## MISSIONARY'S WIFE PRAISES CUTICURA

Daughter's Head Encrusted with Dandruff—Feared she Would Lose her Hair—Many Treatments were Futile—Baby had Milk-Crust.

### BOTH CHILDREN CURED BY FAMOUS REMEDIES

"For several years my husband was a missionary in the Southwest, and we were living on the edge of the desert at an elevation of nearly five thousand feet. Every one in that high and dry atmosphere has more or less trouble with dandruff and my daughter's scalp became so encrusted with it that I was alarmed for fear she would lose all her hair, which was very heavy. After spending between five and six dollars for various remedies, in desperation I bought a cake of Cuticura Soap and a box of Cuticura Ointment. After rubbing the Cuticura Ointment thoroughly into the roots of the hair I gently combed the crust of dandruff free from the scalp, and then gave her head a thorough shampoo with the Cuticura Soap. This left the scalp beautifully clean and free from dandruff, and after the hair was dry, I again rubbed the Cuticura Ointment, this time sparingly, into the roots, and I am happy to say that the Cuticura Remedies were a complete success. My troubles with dandruff were over, although for a long time afterward I used the Cuticura Ointment as at first, after shampooing, which kept the scalp and roots of the hair moist. I have used successfully the Cuticura Remedies for so-called 'milk-crust' on baby's head, and have never found anything to equal them. You are at liberty to publish this letter, for I do sincerely believe that the Cuticura Remedies are a blessing to mankind. Mrs. J. A. Darling, 310 Fifth St., Carthage, Ohio, Jan. 20, 1908."

Cuticura Ointment is one of the most successful curatives for torturing, disfiguring humors of the skin and scalp, including loss of hair, ever compounded, in proof of which a single anointing with it, preceded by a hot bath with Cuticura Soap, and followed, when necessary, by a mild dose of Cuticura Resolvent (liquid or pills) is often sufficient to afford immediate relief of itching, burning and scaly humors, eczemas, irritations and inflammations, permit rest and sleep, and point to a speedy cure when all else fails.

## LAUNDRY INFECTION

The Mexican Board of Health is Aroused Over Chinese Sanitary Conditions.

## ECZEMA FROM THE CLOTHES

More Than Three Hundred Cases Contracted Last Month in the City of Mexico.

Special to The News.

Monterey, Mexico, Dec. 1.—The condition of the Chinese laundries in this and other Mexican cities which has just been brought to light by the recent inspection of the Board of Health in this city, has greatly aroused all persons interested in the question of the public health. The inspectors claim that in many cases smallpox and other infectious diseases abound among the Chinese, often being found in the very rooms in which the clothes were laundered, and that it is positively dangerous for any one to allow their clothes to be sent to such a place. All the laundries in this city are in the hands of the Chinese, and the matter is a serious one. The Chinamen live in large numbers in small, squalid rooms, reeking with the fumes of opium and other drugs, and the washing and ironing are done in these same rooms. The laundry men are experts at keeping the condition of affairs in their homes hid from the public, but this only makes the matter more grave. It is said that in this city alone more than 300 cases of eczema were caused last week from clothes sent to these laundries.

We think that the patrons of a Chinese Laundry are in the same danger as above, as Chinese live in the same manner everywhere.
