RAILBOAD IN THE BOLY LAND.

The locomotives for the Jaffa and Jerusalem Railroad have reached Falestine. They bear the names of "Jerusalem," "Ramleh" and "Jaffa." A Philadelphia company had the honor of supplying the motive power.

The most interesting fact about the appearance of the iron horse in the Holy Land is that the Jewish rabbis have already figured out a fulfillment of prophecy. In the book of Nahum is found that which is now interpreted as a revelation sold, while the silver plate taken of the locomotive. Consul Gillman, of Jerusalem, tells this in a recent report to the State Department. He sends the passage. The words are significant. They are found in Nahum, xi, 3, 4, and are as fol-

Mr. Gillman also reports that there is quite a boom in Jerusalem real estate on account of the buildthan in any previous year, and Americans outnumbered any other nationality. Greatest of Americans.

Relics of the greatest of Ameri-cans are timely now. The present Congress has had a bill before it to appropriate \$10,000 for purchasing from J. K. Webster's family a sword said to have been worn by Washington as an aide-de-camp, to Braddock during the famous Mon ongahela fight of 1775, when the British General was defeated by the Indians. The State of New York and the State of Massachusetts were each asked by Mr. Warner, of Baltimore, a short time ago to negotiate with him for the purchase of another sword worn by Washington when he resigned his commission as Commander-in-Chief at Annapolis in 1873. This is the weapon bequeathed in his will to Major George Lewis, and now owned by the latter's grand children, who offered it the Fiftieth Tenney's Gelebrated Candies, Cangress, and secured a recommendation from the Library Committee that \$20,000 should be paid for it. And swords are not the only relies of the illustrious patriot that have recently been on sale. About ten days ago an auction of books and other things that belonged to Washington, and articles relating to him, was held at Philadelphia. A lock of hair, said to have been cut from his head by a barber, was among the things from the outer case of his coffin appealed forcibly to lovers of mortuary mementoes in that town .-New York Sun.

Our Protected Sheep

One of the most outrageous impositions of our tariff is the tax on wool. It is a burden on every cittordhee; they shall run like the helps the farmer by increasing the price of wool, and thus making sheep raising profitable, has been exposed so often that nobody should now be deceived by it.

A recent report of the Agriculing of this railroad. More visitors tural Department shows that our arrived in the Holy City last year sheep do not thrive on protection. In 1870 we had a population of 38,000,000 and 40,853,000 sheep. In 1870 we had a population of lands," says Consul Giffman, "come This is a poor showing for twenty
