

# Dandarine

GROWS HAIR  
and we can  
**PROVE IT!**

A lady from Minnesota writes:  
"As a result of using Dandarine, my hair  
is close to five feet in length."

## Beautiful Hair at Small Cost

HAIR troubles, like many other diseases, have been wrongly diagnosed and altogether misunderstood. The hair itself is not the thing to be treated, for the reason that it is simply a product of the scalp and wholly dependent upon its action. The scalp is the very soil in which the hair is produced, nurtured and grown, and it alone should receive the attention if results are to be expected. It would do no earthly good to treat the stem of a plant with a view of making it grow and become more beautiful—the soil in which the plant grows must be attended to. Therefore, the scalp in which your hair grows must receive the attention if you are to expect it to grow and become more beautiful.

Loss of hair is caused by the scalp drying up, or losing its supply of moisture or nutriment; when baldness occurs the scalp has simply lost all its nourishment, leaving nothing for the hair to feed upon in place of even a tree would die under similar conditions.)

The natural thing to do in either case, is to feed and replenish the soil or scalp as the case may be, and your crop will grow and multiply as nature intended it should.

Knowlton's Dandarine has a most wonderful effect upon the hair glands and tissues of the scalp. It is the only remedy for the hair ever discovered that is similar to the natural hair foods or liquids of the scalp.

It penetrates the pores quickly and the hair soon shows the effects of its wonderfully exhilarating and life-producing qualities.

One 25-cent bottle is enough to convince you of its great worth as a hair growing and hair beautifying remedy—try it and see for yourself.

**NOW at all druggists in three sizes,  
25c, 50c and \$1.00 per bottle.**

**FREE** To show how quickly Dandarine acts, we will send a large sample free by return mail to anyone who sends this free coupon to the  
**KNOWLTON DANDARINE CO., CHICAGO, ILL.,**  
with their name and address and five in silver or stamps to pay postage.

# BABY'S VOICE

Is the joy of the household, for without it no happiness can be complete. Angels smile at and commend the thoughts and aspirations of the mother bending over the cradle.

The ordeal through which the expectant mother must pass is such that she looks forward with dread to the hour when she shall feel the thrill of motherhood. Every woman should know that the danger and pain of child-birth can be avoided by the use of Mother's Friend, which renders pliable all the parts, assisting nature in its work. By its aid thousands of women have passed this crisis in safety.

# MOTHER'S FRIEND

1.00 per bottle of Druggists. Valuable book of information to women sent free.

Witness my hand and official seal the day and date above written.

JAMES R. YOUNG,  
Insurance Commissioner.

## BASEBALL BUNTLETS.

### Pick-Ups From the Diamond Far and Near—Some Players You Know—Something About Them.

There was an exceedingly large crowd of rooters out at the ball park yesterday afternoon to cheer on Miller's braves through their hard practice session, and when any of the men made a pretty play or a "circus stop," the fans were very liberal in their applause.

Yesterday was the best day of practice the men have had yet, and they certainly look good.

There are eight pitchers on the roster now, and this bunch will have to be cut just in half. They all look so good that it is going to be a very hard task for the management, but we guess Miller will be equal to the occasion.

Aiken, the big pitcher from Roper, came in last night. He is a big fellow, and has a good second for this season.

Some signal practice was gone through yesterday, and to see the men running bases would remind one of a real game.

There are enough men here now to form a regular and a yannigan team, and some good practice is looked for in that way.

Miller, Crockett, Zanelli and Kelley on the infield, certainly worked together in clock-like precision yesterday, while the outfielders were going out and picking them off the fences.

We had a chance to see Fulton work yesterday, as Miller had the long catcher put on a mask and get behind the bat, and all those that were looking on said that they could readily see why the management refused to listen to any deal that would deprive us of his services. He was wanted very bad by some New York State League clubs.

Prichard, the new pitcher, is a good hitter, and may be used some in the outfield as well as in the box.

"Handsome Harry" Otis cut a few loose yesterday, and surely has some "smoke."

We had a very good pitcher offered to us by the Birmingham management, but Roy had all the pitchers he could use, so had to turn down the offer.

### Baseball Writers' Guide.

New York Mail.

### LESSON I.

In estimating the crowd at a ball game the following figures are to be taken:

Five hundred—"A loyal few, undisputed by the unpropitious weather."

Twelve hundred—"Only the regulars were on hand."

Two thousand—"A good crowd for Monday."

Ten thousand—"An immense crowd, filling the grandstand and bleachers."

Twenty thousand—"All New York."

Thirty-one thousand eight hundred fifty-two—"The whole world seemed to be there."

