GOLDSBORO, N. C., FRIDAY, JULY 5, 1901.

NO 76

## JACOB S. ROGERS DEAD.

The Great, Eccentric and Wealthy Locomotive Builder Succumbs to Heat Prostration.

Jacob S. Rogers, the famous American builder of locomotives and the wealthiest citizen of New Jersey, died in the Union League Club in New York, July 2, of the effect of the heat. The exact hour of his death is not known.

Jacob S. Rogers died as he had lived—alone. He was one of the most eccentric characters New York has known. If his often-expressed wishes were followed there will be no funeral ceremony. Having few intimate friends and fewer relatives, he felt that any show of grief because of his death would be hypocritical and he despised hypocrisy.

Secretive to a remarkable degree, Mr. Rogers never let it be known even approximately how much he was worth. Many estimated his wealth at \$80,000,000. More conservative persons divided that amount by ten.

Mr. Rogers was born in 1824 and succeeded in 1856 to the locomotive business of his father, Thomas Rogers, who constructed the first locomotive made in America. Recently Mr. Rogers decided to close the works and they have been sold, the sale at present being the subject of litigation.

## MUST FOLLOW THE FLAG.

Bryan Writes Briefly to a Tammany Meeting.

New York, July 4.—Tammany Hall to-day celebrated the fourth of July in the 14th street wigwag. This year there was no attempt to dodge Bryan or Bryanism, but a few sound money Democrats were included among those invited to speak.

Mr. Bryan was invited to be present or write something for the instruction of the Braves. For fear of missing him the committee sent telegrams to various cities where he was billed to lecture. They caught him at Washington and from there he wrote a brief letter in which he sets up, as a new paramount issue, the assertion that the constitution must follow the flag.

## The Henley Regatta.

Henley, July 4.—The University of Pennsylvania and Leander Club eights, winners of yesterday's initial trial heats for the grand challenge cup, were again the victors in their respective heats to-day, and will row against each other in the final heat for the cherished trophy. Pennsylvania defeated the Thames Rowing Club crew in very easy fashion by three lengths, in seven minutes and twenty-two seconds. The Leaders had a harder time of it, winning from the Ghent crew of Belgium by a bare length, but in better time than Pennsylvania, covering the course in seven minutes and eight and a half seconds.

## IF YOU WANT THE VALUE

Of your hard earned dollar the Great Ready Made Clothing sale is now going on at Joseph Edwards', where all kinds of goods are being sold at one-half price. Sale only lasts until Saturday July 6th. Don't forget the place.

JOSEPH EDWARDS,  
Champion of Low Prices.

## SENATOR KYLE DEAD.

He Was Teacher, Preacher, Lawyer and Ended in Arena of Politics.

United States Senator, James H. Kyle, died at 6:06 o'clock, July 1, having suffered a relapse at noon.

Mr. Kyle has represented South Dakota in the United States Senate since 1891, in which year he was elected as an Independent, and when he entered the body he was its youngest member. His second term would have expired in 1903. He was a native of Ohio, and was graduated at Oberlin College in 1878, when he was 24 years old, having been educated for the bar. Four years later he was graduated from the Western Theological Seminary, and for several years he held Presbyterian pulpits in Utah and South Dakota. He also at one time taught mathematics and engineering, a course which he took at the University of Illinois in 1871. Senator Kyle consistently maintained his independent course during his ten years of service.

## The Weather Moderates.

New York, July 4.—After several days of torture, during which 740 persons lost their lives and 922 were prostrated, cooler weather has once more settled over New York and the eastern part of the country.

## Come Home Very Ill.

New York, July 4.—Pierre Lorillard, who was a passenger on the Deutschland, which arrived this morning from Southampton, was very ill throughout the passage. Friends who were with him fear for his recovery. An ambulance was at the pier when the steamship arrived and took Mr. Lorillard to his home.

## Elenora Is Coming.

Paris, July 4.—It is announced that Signora Eleonora Duse, the well known Italian actress will make a tour of the United States next season. She will be accompanied by Signor Gabriel D'Annunzio, the author, whose name has been linked with her romantically of late.

## Nothing to Tell.

London, July 4.—The War Office professes to know nothing concerning the report that Major General Baden-Powell who is now acting as chief of the Transvaal police, is to return to England shortly. It was stated today that he had not as yet obtained leave of absence.

## SPECIAL SATURDAY FLYER.

Arrive Morehead City .. 7:25

All "week end" tickets will be honored on this train.

The above train will be run on Saturdays only.

S. L. DILL,  
Gen'l Supt.

## NEW TYPE OF RACING YACHT

Principal Feature of the Craft is Her Remarkably Low Cabin.

