WHAT THE NEGRO COSTS THE SOUTH.

A writer in the North Ameri can Review says that the South now expends about \$40,000,000 annually in school funds, of which sum the neg oes contribute but one-thirtieth, though they have the opportunity to reap nearly half the benefit. In the South all trades are open to them, and they receive every encouragement to become proficient in the industrial arts. A large number of negrous have eagerly taken advantage of these opportunities and have made unprecedented progress in betters ing their condition in every way, They have amussed in one State property the assessed value of which is nearly \$30,000,000 and it is estimated that they own, all Many of them realize that their who annually pay milions of dollars that their children may be educated, who make it possible for them to acquire wealth, who labor side by side with them in the field

HUMORS

Spring's Inheritance from Winter.

Waste matters which the kidneys, skin and other organs were too torpid (in the cold days) to take care of, and cannot take care of now without help, there is such an accumulation of them.

They litter the whole system.

Pimples, boils and other eruptions, loss of appetite, that tired feeling, bilious turns, fits of indigestion, dull headaches and many other troubles common in Spring are due to them.

Hood's Sarsaparilla removes all humors, overcomes all their effects, strengthens and tones the whole system.

Don't deny yourself its benefits this Spring.

"I have taken Hood's Sarsaparilla as a Spring tonic for several years and have derived great benefit from it. I recommend it to all who have that tired feeling, loss of appetite or impure blood." FANNIE FIRHER, 2018 High St., Des Moines, Ia.