Never mention the sun by any other name than "Old Sol;" rain is always "J. Pluvius." It is not only most humorous, but it lends an air of cultivation and acquaintance with the classics to one's story.

### Mechanical Engineers in Session in Washington.

Washington, D. C., May 4.—The annual spring meeting of the American Society of Mechanical Engineers opens in this city this evening for a session of three days. There are about 200 delegates here, and 100 more are expected. The membership of the society is nearly 3,000, and includes engineers living in all parts of the country.

During the convention President Taft will hold a reception for the members at the White House. The War Department will give a special exhibition drill of the United States troops at Fort Myer. At the same time, if the conditions are favorable, an ascension of a dirigible balloon will be made. Another interesting feature of the convention will be the presentation to the National Gallery of a portrait of Rear Admiral Melville (retired), past president of the society and former engineer-in-chief of the United States Navy.

### Chicago Police Remember This Date.

Chicago, Ill., May 4.—Today is the anniversary of the two most memorable events in the criminal records of Chicago—events that will long live in the memories of Chicago policemen. The great Haymarket riot, in which six policemen were killed and sixty others seriously injured by bombs thrown by anarchists, occurred May 4, 1886. Three years later, on May 1, 1889, the noted murder of Dr. Patrick H. Cronin took place. Deaths of those connected with the trials subsequent to these tragedies have been numerous, most of them unnatural.

### Practice for War College Staff.

Washington, D. C., May 4.—The members of the War College, under command of Maj. Eben Smith, U. S. A., left the capital today for Gettysburg battlefield, where they will engage in the regular annual staff ride and practice. They will remain at Gettysburg thirty days, during which time several sham battles will be fought.

### Bishop Strange at Snow Hill.

Rt. Rev. Robert Strange, bishop of the Diocese of Eastern Carolina, made his official visit to Snow Hill Sunday, preaching at St. Barnabas Church both morning and evening.

## GREAT MUSIC FESTIVAL OPENS IN ATLANTA

Greatest Event of This Nature Ever  
Held in the Southland.

Atlanta, Ga., May 4.—Everything is in readiness for the opening of what promises to be the most notable music festival ever held in the South—the Great Southern Music Festival, for which Atlanta has been preparing for several months. In anticipation of the opening concert this evening the city is rapidly filling with music lovers from all parts of Georgia and neighboring states.

The festival program provides for three concerts. The forces of the Metropolitan and Manhattan opera houses in New York and the chief musical centers of Europe have been drawn upon to furnish the talent for the festival. The Dresden Philharmonic Orchestra of seventy pieces and a trained chorus of 500 voices will take part. But more notable still are the fifteen world-famous soloists who are to be heard. Included among the latter are Miss Geraldine Farrar, soprano; Mme. Olive Fremstad, soprano; Mme. Charlotte Maconda, soprano; Miss Mary Lausung, contralto; Signor Antonio Scotti, baritone; Mr. Ricardo Martin, tenor, and Mr. Albert Spalding, violinist.

### Sale of Sam Scarborough Property.

The Sam Scarborough property in Falling Creek township and LaGrange was sold Monday at the court house door in Kingston, by the commissioner of the court, Mr. D. M. Stanton, of LaGrange. The property in Falling Creek township brought \$3,635 and was bid in by Mr. J. W. Scarborough. The town lot in LaGrange was bought by Mrs. Julia Scarborough, widow of the late Sam Scarborough. This is the second sale of the property. At the first sale in January, the bid was raised 10 per cent, and a new sale ordered. The sale was by virtue of an agreed judgment in settlement of the estate, which set aside the will of the late Sam Scarborough.

### \$3,200,000 for Depositors.

Providence, R. I., May 4.—By way of observing the anniversary of its reopening, following a temporary receivership of three months, due to financial conditions in New York, the Union Trust Company, of this city, today paid out \$3,200,000 to its depositors. This sum represented 20 per cent of the amount due when the bank became embarrassed, and brings the total distributed among the depositors to 60 per cent. The remaining 40 per cent. will be paid later.

### Bryan Visits Winnipeg.

Winnipeg, Man., May 4.—William J. Bryan, of Nebraska, is in Winnipeg for a visit of two days. Tonight and tomorrow night he is to be heard on the lecture platform in the Central Congregational Church. Seats for both lectures were placed on sale a week ago and the supply was practically exhausted the first day of the sale.

Never mention the sun by any other name than "Old Sol;" rain is always "J. Pluvius." It is not only most humorous, but it lends an air of cultivation and acquaintance with the classics to one's story.
