

# ANOTHER WAR!

Terrible Slaughter—Everything in Sight is Mowed Down, Regardless of Consequences.

Be not alarmed, kind friend, this is not a war that makes sad hearts and desolate homes; but, rather, one which will gladden and cheer and bring comfort to the rich and poor alike. I must clear my store of a good deal of its present stock, in order to make room for new spring goods, and to accomplish this I am waging a slaughtering war on prices. Everything in the Dry Goods and Clothing line is being attacked. Come in and let us show you the great bargains we are offering. You cannot afford to miss this opportunity.

We are going to close these goods out, regardless of cost. If you are looking real bargains, come quick.

Don't forget that we are in the Grocery business, too, and can and will save you money.

F. B. Edmundson, THE HUSTLER.

# Fertilizers.

If you want the Best Fertilizer on the market for almost all kinds of crops, come to see us and get the N. C. Alliance official guano.

With the use of the Alliance official last season Mr. B. B. Williams, of Grantham's Township, raised over \$400.00 worth of tobacco on two acres of land, some of it bringing \$57.00 per hundred.

We also sell the Genuine Bone and Peruvian guano, which is a little cheaper, Acid Phosphate, Kainit, Bone and Potash Mixture, Muriate and Sulphate of Potash, Nitrate of Soda, and cotton seed meal.

Hood & Britt

# Refrigerators.

The celebrated LEONARD CLEANABLE REFRIGERATORS are now on our floors in any size desired, and we cordially invite your inspection of them and are sure they will please you.

We have fifty ICE CREAM FREEZERS, four different kinds to select from, the White Mountain among them, which we will sell as low as anyone on earth.

A pretty line of ladies' and gents'

Reed Rockers

Especially nice, cool and appropriate for Summer use, at reduced prices.

NEW HAMMOCKS in stylish and attractive designs just received.

Parker & Falkener Furniture Co., THE PEOPLE'S FRIENDS. Picture Framing Neatly Done.

"The above name plate on your Buggy guarantees honest material and workmanship throughout. Higher grade than others offer for same money. Old fashioned lead and oil paint foundation, with up-to-date finish. Satisfactory service."

Quality that determines whether the price is high or low one. Price and quality together produce VALUE. Shrewd buyers want GOOD VALUES not simply low prices. Long years of experience enable us to combine all the above features in the JONES BUGGY.

# THE NEW ONTARIO

Canada Directs Settlers to Go North For Homesteads.

MOST OF IT IS WELL WATERED.

Temiscaming Region Attracting a Considerable Population—Soil is Very Fertile and Land Generally Level—Better Adapted to Men With Small Capital—Well Timbered.

A great land rush to New Ontario has commenced. The advantages of this territory as a field for colonization are just beginning to be appreciated by the increasing number of young Canadians in the older districts of the country who are in search of homesteads, says the New York Journal. Hitherto the exodus from the rural districts of those in quest of good and cheap agricultural land has been directed either toward the western states or the Canadian northwest.

The former movement, however, is practically at an end owing to the exhaustion of the areas of fertile land to be had free or at a low price, while the undoubted advantages possessed by a prairie country for wheat farming or cattle ranching are offset by the scarcity of fuel and water and the liability to summer frosts.

The wooded country of New Ontario is free from these disabilities, and, while it does not offer the same facilities for wheat growing as are presented by Manitoba and the northwest, it is better adapted in many respects to men of small means, owing to the proximity of diversified industries, which give opportunities for temporary employment and afford good local markets both for the timbers removed in clearing the land and the produce of the farm.

The phrase "New Ontario" is somewhat vague, and the area covered by it is not closely defined, but, generally speaking, it is applied to the portion of the province northwest of Lake Nipissing and French river. This immense area contains but a few small settlements, as it is only recently that its capabilities have been realized or the land thrown open for settlement. The wrong conception that has widely prevailed as to its fertility is largely due to the fact that the Canadian Pacific railway runs through a desolate and barren wilderness. The impressions of many whose opinions of New Ontario have mainly been formed by hasty observations of the country in the immediate vicinity of the railway could well be more erroneous.

The publication of the report of the government exploration parties which were sent out last summer, some details of which have been made public, will do much to spread abroad more correct ideas as to the vast resources of the region and more especially as to the fertility and fitness for settlement of very extensive tracts of land. The area of good clay land around Lake Temiscaming, where several thriving townships are being established, is attracting a considerable population. This tract has been found to extend in a northwesterly direction right across the district of Algoma, comprising in all about 13,000,000 acres, 75 per cent of which can be cultivated, while a large portion of the remainder can be made fertile by drainage. The timber, pulp wood and mineral resources of New Ontario greatly contribute to the progress of the settlement, as they have led to the establishment of important industrial enterprises, which in many sections precede the occupation of the land instead of following it, as has usually been the experience of new settlements.

To settlers the Temiscaming region is recommended on account of its proximity and the highly productive character of the soil, which is a strong clay rich in phosphoric acid and potash, and so fertile that it will yield repeated harvests without manuring, and the surface of the land is generally level. The timber comprises pine, spruce, balsam, tamarack, cedar and poplar, and in some places the land has been burned over, greatly facilitating the labor of clearing.

Telegraph poles bring 12½ cents a foot and pulp wood \$2.50 a cord, and there is a good market for railroad ties. The timber is floated down to Ottawa, and the price is paid on its delivery at the nearest stream. The country, like most of the New Ontario territory, is well watered.

Object of Victoria League.

The newly formed Victoria league, which has been founded in England in honor of the late queen will endeavor to become, as its constitution states, "a center for receiving and distributing information regarding the British dominions," says the New York Tribune. In doing this it aims at establishing more intimate relations between the mother country and the colonies. The Countess of Jersey is president of the league, Lady Tweedmouth vice president, and the executive committee is headed by the Countess of Derby.

A Gentle Bayonet Thrust.

A story related by Correspondent Macdonald of the London Chronicle was the discovery of a Boer who had received a terrible bayonet wound through the ribs. As the man was being carried into the British lines a London Tommy who was watching him asked if he was badly hurt. "Yes," said the doctor. "Do you know him?" "Course I do," said the soldier. "He's one of mine. I got it 'im, but I did it as gentle as I could. It wasn't the shovin' in it was the pullin' out. Lucky for 'im he met me."
