Fair to-night and Tuesday.

ELECTION NOTICE.

Let the Democrats of Goldsboro remember that we have a large vote to poll at the box at the Court House, tomorrow, and, that it is of the first importance that Democrats should be at the polls early and vote as rapidly as possible.

Ask all Democrats who see this notice to set upon it themselves and urge upon other Democrats to do likewise.

I also request the business houses to close, in order that we may have the active work at the polls of those engaged in business.

We must not fail to give a large majority for Bryan and Kitchen, and we will not do so if active work be done to-morrow.

W. R. ALLEN,
Chm. Co. Dem. Ex. Com.

OUR LOCAL OPTIC.

The Board of Aldermen will meet in regular session to-night at the usual hour.

The election returns will be received in the Messenger Opera House to-morrow night.

Miss Lily Arrington, of Warrenton, is in the city visiting her sister, Mrs. Andrew Falkener.

Foot-ball game to-morrow on the Graded School grounds between Goldsboro and Tarboro.

An unknown man was run over and killed by the south-bound passenger train yesterday on this side of Wilson.

Dr. R. A. Smith, who has been taking a special course in medicine in New York, has returned to his practice in this city.

Let no Democrat fail to cast a ballot to-morrow—every available vote should be polled for Bryan, Stevenson and Kitchen.

Officer Smith arrested Mary Pettiford, a colored girl, on a charge of stealing \$10 from Mrs. J. O. Cobb. The case was to come up late this afternoon.

The many friends of Mr. and Mrs. R. L. Kennedy deeply sympathize with them in the death of their baby, which occurred Saturday night after a protracted illness.

Hon. W. R. Allen, chairman of the Democratic Executive Committee, has a notice in this issue in regard to the election to-morrow. Let every Democrat be governed accordingly.

The eve of the great battle is at hand. To-morrow will tell the tale and relieve the suspense. It behooves every Democrat to be at the polls early and remain late. There is work for all to do.

The circus Wednesday will be the principal attraction while waiting to hear the election news. This is Sun Brothers circus and is said to be a very good show. The admission is only 25 cent.

This is Monday, "the day before election," and a great many people from the country have come to town to get the news and find out how the election is going. Notwithstanding the assurances pro and con it must be admitted that all estimates are merely guess work. We shall know by waiting.

The death of Mrs. Owen Hollingsworth occurred yesterday at her home in this city, after a lingering illness of several months. She leaves a husband, two sons and a number of friends to mourn her loss. The funeral was held from the home this afternoon and the interment made in Willow Dale Cemetery.

BUILDING A CITY.

Mr. Jesse W. Stanley Endorses

the Argus in Urging City Progress

Tifton, Georgia.

November 3, 1900.

EDITOR ARGUS:

Your article in the ARGUS of late October 30, headed "Building a City" finds a responsive chord in my breast. No one who has not the interest of Goldsboro at heart should ever open his mouth when others are speaking out and telling of the great untold advantages that our own home town offers to any one who pins his faith to her, situated on the deying line of the East that is so favorable to crops of cotton, corn, peas, early vegetables and—by no means last—the golden colored tobacco, that for wrappers is not surpassed in the known world, and the clay soil of the West that yields all kinds of cereals, and tobacco that is not surpassed as BERRY, with a forest that on her lowlands remains almost in its primitive grandeur, who can say with the grand old Neuse flowing in sleepy but ceaseless beauty past all this undeveloped store of wealth, that we have not golden opportunities to become a great manufacturing city, that shall not only command the trade of Eastern Carolina, but reaching very far into the States North and South.

Let every one speak well or not speak at all when it comes to expending money or voting money to enhance valuations of real estate.

Let Mr. "Back Number" be back so far in the rear that his croakings can't be heard by the advance guard.

Let us have a better telephone system. Not in service, for that is all right, but when a citizen asks for a "phone in the morning" it should be ready for the "hello" in the evening.

We need a city hall. One that is up to date, with Mayor's, Treasurer's and city Clerk's offices in same; with a clock on the tower to mark the time, and the city prison to the rear, and just in front of that the Chief of Police to have his office.

We need a Union Depot. This we need badly, and I am glad to learn that you propose selecting the location by a vote.

The city should own the Water plant and Electric Light plant, and these should be made to cost only enough to pay running expenses and meet the interest on the bonds, and provide a sinking fund to liquidate them at maturity. All this can be done and bond-floated, and at the same time not materially increase the tax levy, and let the poor of the city have water and lights at a price at which they can use both.

Rush these things forward—Goldsboro has the ability; let it be exercised until our splendid foundation that has already been laid shall see a city within 10 years of 25,000. It can be done.

Let every one talk Goldsboro—let us assume a debt for the permanent internal betterment of Goldsboro, and show to the world that we all as a unit have faith in Goldsboro. She is the very heart of the entire tier of Eastern Southern cities, and the healthiest section of the union—free from pestilence and storms. Her people are an appreciative people, helping those within her gates, and bidding the stranger welcome, and if they make a united and determined effort, she will be the wonder of the Southland, as she is "the best town in the State" and can be made the best in all the South.

Rheumatism

Rheumatic pains are the cries of protest and distress from tortured muscles, aching joints and excited nerves. The blood has been poisoned by the accumulation of waste matter in the system, and can no longer supply the pure and health sustaining blood they require. The whole system feels the effect of this acid poison; and not until the blood has been purified and brought back to a healthy condition will the aches and pains cease.

Mrs. James Bell, of 1014 1/2 Street, N. E., Washington, D. C., writes as follows: "A few months ago I had an attack of acute Rheumatism in the worst form. The attack was so severe that I became completely prostrate. The attack was unusually severe and my condition was such that I was unable to get up. I was attended by one of the best able doctors in Washington, who also a member of the faculty of a leading medical college here. He tried almost every medicine that I could get, but it did me no good. After having filled the time with the treatment of the doctor, I decided to try the treatment of S. S. S. I bought a bottle of S. S. S. and very soon thereafter I was able to get up. I was able to get up and walk. All the distressing pains have left me, my appetite has returned, and I am happy to be again restored to perfect health."

SSS the great vegetable purifier and tonic, is the ideal remedy in all rheumatic troubles. There are no opiates or minerals in it to disturb the digestion and lead to nervous habits.

We have prepared a special book on Rheumatism which every sufferer from this painful disease should read. It is the most complete and interesting book of the kind in existence. It will be sent free to any one desiring it. Write our physicians and freely about your case. We make no charge for medical advice.

The W. B. Erect form Corset

It gives a long, low and full effect from shoulder to bust. It is the only correct model for the new straight front styles in costumes. It is a health corset. It is a surpassingly beautiful corset. It throws the shoulders back into a fine military poise. It inflicts no pain upon bust or abdomen, and thus does away with those faults of corset construction which often lead to indigestion, short breathing and some even more serious troubles. The "Erect Form" does not strain the figure—all the pressure is upon the hips and back muscles which are most capable of sustaining it.
