Doth an eternal vigil keep

No soothing strains of Mala's songs
Can lull its hundred eyes to sleep.

GOSSIP OF THE WORLD.

ITEMS OF INTEREST FROM DIVERS SOURCES.

News of the Stage, Social, Political and Otherwise, Culled From Our Exchanges.

Arthur Pue Gorman is also conducting a gumshoe Presidential hunt.

The mills started by non-union labor in the steel strike are not started enough to hurt the cause of the strikers.

There is a feeling in New York that Sir Thomas Lipton's Shamrock II means business. At least it now looks that way.

The mountains of Colorado and the mountaineers are resuming business at the old stand now that Mr. Roosevelt has departed.

The Dingley vandals are cheering each other up in the face of an European alliance. They tell each other it is not much of a shower.

Chicago's Chatfield-Chatfield Taylor has a rival of no mean proportions in General Uribe-Urbe of South America. Chicago's laurels are fading.

The attention of the Sultan of Jolo—our own dear Sultan—is respectfully called to the divorce laws of Florida, which can be amended to suit any case.

With regard to Baltimore mobbing base ball umpires it is ever so much better for the game to watch a player straining every nerve to get home than to see an umpire running for his life.

According to a Chicago preacher the presence of women in business is a menace to the home. Probably on the theory that there are so many stenographers who could make a man leave his happy home.

It has been discovered that most of the medals bestowed upon British soldiers for conspicuous bravery were sooner or later pawned by the "heroes" to relieve pressing needs while waiting for their pay.

Like the Frenchman who every morning when he awoke asked what sort of a government he was living under, with each recurring sun the South Americans might inquire what the day's particular is about.

It does seem that Admiral Schley should be entitled to an impartial jury. Even a criminal, whose guilt is not questioned, is accorded a jury made up of men who have not "formed or expressed an opinion."

A Massachusetts clergyman suggests that an attempt be made to cure drinking by depriving the drunkard of his vote. This may be well enough so far as it goes, but how about the ballot-box getting illegally full?

An American is now said to have invented a real flying machine. It's not improbable. This country can look down on the rest of the world generally in the matter of ingenious devices, and it may yet do it from a successful contrivance of this kind.

There is a strike impending in New York where a big lot of girls are indignant at an attempt on their employers' part to make them stop talking. They will not be without sympathy. Liberty of speech is one of this country's dearest institutions.

Pope Leo is an omnivorous reader. He has recently perused "Quo Vadis," and the author, Henry Sienkiewicz, has received a letter from the Vatican expressing satisfaction for the Catholic ideas expressed in the novel. The Polish author has also received, from Leo XIII. a marble tablet of the time of Constantine recently found in the Ostriano Cemetery, the scene of some of the incidents of "Quo Vadis."

CLAIMS TO CURE INSANITY.

Dr. C. Bernstorff, a St. Louis Physician, Agrees to Forfeit \$500 to Any Charity if His Discovery Fails to Do the Work.

St. Louis Dispatch

Dr. C. Bernstorff, of this city, claims to have discovered a positive and permanent cure for insanity. He resides at 4522 Virginia avenue and holds high rank as a physician. His special study has been neurology, and he is very firm in his conviction that he can do what he claims.

"I have cured five cases so far," said he, "and wish to demonstrate that I can cure others. I have had some trouble with the medical fraternity because I will not give out the secret of my treatment. I would like to state in advance that I do not claim to cure cases of insanity due to severe injuries to the head or where persons were born idiots. That is impossible. But in other cases I will cure in from four to eight weeks.

"To demonstrate this to the world, I only ask that the St. Louis newspapers, one or as a whole, select some worthy subject, say a mother of a family, or a father, or even a son, where real charity will be apparent. The conditions are these: If the patient be in an asylum I must insist that he or she be at once removed to some private home, their own if possible. I will charge nothing for my services, and if, after my treatment, the patient is not restored to perfect mental health, I will forfeit \$500."

BASE BALL.

Goldsboro Juniors vs Mt. Olive Babies.

Mt. Olive Advertiser.

The Goldsboro Juniors came to town last Thursday and literally wiped up a wet and muddy diamond with the carcasses of the Mt. Olive Babies.

It is really surprising that boys who have even seen a game played, could play so poorly; and before the Babies ever attempt to play another match game we suggest they take a six month's course of infant food and melted milk, and then should not go on the diamond without a supply of paregoric and soothing syrup for the use of those who confound a case of bally ache with a desire to kick.

There was not a single creditable feature in the affair, so far as the home boys are concerned, and we suggest that they get a team, practice and learn something about the game before they enter any more match games. The score was 12 to 6 in favor of the Goldsboro Juniors.

Much Time Given Each Student.

At the Bingham School, Mebane, N. C., there are about twelve students to each teacher. On this account, a large amount of time and attention can be given to each individual. By addressing Principal Gray, Mebane, N. C., the beautiful school catalogue for 1902 will be sent free of charge.

VIOLENT RAIN STORM.

GREATEST FURY VENTED ON JERSEY CITY.

Buildings Wrecked. Steeple of Church Fell, Scattering Bricks in the Pews.

A Theatre Suffered Also.

New York, Aug. 24.—A most violent and protracted rain storm, accompanied by wind, which, in some sections, approached the proportions of a hurricane, swept over New York city, West Chester county and the northeastern portion of New Jersey this evening. The most damage so far reported was at Jersey City, where buildings were wrecked, including a church and a theatre. Rain had been falling intermittently all the morning, and about 1 p. m. the low-hanging clouds began to discharge torrents of water, and this was kept up until after 5 o'clock.

