WALTER LETTER.

**A Chronicling of a Week's Events
in That Thriving Neigh-
borhood.**

Miss Eugenie Coor, visited her cousin, Miss Cora Hooks, last week.
Miss Gertrude Thompson left last Saturday on a visit to relatives in Raleigh.

Mr. and Mrs. Seth Dixon spent Saturday night with Mr. and Mrs. Wm. Smith.

Messrs. A. J. Woodard and Dick Merritt, from your city, were visiting in our community last Sunday.

Messrs. Jno. Southerland and D. C. Andrews were out here last week looking after the farms of Mr. Southerland.

A Mr. Powell, from Sampson county, is in our section selling an apparatus for canning fruit, vegetables, etc.

Miss Nora Hicks, from Caldwell Institute, is lending her charms to the home circle of her school friend Miss Lizzie Becton.

Mr. Jno. Neal spent last Sunday in Johnston county. His frequent visits to the same place are rather suspicious, though if he can tell the young ladies apart, he can beat us.

Mrs. Will Cochran, from near Charlotte, who has been visiting relatives here, returned home Saturday. Her hosts of friends regret that sickness in her family caused her visit here to be shorter than she expected.

When Bob Pipkin quit furnishing potatoes out here, it was a severe blow to us, but now Jno. Grantham has "shut down" for a while, and we can't get "slops" for our pigs, so we are out of rations for both ourselves and our future old bacon, and are in a shy row of stumps.

We have traded for a fine cow, which we will sell cheap considering what we gave for her. She cost us 3 years work, quite a number of sleepless nights, with pills and paregoric, chalk mixture, quinine, and so forth and sich flung in. She is a fine cow, a regular 5 gallon stream, warranted, or money refunded. We will sell for \$10 a gallon. She is an old fashioned eight-day cow, that is, it requires that many days for her to sustain her reputation of being a 5 gallon cow. Anybody who wants a fine cow and will give her time, she will fill the bill, but she doesn't claim to be one of the kind to fill your bucket while you wait.

Alex was busy at work when we came along, but he stopped and leaned upon his hoe, and says, "why, why, I-er-hears dat dere's a new disease what's killing folks now, lessen you has part of your insides took out."

"Do you refer to appendicitis?"
"Yas sir, dat's it - spenderceeters!! I never heard ob no such in my day and time, an' from what I can learn it haint nothing in de God's world but de ole fashioned colic, like Ise had myself many a time. But den, times aint like dey used to be, an ole fashion disease don't suit de new fashion folks, and den, de colic, doan soun as big as spenderceeters." "Lord hab mercy, folks is a sight in dis world, but fer as I goes, I can get along de balance of my days wid jest de colic. I doan want none ob your new fangled mess about me, specially when it comes to being sick; de ole fashion disease is good enuf for me, like de old time legion."

Woodland Crumbs.

The infant child of Mr. James Lewis, whose mother died a few months ago, and left it in the care of her sister Mrs. Zilphia Collier, died last week and was laid to rest in the old family burying ground near Dudley.

Our temperance committee met at Providence church on Sunday evening at 4 o'clock. The exercises consisted of the chip basket by different members of the congregation, a talk by Mrs. W. R. Hollowell and songs and short talks by others, all, which were highly appreciated.

The Sunday School Convention for North Brogden township met at Woodland on Saturday last at 10 o'clock. Owing to the word not being sufficiently circulated some of the schools were not represented. The different phases of Sunday school work were discussed. We had speeches by two little girls, which were highly enjoyed. Rev. J. W. Bryan and Mrs. W. R. Hollowell, from your city, did credit to the subjects assigned them and took active part in the discussion generally. The dinner was prepared and served by the ladies present.

Dr. Miles' NERVE TONIC cures RHEUMATISM, NEURALGIA, BRUISES, SORE THROAT, WEAK BACK, AND DRUGGISTS, only 25c.

Bad Circulation is the cause of most of the ills that come with old age. With advancing years there is a decline of strength and vigor—the machinery of the body moves with less speed and accuracy. Because of the weak and irregular action of the heart the blood moves more slowly, becomes impure and loses much of its life-sustaining properties, and muscles, tissues and nerves literally starve for lack of nourishment. A sluggish and polluted circulation is followed by a long train of bodily ailments. Cold feet, chilly sensations up and down the spine, poor appetite and digestion, soreness of the muscles, rheumatic pains, hard and fissured skin, face sores, chronic running ulcers on the lower limbs and other parts of the body—these and many other diseases peculiar to old people are due to a lack of healthy blood and imperfect circulation. Restoration to health must come through the building up and purification of the blood, thus adding strength and tone to the vital organs and quick, healthy action to the circulation.

S. S. S. being strictly a vegetable blood remedy and the best tonic, makes it the most valuable and efficacious of all medicine for old people. It is free from all mineral ingredients, and mild and pleasant in its action. It cures blood diseases of every character, even those inherited or contracted in early life. As the system gets under the influence of S. S. S. there is a marked improvement in the general health, and as richer and purer blood begins to circulate through the body the appetite improves, and there is a softness and elasticity about the skin that you have not noticed for years; sores begin to heal, pains in muscles and joints gradually cease, and you find that it is possible to be happy and healthy even in old age.

Our medical department is in charge of physicians who make a study of blood and skin diseases. If you would like to have their opinion and advice in your case, write them all about it and you shall receive such information and advice as you want. This will cost you nothing. Others have found our medical department of great benefit to them—their cure being much more rapid as the result of some special directions received from our physicians.

Don't be your own doctor when you can get medical advice free. Book on Blood and Skin Diseases mailed to all who desire it.
