### NEWLAND CASTS DECIDING VOTE

#### Tie Vote in Senate Yesterday On Question of Mileage Books.

### BILL TO REPAIR CAPITOL

#### A Delegation From Greensboro Arrived in Raleigh This Morning Preliminary Step to Secure Capitol.

"There is a tie and the chair votes 'no,'" announced Lieutenant-Governor Newland when a tie vote was declared in the Senate yesterday on the Harringer bill relative to the privileges of persons owning mileage books. The bill would abolish the requirement of the railroads that persons possessing mileage books must secure tickets before entering the trains. The vote was 22 to 22, three senators not voting, a like number being absent from the city. Friends of the measure desire a reconsideration and will endeavor to have some member who voted against the bill to move a reconsideration of the vote by which it failed to pass its second reading.

The debate on the Harringer bill was the most earnest conducted during the entire session of the Legislature to date. The advocates and opponents of the relief provided in the bill were prepared for the argument which was ably presented on each side. The most serious question raised by the opposition was that of the constitutionality of the act, its validity being splendidly supported by those who spoke for it. The discussion brought out many matters relative to the attitude of the railroads toward the State that are of vital importance to the people.

The Senate made the bill to create the new county of Avery from the eastern half of Mitchell county a special order for Saturday at 12 o'clock. The bill had received a favorable report from the Committee on Counties, Cities and Towns, but was re-referred so that the opponents of the bill might be heard at a meeting to be held by the committee in the Senate chamber this evening at 8 o'clock.

The Senate passed the House bill authorizing the State Board of Medical examiners to issue a special license, to be known as a "Limited License," to persons to practice medicine and surgery in localities where the conditions are such as to render it advisable. This act is for the benefit of several mountain districts, which have no regularly licensed physician.

The session of the House yesterday was particularly important, because of the fact that the vexatious and intricate fish question was set at rest for at least two years by the passage of a resolution by Mr. Stubbs to table the present bill (leaving the present law undisturbed) and authorizing the appointment of a special legislative commission to investigate the whole matter and report the result of its conclusions together with recommendations to the General Assembly of 1911. This result was reached after a long and exciting discussion.

Among the important bills introduced were those providing for a method of equality of assessment for taxation of property, also his bill to provide a bond issue of not more than \$750,000 to erect suitable buildings for the State offices and institutions at Raleigh. The bill provides \$50,000 for repairing and renovating the Capitol, not changing its present plan.

The balance is to erect a suitable, commodious and safe fire proof building on the block occupied by the Supreme Court building and the Agricultural building for all the State departments. The bonds are to run for forty years and to bear not more than 4 per cent interest.

The other two much important public bills introduced were by Graham, to change the method of taxation of telephone and telegraph companies, and by Williams, of Dare, to promote and develop the oyster industry of the State.

A delegation from Greensboro, High Point and other places in Guilford county, arrived in Raleigh today in the interest of the bill before the Legislature to allow the people to vote upon the question of moving the Capitol to Greensboro.

### BUILDING AND LOAN TOWNS.

#### Charlotte's Example and What Goldsboro May Learn From It.

The Danville Bee, in citing statistics on building and loan associations, gives some striking illustrations of the home-building achievements of this modern invention of intelligent co-operation that should appeal with wholesome effect to our Goldsboro people.

We quote from the Bee as follows: "Philadelphia is the greatest home-owning city in this country, and that in New Jersey the per capita investment by the people in building and loan organizations is \$17. Think of it! For every man, woman and child in the entire State of New Jersey an average of \$17 is invested in this one enterprise or form of enterprise. Among the cities Charlotte, N. C., leads every other in the South and probably in the whole country, Philadelphia excepted, with \$24 per capita paid in on this stock and \$100 per capita subscribed.

This magnificent showing of universal thrift and prosperity by Charlotte is largely the result of the institution of the modern building and loan plan, whereby loans can be secured at 6 per cent. This means only 6 per cent. during the entire life of the loan until its extinction and not 6 per cent. on the entire principal until the last dollar is paid. To make it still clearer, it means 6 per cent. interest on the balance due at the time of every payment. In this connection we may add that the Mutual Building and Loan Association of Danville is based upon this 'Charlotte plan' and is a guaranteed 6 per cent. investment for all who desire to utilize the opportunity for savings and a maximum interest rate of but 6 per cent. for those who desire to borrow money with which to build homes. The interest payments on the loans hardly equal the cost of rent.

"There is a tie and the chair votes 'no,'" announced Lieutenant-Governor Newland when a tie vote was declared in the Senate yesterday on the Harringer bill relative to the privileges of persons owning mileage books. The bill would abolish the requirement of the railroads that persons possessing mileage books must secure tickets before entering the trains. The vote was 22 to 22, three senators not voting, a like number being absent from the city. Friends of the measure desire a reconsideration and will endeavor to have some member who voted against the bill to move a reconsideration of the vote by which it failed to pass its second reading.

