King Peter has his hands full.

Thousands of wretched people are miserable -- driven almost mad by the terrible itching and burning sensation of Eczema and other skin diseases; many imagine they are suffering from bad blood, when as a matter of fact the blood has nothing to do with it. These awful tortures are

caused by little germs that attack the skin externally, which can be rooted out in a hurry, leaving the skin clear, soft and healthy. Such misery now cleared away as surely as the sun shines above. Not merely attempted, not a matter of improvement merely, not a temporary relief -- but a clearing of it all away absolutely and permanently.
