## THE ARGUS.

DAILY AND WEEKLY

"If I am to name the typical American, the man who loves and believes in his country beyond everything else, the man who, determined once in what direction his duty leads, cannot be swayed from the path—the man who is doggedly persistent in what he believes to be right—the man who thinks not of self, but of his country and its needs, I would name Grover Cleveland."—Chauncey M. Depew.

NEW ADVERTISEMENTS Cotton Seed—Oil Mills. Fall Millinery—Mrs. S. I. Griffin. Tooth Brushes—Miller & Shannon.

### LOCAL BRIEFS.

FIRST day of October. THE Board of County Commissioners meet next Monday. Mr. H. A. Spiting, Superintendent of the Goldsboro Furniture Factory, is on a vacation visit to his home near Philadelphia.

WHY does not the Republican press say something about Cleveland's letter. Has it paralyzed their fertility for falsification?

THE stores of our Hebrew fellow citizens will be closed to-day in observance of Yom Kippur. They will open at 6 o'clock this evening.

MR. Ed. Borden, Superintendent of Transportation for the Atlantic Coast Line, an old Goldsboro boy, who has many friends here, was in the city yesterday.

BISHOP W. W. Duncan will preside over the N. C. Conference which convenes in this city Dec. 14th, instead of Bishop A. G. Haygood. Bishop Duncan is a great preacher and a magnificent presiding officer.

WILL Allen and "Tobe" Stevens and Will Dortch made stirring speeches for Democracy at the meetings they attended Thursday night. Dortch and Stevens at Fremont and Allen at Casey's school house.

THE Democratic party has no need for lukewarmers in these troublous times of political emergencies. Let the faint-hearted flee the field. Let the show of true men march all along the line and we are still invincible.

THAT veteran Democrat, brave Confederate soldier and peerless campaigner Maj. W. M. Robbins, of Statesville, was in the city yesterday on his way to Kinston, where he speaks to-day. He will speak in Smithfield on Monday.

MAJ. W. A. Johnson, business manager of that sterling Democratic newspaper the Sampson Democrat of Clinton, was in the city yesterday. He says Sampson county is going Democratic this year, as usual, but by an increased majority.

THERE is a new firm in Goldsboro, but not composed of new men. Mr. J. Hunter Hall has purchased a half interest in the store of Mr. Frank B. Edmundson, who for the past year or so has conducted a successful dry goods, notions and grocery business at the corner of John and Walnut streets. Both these gentlemen are well and favorably known to the trading public and will surely command a liberal share of the trade. The style of the new firm will be Hall & Edmundson. The anxious wishes them abundant success.

THE special train that went forth from this city yesterday morning over the W. & W. Railroad to the Weaver speaking at Rocky Mount carried 7 passengers from this depot, 4 of whom were Democrats, and when the train of 35 cars arrived at Rocky Mount it had on board, by actual count 130 passengers, a large number of whom were Democrats going to look on at the gathering. We are told that 1800 people attended at the speaking, of which number 500 were negroes, 500 estimated Thirdpartyites and the balance were Democrats. The Weaver hippodrome is not prospering in North Carolina. The people of North Carolina are Democratic.

## WEAVER'S DAY IN RALEIGH

"GOV." EXUM ON HAND BUT NOT IN IT

Strength of the Third Party in North Carolina.

The Raleigh Chronicle of yesterday has a straightforward and unbiased account of the Weaver celebration in the Capital city on Thursday, from which "scared" Democrats can behold the "big bear" and take heart for victory in November.

The Chronicle says:—

Two weeks ago chairman S. Otho Wilson said there would be people here from fifty counties to greet Gen. Weaver. For weeks there had been persistent efforts by him and all the Third party machinery to get a crowd here. There were great expectations and quiet hints of "2,000 mounted men" and that sort of thing. Early yesterday morning it was stated by Mr. George L. Tounson that 15,000 people would come here to give Weaver a welcome. These things will show how high the Third party workers had pitched their estimates. The performance fell sadly short of the promise.

Quite a number of newspaper people were present and some of these were on the pavilion. Mr. Thad. E. Horton, of the Atlanta (Ga.) Journal, who was present, was treated with great discourtesy, Chairman Wilson stating that Mr. Horton could have no seat on the platform. Mr. Horton had the Pulaski affidavits ready, but as Weaver made no allusion to the Pulaski matter there was no necessity for him to use them.

