Entered at the postoffice in Goldsboro as second class mail matter.

With the Missouri legislature considering the proposition of "firing" all the negroes in the employment of that body; with the Crum appointment agitated in Congress; with Pittsburg having a strenuous time with the negro and the people of that city threatening to take drastic measures to suppress the offensive and criminal element of the blacks; with the Brownsville incident being continually agitated by Foraker and other professional politicians, and with "The Clansman" touring the country, it looks as if the colored brother who has wandered out from among us—his real friends—of the South and been trying his fortune in the North had better take up the old song "I'm gwyng back to Dixie," and act accordingly.

A call has been issued in New York for a conference for the purpose of discussing the negro question. Aside from the amount of ignorance that will be manifested at this meeting, it will, as most of the meetings of this kind, do more harm than good. The less said and done in the North in this direction the better for the negro as well as the white man. The best way to solve the so-called negro question is to let it alone. That has been demonstrated time and again in the South as well as in the North, and more especially in the North.

Jack Johnson says he's ready to meet any other fighter "in any part of the civilized world." The uncivilized world wouldn't stand for such an exhibition, and anyway, most fighters are already suffering from too much Johnson.

It would be really interesting to know just exactly what Judge Taft thinks of alligator steak as a piece of resistance from the standpoint of a man whose tongue isn't tied by the rules of etiquette for the guest of honor.

A good many of the members of Congress seem to think that the only way for them to attract attention is to jump into the canal question and display a vast amount of ignorance on the subject.

The young man who killed himself because his landlady wouldn't marry him probably failed in the attempt to be her star boarder.

Judge Taft thinks that the canal will be finished during his administration, and says nothing about a second term, either.

The last congressman who wore boots has resigned. Those fellows will be wearing dress suits at breakfast next.

Cuba's success in squelching her first mutiny in twenty minutes puts a new limit on South American revolutions.

Hero Jack Binns has refused many flattering offers, but it's dollars to cents he'll end by starting a magazine.

We don't fear for the President in Africa, but he'll find the game bigger there than in Congress or the Senate.

They are going to try for prohibition in Iowa. That is getting dangerously near Milwaukee.

Japan is about to take a census with no civil service complications.

Nevada is safe, for no Japanese ship has range enough to reach it.

Our spring line of the celebrated Haywood Carriages and Go-Carts are now on display. Andrews & Waddell Furniture Co.

## TWO NEW STATES.

There must have been some sharp politics successfully worked sub rosa whereby, under a sudden and unforeseen suspension of "the rules," the House unexpectedly and unanimously passed the bill granting separate statehood to New Mexico and Arizona.

The unanimous vote of the House is the real surprise, showing that Democrats and Republicans alike gave it their votes, and manifesting thereby that the bill in that branch of Congress was not considered a party question.

If the Senate takes a like view of the bill it is safe to say that the two territories will be granted the statehood they seek before March 4.

Both political parties are, indeed, committed to the passage of the bill, and if some elder statesman in the Senate is not alarmed by the possible appearance in that body of four new Democratic Senators the bill will become law.

It certainly should be passed. The two territories would have been admitted years ago if they had been considered Republican in politics. They are at heart Democratic, and the Republicans have been unwilling to do them justice on this account. The course of the Republicans in this matter has not been creditable or honorable or patriotic.

If Arizona and New Mexico become states there will be all told 45 stars on the national flag after July 4, and all the mainland territory will have been cut up into states. There will remain Alaska, Hawaii and the provinces of Guam, Samoa, Porto Rico and the Philippines. Possibly Hawaii and Alaska may yet become states; so may Porto Rico after a long tutelege, but no one now anticipates the transformation of our provinces into states. The Filipinos at heart desire independence, and our other provinces are not large enough to constitute states. Alaska will, however, become a state. It is full of mineral wealth and when it is well penetrated by railroads it will begin to seek statehood. It is safe to say it will become No. 49.

### THE MOST STUPENDOUS WORK.

Few of us at this distance from the scene of operations can comprehend the stupendous physical work that is being prosecuted in the building of the Panama canal; but all of us are conversant with its purpose and the possibilities that its completion will render feasible to all this country—and when we say this country we mean the American Republic, and we are all overly desirous to see it speedily completed—as speedily as commensurate service will permit. All of us are satisfied, therefore, for it to be a lock canal, because a canal of that type can be completed by January 1, 1915, whereas a canal of the sea-level type could not possibly be opened in less than ten years.

All would be glad to see a sea-level canal at Panama, but when the time and cost of construction are reduced one-half by a lock canal the latter is accepted without complaint.

Nearly all the eminent engineers who have ever visited Panama endorse the lock plan, and Mr. Taft accepts their conclusions. The country wants an open canal by January 1, 1915.

### A WHOLESOME VOTE.

If there has been any one thing that the people of North Carolina has been surfeited on it is anti-railroad agitation; and, too, if there is any one thing that has given the development of North Carolina's fathomless resources and consequent prosperity the greatest set-back in the State's history it is the utter disregard of "vested rights" with which "politicians" have assailed railroads up and down and thwart the State and preached anti-railroad legislation; and, above all, if there be any one thing that the Democratic party should endeavor to amend and ameliorate with the taxpayers of this State—get away from and forget—it is the enormous cost entailed upon us in attorneys' fees and the "special session" of the General Assembly to correct the drastic harvest of ruin wrought by the "whip-crackers" through the previous regular session of the Legislature.

The vote of Lieut-Gov. Newland, president of the Senate, yesterday in that body, against the mileage book bill, the roll call of that body on said bill resulting in a tie vote, deserves the commendation of the business element of North Carolina, and The Argus accords him its unqualified approval.

## S.S.S. RIDES THE SYSTEM OF CATARRH

Catarrh is a blood disease which causes a general inflammation of the inner linings or mucous membranes of the body. The discharging of these delicate surfaces and tissues produces all the well known symptoms of the trouble, such as ringing noises in the head and ears, tight, stuffy feeling in the nose, pains above the eyes, irritation of the throat, sometimes slight fever, and a general feeling of weakness and ill health. Even the lungs become affected by the continual passage of impure blood through them, and there is danger of consumption if the disease is allowed to remain in the system. S. S. S. cures Catarrh because it purifies the blood. It goes into the circulation and removes every particle of the catarrhal matter, making this vital fluid pure, rich and healthy. Then the inflamed membranes begin to heal, every symptom disappears, the constitution is built up and health restored. S. S. S. rides the system of catarrh by attacking the trouble at its head and entirely removing the cause from the blood, thus making a permanent and lasting cure. S. S. S. is made entirely from health-giving roots, herbs and barks, and for this reason is an especially safe and desirable medicine. Book on Catarrh and any medical advice free to all who write.

## PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. As James M. Shoop, M.D., says, "It is proved that he has created a little pink tablet, that is called Dr. Shoop's Headache Tablets—cures blood pressure away from pain centers. Its effect is charming, pleasantly delightful, gently though safely, it surely equalizes the blood circulation."

If you have a headache, it's blood pressure. If it's painful periods with women, same cause. If you are dizzy, motion sickness, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablet's simple, clean, unadorned blood pressure.

Break your finger and don't get red, and swell and pain you. Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simple, common sense.

We sell at 25 cents, and cheerfully recommend.
