FUNERAL OF R. W. TAYLOR.

The funeral of the late R. W. Taylor was held from the home of his son-in-law Mr. J. M. Powell, this morning at 10 o'clock, conducted by Rev. F. D. Swidel, and the interment made in Willow Dale Cemetery.

The passing away of this aged gentleman, who was three score and eleven years old, deserves more than a passing notice. His pious disposition, together with many other manly virtues, are matters of common knowledge to those who had the pleasure of his acquaintance. Quiet, reserved and unassuming, he was slow to make friends, but when once made he was still slower in forsaking them.

He was a man of lofty ideals and strong convictions; easy of approach, and with affable manners. It was in his home as a husband and father that his talents and affective characteristics were the most marked, and there he will be missed and mourned the most.

His aged wife preceded him to the grave about a year ago. He leaves behind him two daughters and three sons, Mrs. W. S. Farmer and Mrs. J. M. Powell and Messrs. E. R. W. and C. D. Taylor, all of whom were at his bedside in his last moments, and who have the deep sympathy of their many friends and the community generally in their inexpressible and bereavement.

ATTENTION CO. B.

You are hereby ordered to meet at your armory to-night to make arrangements to meet Hon. C. B. Aycock on Thursday evening on his arrival from Raleigh.

T. H. BAIN, Capt. Commanding.

Skin Diseases

When the excretory organs fail to carry off the waste material from the system, there is an abnormal accumulation of effete matter which poisons and clogs the blood, and it becomes sour and acid. This poison is carried through the general circulation to all parts of the body, and upon reaching the skin surface there is a redness and eruption, and by certain peculiarities we recognize Eczema, Tetter, Acne, Salt Rheum, Psoriasis, Erysipelas and many other skin troubles, more or less severe. While the skin is the seat of irritation, the real disease is in the blood. Medicated lotions and powders may allay the itching and burning, but never cure, no matter how long and faithfully continued, and the condition is often aggravated and skin permanently injured by their use.

The disease is more than skin deep; the entire circulation is poisoned.

The many preparations of arsenic, mercury, potash, etc., not only do not cure skin diseases, but soon ruin the digestion and break down the constitution.

S. S. S., nature's own remedy, made of roots, herbs and barks, of great purifying and tonical properties, quickly and effectually cures blood and skin troubles, because it goes direct to the root of the disease and stimulates and restores normal, healthy action to the different organs, cleanses and enriches the blood, and thus relieves the system of all poisonous secretions. S. S. S. cures permanently because it leaves none of the original poison to re-form in the blood and cause a fresh attack.

Skin Diseases will be sent free upon application.

Healthy blood is necessary to preserve that clear, smooth skin and beautiful complexion so much desired by all. S. S. S. can be relied upon with certainty to keep the blood in perfect order. It has been curing blood and skin diseases for half a century; no other medicine can show such a record.

S. S. S. contains no poisonous minerals—is purely vegetable and harmless. Our medical department is in charge of physicians of large experience in treating blood and skin diseases, who will take pleasure in aiding by their advice and direction all who desire it. Write fully and freely about your case; your letters are held in strictest confidence. We make no charge whatever for this service. Our book on Blood and Skin Diseases will be sent free upon application.