### BROUGHT SUIT AGAINST "WITCHCRAFT DOCTOR"

#### Peculiar Case Heard This Morning by Capt. J. E. Peterson.

A peculiar case was heard by Capt. J. E. Peterson this morning, when John Williams, colored, of Mt. Olive, brought suit against LeB. Kirby, charging him with being a "Witchcraft Doctor." The two, however, decided to settle the matter outside of court and the warrant was withdrawn.

The alleged charge against Kirby dates back to last year, when Williams was to be tried at a term of the Superior Court. He was induced to pay \$5, for which Kirby gave him a bottle of medicine, which was to be used just before the trial. The nature of the medicine was such that it would influence the attorneys and judge that Williams would be cleared. At this trial Williams was acquitted, but by a narrow margin. He then began thinking about that medicine and his \$5, and finally brought suit to recover the money.

### QUALIFICATIONS OF CHRISTIAN WORKERS

#### Dr. Charles L. Work Delivered Able Sermon in St. Paul Church.

### SERVICES ALL NEXT WEEK

#### Services Will Be Held To-night at 8 O'clock—Public Cordially Invited to Attend These Meetings.

A large audience heard Dr. Charles L. Work deliver an interesting sermon this morning in St. Paul's Church. His theme was "The Qualifications of a Christian Worker."

Dr. Work made the following deductions:

"We were told in our God to speak unto you the gospel."

Settle this question with God before you deliver that lecture."

Paul, Peter and others were bold. Don't be imprudent, but speak for God, and not yourself. There should be no display of self.

"But are we gentle among you even as a mother cherisheth her children." "The greatest qualification is love. It was love that moved God. You can do no good without love. Therefore the tests are 'Are you gentle? Are you full of love? and, Are you anxious to save sinners?'"

"In approaching men, you should not humiliate them, nor button-hole them in public. You should be careful and get men to consider Christianity. You should not comfort sinners, but say they must repent. You should work in the Sunday School and home and pray much."

Dr. Work will conduct services to-night at 8 o'clock in St. Paul's. The union services will continue part of next week.

### EXCITING RUNAWAY YESTERDAY AFTERNOON

#### The Cool Head and Heroism of Mrs. Lyndon M. Humphrey in the Harrowing Ordeal.

A most exciting and harrowing runaway occurred yesterday afternoon, but which fortunately resulted in no serious damage to either occupants or vehicle.

While Mrs. Herman Smith and Mrs. Lyndon Humphrey were out driving yesterday afternoon in the former's conveyance, and having with them Mrs. Smith's bright little two-year-old son, they met an automobile, but the horse slowed no sign of alarm until right abreast of the machine, when he made a sudden wheel, turning the buggy almost over and throwing Mrs. Smith, who was driving, into the road, and dashing off at full speed with the reins trailing at the side of the buggy and with Mrs. Humphrey and the little boy left helpless at the mercy of fate.

With wonderful coolness and heroism Mrs. Humphrey took the baby in her arms, and turning knelt on the seat of the buggy and, bending far over carefully dropped the little fellow in the road, without a jar. She then turned and calmly seated herself and surveyed the situation and trusted to Providence while the horse flew down the broad road towards the Orphans' Home. The workmen on the Jacob Memorial Building took in the situation and promptly hastened to Mrs. Humphrey's rescue. The frightened horse turned right across the shrub hedge into the grounds, when the workmen surrounded him and rescued Mrs. Humphrey, who came out of the ordeal smiling and graciously thankful to her rescuers, but, of course, somewhat nervous "after it was all over."

In the meantime Mrs. Smith and Mrs. Wm. and John Spicer, who were the occupants of the automobile, were beside themselves with anxiety and, racing after the runaway afoot, while the little boy insisted on telling his mother that "that lady threw me out of the buggy."

### PENROSE AT ODDS WITH LAFOLLETTE

#### Pennsylvania Angry Because of Assaults Made Upon The Senate.

### A LARGE APPROPRIATION

#### The Amount of \$232,000,000 For Postoffice Was Passed by the Senate During Stormy Debate.

Washington, D. C., Feb. 18.—The postoffice bill, carrying appropriations of over \$232,000,000, was passed by the Senate today after a very stormy debate during which Senator Penrose, in charge of the measure, made an angry assault on Senator LaFollette, who had entered into a general criticism of Senate committees because of what he termed their unwarranted delay in reporting great appropriation bills.

Mr. LaFollette had, at length, chided the Senate with permitting a glut of important legislation to be disposed of in haste during the last days of Congress and had suggested that it would be no calamity if all of these bills could not be acted upon, saying that a reorganization of committees would allow the special session to consider them and other important legislation.

Responding in angry tones, Mr. Penrose charged the Senator from Wisconsin with having failed to attend meetings of the committees of which he was a member, finally declaring that his criticism sounded more like the arguments "made by a vendor of a patent medicine from the tail door of a cart in the villages of Wisconsin" than those of a Senator of the United States.
