**GOLDSBORO N. C. SEPT. 1901**

**ANOTHER YEAR OF PROSPERITY.**

In iron and steel circles there is confidence that another year of well maintained prices is in sight. It is conceded, says the Iron Trade Review, that the foundry iron product of 1901 is substantially solid today, and contracts reaching into 1902 are now being made. Such contracts are made at full prices. The Steel Corporation, now that the strike in its mills is settled, is buying from furnaces immense quantities of iron, at prices about 25 cents higher than recent quotations. The contracting in the Chicago district is on a liberal scale, and the Southern mills are stiffer in their rates. Steel bars, small shapes and small billets have been advanced two dollars a ton.

These changes are not merely arbitrary. They are based on accumulated and accumulating orders. It is well known that the structural mills will be very busy all winter. It is known, too, that the construction of railroad lines, trolley lines and of a world of machinery is absorbing the home product, permitting no accumulations whatever. We need at home 15,000,000 tons of iron a year, and 300 furnaces turning out 800,000 tons a week are endeavoring to supply this home demand. If a foreign demand should spring up iron would indeed be firmly held.

It is not necessary to look ahead to 1903, but activity and prosperity will certainly dominate 1902, and the South will get its full share of these good times. More houses will be built, more mines opened, and probably more furnaces will be projected.

Old songs are sweetest; old loves dearest.

Office of D. H. Hardy, Sec. of State, Austin, Tex., Nov. 21, 1900.

I have found Dr. Moffet's TERTHINA a splendid remedy and aid for my teething children. When my oldest boy was a teething child, every succeeding day warned us that we would inevitably lose him. I happened upon TERTHINA, and began at once administering it to him, and his improvement was marked in 24 hours, and from that day he recuperated. I have constantly kept it and used it since with my children, and have taken great pleasure in sounding its praises to all mothers of young children. I found it invaluable even after the teething period was passed.
