"The Democrats never asked to co-perate with us until they were absoutely certain that they were about to meet a disastrous defeat in this State They did not want to incur this disaser alone and then they came to us or co-operation, with the hope that w might save them from disaster, or they went down they would drag us with them. They never thought of trying Democratic gains may be expected. to "unite the silver forces" until they found the people had no confidence in their organization. If we could offer to co-operate they would not be able o carry out their contract. Their leading papers and many of their leading men are advising the Democrats to scratch the names of the Populists off the Bryan electoral ticket. This shows their insincerity and that they cannot be trusted as a political party. When our committee met to accept their proposition their committee would not remain in town long enough for us to ave a consultation with them.

urged all voters, irrespective of party, to vote for Bryan. He scored Otho Wilson and Hal Ayer, and said the Democrats showed poor judgment in offering fusion with the Populists without giving Ayer some place on the tickt, and that the Republicans showed more foresight, and placed him on their ticket, and he is now an enthusiastic Rep.-Pop. fusionist.
