LEMONS AS MEDICINE

They regulate the Liver, Stomach, Bowels, Kidneys and Blood as prepared by Dr. H. Moxley, in his Lemon Elixir, a pleasant lemon drink. It cures biliousness, constipation, indigestion, headache, appendicitis, malaria, kidney disease, fevers, chills, heart failure, nervous prostration, and all other diseases caused by a torpid or diseased liver and kidneys. It is an established fact that lemons, when combined properly with other liver tonics, produce the most desirable results upon the stomach, liver, bowels, kidney and blood. Sold by druggists. 50¢ and \$1 bottles.

Rev. John P. Sanders Writes:

Dr. H. Moxley, Atlanta, Ga.: I have been relieved of a trouble which greatly endangered my life. By using Moxley's Lemon Elixir, My doctor declared my only relief to be the knife, my trouble being appendicitis. I have been permanently cured and am now a well man. I am a preacher of the M. E. Church South located in the town of Verbena, Ala. My brother, Rev. E. R. Cowen, recommended the Lemon Elixir to me. I shipped a half dozen large bottles C. O. D.

RAMBLES OF THE RAMBLER

BREEZY NEWS, VIEWS AND COMMENTS.

In the current issue of the Scientific American there is an unique story of a man who sloughs off his skin annually.

A resident of Clark county, Missouri, S. O. Buskirk, has shed his skin annually since his birth, which occurred in 1850. He is well built, robust and agile, and was never ill. He takes very little medicine for the annual attacks when his epidermis is shed. Physicians have tried to prevent this exfoliation, but they have been unsuccessful, and Mr. Buskirk, notwithstanding the fact that the operation is disagreeable and debilitating, has decided that he will not make any more attempts to prevent it by medical means. The operation requires several days and for the last five years has begun exactly on June 27.—Prior to that time it came either in July or August. About a month is consumed in discarding the old cuticle and the appearance of the new. During this time the finger and toe nails become loose and are discarded, new nails come in and more time is required in growing the nails to maturity than is ordinarily needed. After the old skin has been shed he says that he feels like a boy of 18. The discarded cuticle looks like thin, white rubber gloves.

The peeling begins at the root of the fingers and gradually spreads in all directions. The harden skin begins to break away from the new skin which is forming underneath, and if it is tapped with a lead pencil it gives off a sharp sound like that caused by striking a piece of celluloid or stiff leather. By opening and closing the hands often the skin parts along the edge, and then by helping along the process with a penknife, the piece comes off whole. He has several interesting souvenirs in the form of patches of skin which he has shed from his hands and feet at various times, in every instance they present perfect outlines of the members from which they come.

The thick, callous-like skin from the hands retains its lines, and this remarkable case tends to disprove the entire theory of palmistry, being evidence that the lines of the hand change from time to time and are not unalterably preserved, as has been supposed. A piece of the skin taken from his right hand when he was 10 years old shows that the general conformation of the lines corresponds with those of his hand today. Still, the new lines are longer now than then, making allowance for the growth of the member as a whole. Fully a third has been attached to the length of the famous "life" line. Evidently nature had decided to increase Mr. Buskirk's span of life. This is not altogether surprising, as his father is now 103 and his grandfather died at the age of 110.

THEY SAY.

Many a straight forward man is occasionally to be seen on pleasure bent.

There is always room at the top, but the careless youth never reaches it.

An Ohio woman calls her husband "poorest rule" because he won't even work one way.

A boy should never attempt to wear a man's hat until his head gets its full growth.
