IMPORT DUTIES IN RUSSIA.

A dispatch from St. Petersburg announces that import duties at Vladivostok on all American iron, steel and machinery have been raised. It is scarcely possible that American goods have been discriminated against, and German or British goods favored. This would not be international comity, and the dispatch is misleading in that respect.

The meaning of it is plain. The Russian policy is to build up home manufacturers, and the duties on all iron, steel and machinery made elsewhere have been raised. Russian merchants and Russian manufacturers never have been able to compete successfully with the rest of the world, and perhaps never will be. They were readily driven to the wall by the free and the open door of British or American merchants, and the order recently issued is in accordance with the long established policy of giving them protection at home. The new duties are undoubtedly practically prohibitive.

If Russia continues to hold Manchuria the policy that has been applied at Vladivostok will be applied there also—probably in a ready, in force, there. The open door that Secretary Hay once claimed to have secured has come to this in the province that took the most American goods.

Russia has driven, or soon will drive American goods out of the market. True, we cannot logically complain of the Russian policy. The Dingley-McKinley tariff is built on like lines. The Russian tariff cannot readily outrun the Dingley scheme for creating trusts and holding markets.

We must get rid of the Dingleyism before we can accomplish much in getting wider markets for American goods. The time is becoming so strong that Dingleyism may have come to stay, and in that case we can only make faces at Russia and grumble over the fate that drives us out of that country, including Manchuria.

From Washington

How a Little Boy Was Saved.

Washington, D. C.—When our boy was about 16 months old he broke out with a rash which was thought to be measles. In a few days he had a swelling on the left side of his neck and it was decided to be mumps. He was given medical attendance for about three weeks when the doctor said it was scrofula and ordered a salve. He wanted to lance the sore, but I would not let him and continued giving him medicine for about four months when the bunch broke in two places and became a running sore. Three doctors said it was scrofula and each ordered a blood medicine. A neighbor told me of a case somewhat like our baby's which was cured by Hood's Sarsaparilla. I decided to give it to my boy and in a short while his health improved and his neck healed so nicely that I stopped giving him the medicine. The sore broke out again, however, whereupon I again gave him Hood's Sarsaparilla and its persistent use has accomplished a complete cure. I do not think there will be even a scar left. I cannot speak too highly of Hood's Sarsaparilla and I recommend it everywhere I get a chance." Mrs. NETTIE CHASE, 47 K St., N. E.

Like Magic. "A complication of troubles, dyspepsia, chronic catarrh and inflammation of the stomach, rheumatism, etc., made me miserable. Had no appetite until I took Hood's Sarsaparilla, which acted like magic. I am thoroughly cured." N. B. SKELLEY, 1874 West 14th Ave., Denver, Col.

If you have failed to get relief from other remedies try Hood's Sarsaparilla. It cures when all others fail because it is peculiar to itself.

He Kept His Leg.

For Eruptions, Eczema, Tetter, Salt Rheum, Sores and all blood disorders Electric Bitters has no rival on earth. Try them at J. H. Hill & Son will guarantee satisfaction or refund money. About the Price

Did it ever occur to you that a price in itself is absolutely meaningless, and very often deceptive?

A price may seem to be very low, and still be an outrageous overcharge if the expected quality is absent. It's the relation that price bears to

Quality that determines whether the price is a high or low one. Price and quality together produce VALUE. Shrewd buyers want GOOD VALUES, not simply low prices. Long years of experience enable us to combine all the above features in the JONES BUGGY.
