### LOCAL BRIEFS.

#### Items of Interest in and Around the City.

—Next Monday, besides being Park Day, is city election day. Have you paid your taxes? If not, you cannot vote.

—The bitulthic binder—the final finishing—will be put on the paving tomorrow along the west end of Walnut street. Then the public can see the finished article and judge of it. It is fine. Let's have more of it.

—Mr. M. R. Driver, who was reported by The Argus as being fined yesterday for disorderly conduct, was insulted Saturday evening by a negro, for which he knocked the man down. The Argus is very glad to make this correction.

—Better pay your taxes this week, otherwise you will not be able to vote in next week's mayoralty election, nor in the street improvement bond election in June. This is of vital importance. It is up to you, and the tax collector cannot indulge you. His receipt is what qualifies you to vote.

—There will be an important meeting of the Civic Improvement League at the City Hall tomorrow—Wednesday— evening at 8:30 o'clock to make final arrangements for the celebration of Park Day, next Monday, in the real Goldboro spirit. All members of the League and all prospective members, as well as all well-wishers for a successful celebration of Park Day, are urged to be in prompt attendance.

—The feature of Arbor Day at the Goldboro High School has come to be quite an interesting occasion, when the graduating class of the year plants a tree and names it. The graduating class this year, which is one of the largest in the history of the school, held a meeting today for the selecting and the naming of the tree they will plant on Arbor Day—commencement day, and by unanimous vote they decided to name the tree in honor of the chairman and oldest member of the board of trustees and the abiding friend of the school, Mr. E. B. Bordean.

—The village improvement department of the Woman's Club have gone to work in a practical way to have a systematic sprinkling of the streets provided for during the heated months and thus make the homes of the city in a great measure immune from the deadly fever germs that float in with the fetid dust from the streets—that can be allayed by sprinkling the streets. The board of city aldermen will be asked to co-operate with the Woman's Club in this work; and it is the duty of the board to do so. In fact, with the city owning its own water plant and with convenient hydrants throughout the city, it is passing strange that this question of sprinkling the streets has to be taken up at all. The sprinkling of the streets should come as a matter of course—as a public necessity.

—Superintendent Woltz is preparing to hold the graduating exercises this year on the beautiful and beautiful lawn of the Graded School, with the spreading foliage of the trees as a canopy and the broad portico of the centre building as a stage, and the broad circular and tangent walks will be used for seating the audience. It is to be hoped that the weather will be propitious for such an outdoor celebration. And let us hope, too, that the coming together of our people—this so great, generous and peerless people of Goldboro—under such conditions will so strongly impress them of the need of a commensurate auditorium for just such occasions, as well as for the bringing the children together from time to time during the year for lecture courses, that an auditorium will be forthwith determined upon and built before another school commencement comes round. We can do it. These Goldboro people can do anything that should be done.

Work in Third Degree Tonight. There will be work in the third degree at the meeting of Neuse Lodge, No. 6, I. O. O. F., tonight, and all members of the degree team are urged to be present.

From "Mutual Interests," August, 1908:

Wilmington, N. C., July 3, 1908. Milton McIntosh, Manager. Dear Sir: I beg to thank you for your statement handed me today, showing results of Mutual Life Insurance Company of New York, policy No. 332,424, which I took out with that company twenty years ago. The terms of the settlement set forth in the statement and offered me by The Mutual Life are eminently satisfactory to me; in fact, I did not expect to receive as liberal a settlement as your company offers in the final adjustment. The policy has not only given me full protection for the period I have carried same, but has proven to be a veritable savings bank, as, in addition to the full paid-up policy for its face value, it has returned me a substantial surplus. I note from the statement that I will receive 3 per cent. compound interest as a dividend on the face value of the policy. In this connection, I have no hesitancy in stating that I look upon The Mutual Life Insurance Company of New York as one of the most substantial financial institutions in this country, and a company that will not only protect its patrons, but will give entire satisfaction to anyone who desires to provide for their family through life insurance or make an investment for themselves in their old age.

Very truly yours,  
JAMES F. POST,