THE SPEAKING.

It was 11:30 o'clock when the exercises at the park began. There were not over 2,000 persons present, and the most conservative estimate was that a third of these were Democrats; there was besides a large element of Republicans and boys. From Johnston county above 150 Democrats came in a body. Cleveland badges were plentiful and plenty of good Democratic literature was given away. At the hour named chairman Wilson, in a few words of welcome, introduced Gen. Weaver as "the next President of the United States". Gen. Weaver came forward, and after applause addressed his remarks to the "ladies and gentlemen", but it was a noticeable fact that the ladies were very few in number, there being not over a dozen present. Gen. Weaver entered upon a review of his canvass, which began at Denver, Colorado, giving an account of the elaborate receptions which he said had been given him throughout. He then gave a brief account of the tour through the Southern States, not mentioning the welcome accorded him on this part of the trip. He declared it was a privilege to address the people of North Carolina, the home of L. L. Polk. He discussed the origin of the Farmers' Alliance and then spoke at full length on its purposes, &c. He failed, with one notable exception, to touch a single plank in the St. Louis platform, but dealt alone in generalities. The "silver plank" however, he did not let slip, but with great enthusiasm declared that his party would have unlimited coinage of silver and the circulation would be raised to \$50 per head— "and we all will have plenty of money—this is our platform." The speaker in many instances heaped words of abuse upon the Democratic party. The Congress which failed to pass the silver bill was especially denounced. A political speech with its argument and a speech calculated to teach the people less about the issues of the day it has never been the privilege of any people to hear, unless it was that of his stump companion, Mr. Leese. With a few remarks of thanks for the close hearing given him for an hour and a quarter, he then took his seat.

Mr. Wilson then introduced Mrs. Leese, of Kansas, who entered at once upon a defence of women entering the present campaign and of her own entry into the arena of politics. Her speech was extremely oratorical and declamatory, but as a political effort was of no value. Denouncing the old parties as "old rascals," she made some of the wildest statements,

to the effect that they are dying, disintegrating and passing away. She said she was the only woman in the United States who had practiced law "in both the upper and lower courts." She concluded her speech, not having touched upon the issues, without any argument, and failing to suggest any remedy for the wrongs which she declared she came to point out.

Gen. Weaver read a telegram from Terre Haute, Ind., in regard to the political situation in that State. Chairman Wilson proposed three cheers for "Weaver and Field" and three cheers for Mrs. Leese. These were given. Then there were calls for Exum, but there was no response. Mr. Wilson made a short appeal for campaign funds, after which the crowd dispersed without further demonstration.

Gen. Weaver escorted Mrs. Leese to the carriage and with Mrs. Weaver and Mr. Wilson they were driven to the Yarbors. At 5 o'clock they left, via Weldon, for Rocky Mount.

New War Ships.

WASHINGTON, Sept. 29.—The two vessels for whose construction proposals were issued yesterday by the Navy Department, will make an important addition to our naval fleet, and in armor, armament and equipment these two proposed ships will equal if not surpass any ships of similar type in existence. Their fighting powers will be of the first order and their great speed will enable them to run away from ships superior to them in fighting ability. Fully equipped and ready for commission the two ships, proposed to be built, will cost in the neighborhood of three million dollars.

Congress, in the Naval Appropriation bill of the past session, authorized the construction of these vessels, but made no appropriation for them. The battleship will cost exclusive of armament nearly four million dollars, and the armed cruiser about the same amount as her prototype, the New York, or nearly three million dollars, exclusive of her armament. Plans for the cruiser, which will probably be named the Brooklyn, call for a vessel a little longer than the New York, otherwise her general dimensions will be about the same. She will be about four hundred feet long on the load line, with sixty-four feet beam, twenty-three feet draft, 16,000 indicated horsepower, which should be capable of sending her through the water at a speed of twenty knots. Her coal supply will be about 1,700 tons. Her armament will consist of eight 8-inch breech-loading rifles; twelve 5-inch breech-loading rapid-fire rifles, and a strong artillery battery of galling guns—six pounders, and a torpedo boat. With her great coal capacity it is thought she will be able to have steaming endurance of 15,000 miles at a fourteen knot rate against 13,000 miles from the New York.

