MANHOOD SUFFRAGE.

A half century has reconstituted Europe, for in that time has been organized a new Germany, a new Italy, a new Norway, a new Serbia, a new Bulgaria and a new Roumania. In this connection a new constitutional Russia and a new constitutional Turkey should be mentioned. France has become a republic, Spain has lost her colonies, and Russia has been licked out of her boots by Japan. Belgium has acquired the Congo Free State, and Austria has lost some territory and acquired Bosnia and Herzegovina. Except Holland, Portugal and Switzerland, nothing in Europe remains as it was fifty years ago. Great Britain has won in that time a great African empire extending almost unbroken from Cairo to the Cape. The disintegration of Napoleonism has been overcome, and the only relic of that meteoric period today is the reigning family in Sweden.

Owing more to the backset that Russia received at the hands of Japan than to anything else, Germany has become the dominant nation of Europe, but no one thinks she will remain master of it long. The great Slay family, including Russians, Poles, Czechs and Southern Slavs, is pulling itself together, and Russia is getting ready to lead this mighty force. In the long run a better Russia will compete with Germany for the control of Europe. The Teuton and the Slav will contest for first place in the coming fifty years.

Nor should it be assumed that affairs are settled in Turkey, Macedonia will yet be released from Turkish rule, and Greece may get it. If not, it will become independent. It will not, at any rate, remain permanently a part of the Moslem empire.

While the coming fifty years will not be as fruitful in geographical changes as the last fifty years have been, yet it will bring in large political changes. The steady drift toward popular rule will go on, and Europe may fifty years from today be the hotbed of democracy. Manhood suffrage is fast becoming the fashion in European politics. Austria-Hungary has it, and so has Italy, and Germany, and Sweden, and Norway, and Belgium, and Switzerland. The trend is unmistakable.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

UPON THEIR KNOWN MERIT.

There is no undue inflation, no boom, in the prices of Southern farm lands, but there is a steady increase in the demand for such lands, and land values are steadily going upward. This is due to an appreciation of the Southern climate and Southern soil by farmers of the North and West. Those farmers are alert and well informed, and they see that the best and cheapest lands now on the market are those in the South. No promoters and no organized league are behind Southern lands, but they are being purchased on their merits as good farming propositions.

A slow, steady uplift of this sort is perhaps the one most to be desired. Values should be left to appreciate with growth and development. No one is booming Southern lands. No organization exists to turn anybody this way. The farmer in the West and North who is tiring of long winters and short grazing periods is turning to the South, and that movement is steadily increasing the price of Southern farm lands. Lands that could have been purchased ten years ago at \$5 an acre are now salable at \$15 an acre, and at the latter price they are the cheapest and best lands, all things considered, that can be bought in the country.

SALIENT FACTS.

At the annual meeting of the Associated Press the salient facts brought out in the Mann report were presented. The testimony taken by the Mann committee shows there are 70,000,000 cords of spruce standing in the United States, and that the annual consumption of spruce is 5,280,000 cords. There are not, therefore, enough spruce trees standing in this country to furnish a constant future supply for paper making. The Associated Press, therefore, asked Congress to admit pulp free and to reduce the duty on news print paper from \$6 to \$2 a ton. The Payne revisers accepted these resolutions and the Payne bill went through the House containing them.

What have the Aldrichites done? They have increased the Payne rate on print paper to \$5 a ton, and they have reported a duty on pulp of \$1.35 a ton.

It was proven before the Mann committee that paper can be made at lower cost of production in America than in Canadian mills. In other words, any duty on print paper is simply a cover for higher prices on the part of the paper manufacturers. A duty on pulp will operate as a tax on readers, and is wholly unjustified if the tariffs is to be revised downward. If it is to be revised in the interest of a few manufacturers instead of the reading public the present Aldrich duties are admirably arranged, for the mills would be boomed at the expense of intelligence.

"I'd Rather Die, Doctor, than have my feet cut off," said M. L. Bingham, of Princeville, Ill. "But you'd die from gangrene (which had eaten away eight toes) if you don't," said all doctors. Instead—he used Bucklen's Arnica Salve and he was cured. Its cures of Eczema, Fever Sores, Bolls, Burns and Piles abound the world. 25c at J. H. Hill & Son.

Mr. F. G. Fritis, Oneonta, N. Y., writes: "My little girl was greatly benefited by taking Foley's Orino Laxative, and I think it is the best remedy for constipation and liver trouble." The Palace Pharmacy, The City Pharmacy, M. E. Robinson & Bro.

The Value of Good Digestion

Is easy to figure if you know what your stomach is worth. Kodol keeps the stomach at par value, by insuring good digestion. Kodol cures Dyspepsia.

Kodol insures good digestion by normal duplicating Nature's process, in perfectly digesting all food taken into the stomach. While Kodol is doing this, the stomach is resting—and becoming strong and healthy. A strong and healthy stomach guarantees a sound and active brain. The man with a sound stomach—a stomach that is doing for the body just what Nature intended it to do—is the man who is always prepared for any emergency. He is "there with the goods." The man with a sick stomach, is a man sick all over. When the stomach is irritated by undigested food, the blood and heart are directly affected. Then dizziness, natural sleepiness, sick-headaches, vertigo and fainting spells, and even serious brain trouble develop. Kodol will prevent these.

to special effort by "tonics" and "stimulants" doesn't cure anything, or accomplish any good. Neither does dieting, indigestion and the serious ailments which it induces can be averted and corrected only by natural means. Kodol supplies this natural means. It performs the stomach's work for it—just as the stomach should perform it—while the stomach takes a little rest, "for the stomach's sake." **Our Guarantee** Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. We will then pay the druggist for the bottle. Don't hesitate, all druggists know that our guarantee is good. This offer applies to the large bottle only and to but one in a family. The large bottle contains 24 times as much as the fifty cent bottle. Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.

GREATER RESULTS FOR GREATER GOLDSBORO.

Goldsboro, N. C., April 19, 1909.
Mr. H. M. Humphrey, Manager National Life Insurance Company Goldsboro, N. C.

Dear Sir: It is with pleasure that I enclose herewith my check for \$26.28 and dividend voucher for \$8.02 in payment of premium of \$34.30 due April 30th, on account on my contract No. 194,059 for \$2,500 and I wish to express here my appreciation of this large dividend, which is in excess of 23 per cent. of the premium. This policy is issued upon the 10-Year Renewable Term plan, the gross premium being only \$34.30, which I regarded at the time of buying the insurance very cheap. The policy is renewable at the end of each 10-year period, or exchangeable at any time without remedial examination. I think this is the cheapest form of insurance in existence and regard the National Life Insurance Company as one of the best companies in the world.

Its 50th annual statement is very satisfactory. I also approve of its system of making its investments in the states in which it does business and recommend it to the insuring public. Yours very truly,
D. H. DIXON.