Just when yachtsmen were ready to concede that a further modification of the modern racing boat would be impossible there has been turned out at Bristol, R. I., a 29 foot racing boat which will mark another radical change in the construction of modern racing craft.

The chief feature of the boat is the practical elimination of a cabin, though with just enough roof section to bring her into the cabin class, says the New York Times. The boat in question, as yet unnamed and owner in the background, is about 29 feet over all and 21 feet on the water line. She is of medium beam and, including the wooden fin and ballast attachment, draws about five feet. An important innovation in the model of the boat is a short fin, thus enabling the owner to overcome any attempt to place the yacht in the fin keel class. The object of this, in other words, is simply to enable the craft to get around the racing rules. It will be observed that while this type of boat may safely steer clear of the recognized type of racing machines, she will possess a marked advantage over the boats in the class in which she will race.

The principal feature of the boat, however, is her remarkably low cabin, a mere apology for a cabin, the trunk being set low and the slightest kind of a crown topping the same. Aft of this cabin there is a small cockpit, from where she will be steered by means of a tiller attached to a balance rudder.

## SAYS EDEN WAS IN CHINA.

Egyptian Explorer Will Try to Prove Chinese Were First on Earth.

Professor James E. Burton, a former student of Cornell university, who was recently in Denver on his way back to Ithaca to become a member of the university, announces, according to the Chicago Record-Herald, that he is going to try to prove the Chinese were the first race to inhabit the earth and that the garden of Eden was located in China. He was for four years connected with the department of antiquities of the Egyptian government.

"I have made a very careful investigation of the matter," he said in explaining his theory, "and I am convinced that both Adam and Eve were Chinese. The boasted civilization of Egypt comes by way of Assyria from central China and proves that our civilization was really from the Chinese and not from Assyria and Egypt, as has been generally held heretofore by scholars.

"From China also must have come the stories of the creation and the fall of man, for while these have been attributed to Assyria all the arts, sciences and letters originated in China, and the location of the garden of Eden must have been in China."

Mr. Burton says that his work with the spade in Egypt will support all of these statements.

## THE TIME IS LIMITED

Only three more days for you to attend the great Ready Made Clothing sale for Men, Boys and Children, where goods are being slaughtered. Don't miss the opportunity for this is your last chance. This sale ends Saturday July 6th. Everything at one half price.

JOSEPH EDWARDS,  
Champion of Low Prices.

## Old Chairs Made New.

Don't throw away your old chairs because the seat is broken. I can fix them up with the best Japanese cane, and the cost will only be a trifle.

LOE SCHNEIDER.

## Water Notice!

Water rents are now due at the office of the company, and must be paid by July 15. Office hours from 9 a. m. to 6 p. m.

L. F. DORTCH, Receiver.

SSS  
and OLD  
PEOPLE

Bad Circulation is the cause of most of the ills that come with old age. With advancing years there is a decline of strength and vigor—the machinery of the body moves with less speed and accuracy. Because of the weak and irregular action of the heart the blood moves more slowly, becomes impure and loses much of its life-sustaining properties, and muscles, tissues and nerves literally starve for lack of nourishment. A sluggish and polluted circulation is followed by a long train of bodily ailments. Cold feet, chilly sensations up and down the spine, poor appetite and digestion, soreness of the muscles, rheumatic pains, hard and fissured skin, face sores, chronic running ulcers on the lower limbs and other parts of the body—these and many other diseases peculiar to old people are due to a lack of healthy blood and imperfect circulation. Restoration to health must come through the vital organs and quick, healthy action to the circulation.

S. S. S. being strictly a vegetable blood remedy and the best tonic, makes it the most valuable and efficacious of all medicine for old people. It is free from all mineral ingredients, and mild and pleasant in its action. It cures blood diseases of every character, even those inherited or contracted in early life. As the system gets under the influence of S. S. S. there is a marked improvement in the general health, and as richer and purer blood begins to circulate through the body the eyes improve, and there is a softness and elasticity about the skin that you have not noticed for years; sores begin to heal, pains in muscles and joints gradually cease, and you find that it is possible to be happy and healthy even in old age.

Our medical department is in charge of physicians who make a study of blood and skin diseases. If you would like to have their opinion and advice in your case, write them all about it and you shall receive such information and advice as you want. This will cost you nothing. Others have found our medical department of great benefit to them—their cure being much more rapid as the result of some special directions received from our physicians.

Don't see your own doctor when you can get medical advice free. Book on Blood and Skin Diseases mailed to all who desire it.
