**PAN-AMERICAN CONGRESS.**

The Pan-American congress, now fully organized in the City of Mexico, has fairly begun a two months session devoted to the health, peace and progress of all the Americas. And the chief task in furtherance of these great objects is plainly a closer alliance, at least commercially among the various parts of these Americans. More railroads are needed, more steamships, and better trade regulations and tariffs.

All the world is hunting not so much for territory as for trade. Trade is better than more sovereignty, as many a country knows. There is more trade in a single American State than in all the German possessions.

Latin America is getting rid of its political revolution, and induced by the success of the United States at Havana, it will doubtless endeavor to drive out the fever and the malaria that have long afflicted it. Once rendered healthful as well as peaceful, capital will come in, and the development of the vast region will be rapidly carried forward. The consolidation of Pan-America is therefore linked with political reform and advanced sanitation. The task is a broad one, but not necessarily a difficult one, for all represented at the congress in the City of Mexico are Americans, with American ambitions and American plans. Europe is as much outside those ambitions and plans as Asia or Oceanica is.

**Beware of Ointments for Catarrh that Contain Mercury.**

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them. Hall's Carré Cure manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Carré Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Address ROYAL MEDICINE CO., 10-20 Plymouth Pl., CHICAGO, ILL.

I desire to inform the public that dogs have for sometime past been killing chickens and taking on meat near the rear farm suburbs of the city.

This bird is pestilential, and I intend to prosecute all persons committed

## FURS OF UPPER YUKON.

Facts From Report of Our Consul at Dawson City.

In a report to the state department at Washington J. C. Cook, United States consul at Dawson City, writes about "Furs of the Upper Yukon." Dawson is the central market for a vast extent of fur bearing country, stretching from the Mackenzie basin to the coast range and from the Peace River to the Hootalingua. In this area, he says, perhaps 1,000 men are engaged in hunting and trapping, exclusive of the Indians, and from Dawson fully 40,000 peltries are annually exported to the great fur markets of London and New York. The industry yields a revenue every year of nearly \$350,000. Speaking of prices and values, the report says:

In the local fur market London quotations govern. These are fixed twice a year—March and August—by a board of principal dealers in that city, and prices are gauged according to that scale in all parts of the world, except Russia. The present rates, compared with last year's prices, show an increase on bear, beaver, otter and mink and a decrease on silver gray fox, marten, wolf and wolverine. In varieties martens is the most numerous and black fox the scarce. The latter is the most valuable of all, a good she pelts readily bringing \$300, and muskrat is least costly, being worth only 4 cents. The annual production of some of the different varieties of pelts, their market value and special facts distinguishing their distribution are given as follows:

Bear—Black, silver tip, brown, grizzly and cinnamon; found all over the country from March to November; number shipped, 3,000; price, \$10 to \$25.

Beaver—On all streams, but chiefly numerous on White, Pelly and Stuart rivers; number shipped,