The battleship will be 300 feet long, 43 feet beam, 24 feet draft and will have 11,000 horse-power, which it is calculated should develop 16½ knots speed. Her armament will consist of four 12-inch breech-loading rifles; twenty six-pounders and five one pound guns.

With the award of contracts for these vessels every ship authorized by Congress in recent years either will have been constructed or contractors authorized to begin work, if they have not already started to work.

The Cholera.

QUARANTINE, September 29.—The following is the 11 o'clock bulletin received from Dr. Byran: "Nothing new on the Bohemia, the sick patients are still improving." (Signed) "Byran".

NEW YORK, Sept. 29.—A suspicious case of cholera is reported from Governor's hospital last night. The "suspect" is Benjamin Benker, Russian emigrant, 27 years old. The case is under investigation.

NEW YORK, Sept. 29.—The Health Board bulletin issued this morning reads: No cases of cholera in this city since September 18th.

QUARANTINE, S. I., Sept. 29.—The five new cases of cholera on board the Boloms, reported September 27th, seem to have been the last flicker in the expiring flame of cholera.

## The Third Party Yesterday.

Mr. Hardy, the gentleman who nominated Exum for Governor and subsequently withdrew from the Third party, now states that his reason for withdrawing was the "information he had that the leaders of the movement were to receive \$50,000 if they succeeded in placing North Carolina in the Harrison column."

Only a few days ago we inquired of a prominent Republican what he thought of a political outlook, and received the prompt reply that it was brighter, since he heard that the Republicans meant to use money in this State.

This reply, taken in connection with Mr. Hardy's statement, would indicate a deliberate plan to so debauch political morality in North Carolina as to make the State purchasable for Harrison. The disgrace that would attach to such an act would become a part of the history of the State and shame the generations which are to come after us. The stain could not be washed out with all the waters of the ocean.

And when we heard General Weaver yesterday, and looked upon the Third party leaders around him, we were impressed with the correctness of Mr. Hardy's information. We were so impressed, because General Weaver is as blatant a demagogue as we ever saw or heard, and because the leaders of the Third party in North Carolina have violated every principle of political ethics, and to sell themselves to the Republican party is only one step more infamous.

Fifty thousand dollars is quite a sum to be divided between a few men in this State who are misleading our people for selfish purposes—to promote their interests. The rank and file of the Third party will receive one dollar. They are being deceived by promises of financial legislation which will never be enacted, and which are based upon mercenary motives. The whole proceedings yesterday would be a mere laughable farce, ignoble as to the leaders, were it not for the fact that three or four hundred good men were being betrayed. And we venture the belief that if the rank and file of the Third party procession yesterday could have realized, while listening to Weaver at Broadside Park, what they are sure to realize, ere long, they would have driven out of their presence the men whose chicanery seeks to entrap them into the agency of betraying to the enemy the best interest of their native State.

Unbiased men—calm in reaching conclusions, must see, must know that the Third party candidate for President cannot be elected and that the issue is between Grover Cleveland and Benjamin Harrison. And Southern men ought not to hesitate how they should vote.

We say, if it was not serious, the whole affair would be as broad a farce as ever was enacted under the administration of Sancho Panza in the government of his Island. But it is serious, because our system of unlimited suffrage gives full sway to the demagogue by enabling him to appeal to the prejudice of the unlettered and the untaught and these are admitted, with the capable, to equal control in the dictation of public policy. The vote of the ignorant counts for as much as that of the learned; that of the patriot, and this is why the demagogue is more to be feared and despised in this country. Such elements of our political life plays with momentous affairs which govern the fortune of a people of sixty five millions with the levity and heedlessness of children playing with fire, intent only on personal advantages without regard to the hazard of the flame they kindle.

The leaders knew what they were doing yesterday. We hope that the rank and file, will awake, before it is too late, to the danger of which they now appear so heedless.—Raleigh Chronicle.

"I used Salvation Oil for frosted feet and backache, and found it to be the best remedy and pain killer on earth. Mrs. Maggie Nisler, Mt. Pleasant, Westmoreland Co. Pa."