About 3 o'clock the wind increased mightily in violence, and at 8:30 Jersey City began to have the worst storm experienced in its history. Blasts of wind carried widespread destruction. Two wind storms seemingly met in neighborhood of Newark Avenue and Barrow Street and a cyclonic condition resulted. Horses standing in Newark Avenue and the wagons to which they were hitched, were blown over. Telegraph poles and wires fell. A moment or two later the steeple of St. Mary's Roman Catholic Church, the largest in the city, fell backward upon the church, striking the roof. Piles of brick from the spire crashed through the roof and down upon the pews.

Two blocks south of St. Mary's Church and nearly on a line with it on Newark Avenue is the Bijou Theatre. "The Man Who Dared" company was rehearsing for an opening of the theatre for the season. Two lions that are used in the play were in their cages on the stage when a terrific rush of wind made the building tremble. Warning cries caused the performers to leave the stage not a second too soon. Bricks came down from the high walls, ruining the stage and bending in the lions' cages. The lions roared in terror. As the performers rushed out a shout was raised in the street that the lions were loose and the crowd which had sought shelter in the corridor fled panic stricken. The lions did not escape, but their cages were hit and the beasts were cut by the bricks, but the bars held them.

On the south side of Newark Avenue, opposite the theatre, the roofs of twelve three-story buildings were ripped off. Great pieces of tin fell in the street. The roofs were so completely ruined that the rain soon deluged the buildings.

Van Vost Park, the ornament of the most pretentious part of the downtown community, was the scene of the storm's fiercest work. Trees that were the growth of many decades were uprooted or broken off as though they were made of pipe clay. A piece of the roof of the Union League, which stands in York Street opposite the middle of the park, was lifted high and carried

over to the park and dropped on the broken remnants of a tree. No one was reported as killed or injured.

The storm in New York city was confined to a heavy down-pour of rain, with a violent wind. It was the heaviest in the Bronx, where the streets were flooded. The cut through, which the Harlem division of the New York Central Railway runs from Melrose to Williams' Bridge, was flooded from a depth of from two to four feet. At the Furdam Station there was considerable sand on the railway tracks, and trains were unable to get through.

L. F. DORTCH, Commissioner

As the hot weather of summer is approaching, this paper will constantly keep before its readers TERTHINA, a remedy which, where known, is being universally used to prevent upon small children, and it is hoped that all mothers of this community will keep their children in a healthy condition by giving it, for it costs only 25 cents at drug stores; or mail 50 cents to G. J. McCall, 212 N. St. Louis, Mo.

The diseases most feared are those which are inherited—passed down from generation to generation, and family to family. By far the most destructive of these is Cancer, which finds the greatest number of its victims among the children and grand-children of those whose blood was tainted with this dreadful malady. You may carry this poison in the blood for years, but as the vital powers begin to wane a slight bruise or cut, wart or mole, sore or pimple may develop into Cancer. From middle life to old age is the time when the slumbering poison is most apt to break out, a sore or ulcer often degenerating into Cancer, and Tumors become more progressive and ulcerate through the skin, the sharp, shooting pains causing the most intense suffering.

The Cancer patient naturally grows despondent as one after another the usual remedies fail, and the sore shows no sign of healing. The impurities that have been accumulating in the system, perhaps for generations, cannot be eliminated nor the poisoned blood made pure by salves, washes and plasters. The proper treatment is to purify and build up the blood, remove the cause, when the sore or ulcer heals.

Mr. J. B. Arnold, of Greenwood, S. C., writes: "A tiny ulcer came, just under the left eye. It began spreading, and grew worse rapidly, destroying the flesh as it went. As Cancer is hereditary in my family I became thoroughly alarmed, consulting the best physicians and taking many blood medicines, none of which did me any good, when one of our leading druggists advised me to try S. S. S., and by the time I had taken the second bottle the Cancer began to show signs of healing; the discharge grew gradually less and finally ceased altogether, the sore dried up and nothing remains but a slight scar. I feel that I owe my life to S. S. S."

Begin in time, don't wait until the blood is so polluted and the system so thoroughly saturated with the poison that no medicine, however efficacious, can check the progress of the disease. If there is a tumor in your blood get it out at once, don't wait for some external evidence of it, the appearance of a tumor or ulcer. We have prepared a special book on Cancer which we will mail free. Our physicians are ready to help you by their advice and such direction as your case requires. Write us fully and freely—no charge for medical advice. THE SWIFT SPECIFIC CO., ATLANTA, GA.

Women Who Work

Nine out of ten women are afflicted with some of the common ailments known as female diseases. Among women whose employment requires them to stand on their feet or sit in the same position all day, not one in twenty-five escape these troubles. The average feminine constitution cannot, unaided, withstand the strain to which steady, trying work subjects them. The organs of womanhood are so delicate and finely adjusted that the inevitable result of constant standing, lifting, stooping or straining is displacement of vital parts. The disorder is usually slight at first, but soon develops into irregular or painful menstruation, leucorrhoea or falling of the womb. Wine of Cardui is the right remedy for female weakness. As such it is offered to you. Wine of Cardui will not perform miracles, but it will, if taken as directed, insure painless and regular operation of the menstrual function. It will drive out every trace of leucorrhoea, and will so strengthen the ligaments that falling of the womb will be an impossibility. Don't you think it would pay you to try a medicine with such a record as that? You can get a \$1 bottle of Wine of Cardui at any drug store and use it in the privacy of your home.

WINE OF CARDUI

Townsend, Ga., May 18, 1899.

I have been in bad health with falling of the womb, weak back, nervousness and heart palpitation. At monthly periods I would be in bed suffering great pain. Lately I have been taking Wine of Cardui and Theodor's Black-Drainage, and they have brought me wonderful relief. I have no pain, and do not stop work at the monthly period.
