ORIENTAL COMPETITION.

Consul-General Goodnow, writing from Shanghai, dispels some erroneous impressions with regard to the magnitude of Oriental competition in the cotton manufacturing trade. The article refers to a cotton mill at Hankau, in which it is alleged, only Chinese labor is employed at wages averaging \$1.75 per month. The mill has 34,000 spindles and 700 looms, and makes good yarn. Other mills, it is said, are located at Shanghai. The real facts about cotton manufacturing in China, says Mr. Goodnow, are these:

The mill in Hankau has discontinued weaving cloth, as it could not meet the competition of foreign piece goods. The looms are being taken out and are being replaced by spindles. In Shanghai there are 750 looms running. It is claimed that these are now (but only very recently) making a coarse sheeting at a profit.

The cost of making this sheeting is fully as much as the manufacture of the same grade of cloth costs in America. Instead of wages averaging \$1.75 per month, the cheapest coarser laborer receives \$6 Mexican (\$3 gold) per month; carders and spinners receive \$25 to \$30 Mexican (\$12 to \$15 gold) per month; engineers and weavers receive \$25 to \$30 Mexican (\$10 to \$15 gold) per month. Wages have risen very fast in the treaty ports, with the building of mills and the establishment of the foreign businesses and are maintained at the higher level.

The labor, however, is less effective than the American labor. The American weavers accomplish two to three times and American spinners at least four times the results attained by corresponding Chinese workmen in the same time.

Two of the mills in Shanghai are now run entirely by Chinese, two have a foreign supervising engineer and five have foreigners for the managers and heads of departments and supervisory places.

point and at Hankau goes to the province of Szechuan, and is there made into cloth on handlooms in the villages and houses of the consumers. Only the coarse grades of cotton yarn are made, and the higher price of raw Chinese cotton, as the demand has increased, together with the competition of Indian and Japanese yarn, has caused these mills to run at a loss to the present time.

We can control this market, adds Mr. Goodnow, so long as we have an equal entrance into all China, especially as freight lines from our country are multiplied, and when then Nicaraguan canal is built no other than American cotton goods need apply in China.

Cold Steel or D. L. H.

"There is but one small chance to save your life and that is through an operation," was the awful prospect set before Mrs. L. B. Hunt, of Lane Ridge, Wis., by her doctor after vainly trying to cure her of a frightful case of stomach trouble and yellow jaundice. I am in my seventy-third year, and for fifty years I have been a great sufferer from indigestion, constipation and biliousness. I have tried all the remedies advertised for these diseases, and got no permanent relief. About one year ago, the disease assuming a more severe and dangerous form, I became very weak, and lost flesh rapidly. I commenced using Dr. Mozley's Lemon Elixir, I gained twelve pounds in three months. My strength and health, my appetite and my digestion were perfectly restored and now I feel as young and vigorous as I ever did in my life.
