GOLDSBORO, N. C., THURSDAY EVENING, JUNE 15, 1922

NO. 60

SUNRISE SERVICE HELD BY B.Y.P.U.

(By Associated Press.)
New Bern, June 15.—An open air sunrise service held on the spacious Neuse River bridge here this morning featured the opening of the last day of the 13th annual B. Y. P. U. State Convention.

Hundreds of delegates thronged the bridge and joined in the singing of hymns and devotional exercises.

A full and interesting program is scheduled for today, interspersed with social functions for the delegates, including an automobile drive through the city and section, and a boat trip down the river to Pamlico Sound.

High Point was today selected for next year's assembly.

5 ALLEGED RUM VESSELS SEIZED

(By Associated Press.)
New York, June 15.—Five alleged rum-running vessels plying between a big steamship lying in Narragansett Bay and the American coast, have been seized by federal agents, it was announced today.

To Fight Locusts With Gas Bombs

(By Associated Press.)
Tbilisi, Soviet Republic of Azerbaijan, June 15.—Forty airplanes equipped with poisonous gas bombs will be used to fight the swarms of locusts descending upon the crops here.

The bombs will be dropped into the swarms and other breeding places, upon exploding they will diffuse suffocating gases. The experiment will cost the Moscov government \$5,000,000 Soviet rubles, or as a local humorist has said, one ruble for each locust.

To Suppress Rat Plague In Vienna

(By Associated Press.)
Vienna, June 14.—Because of a pest of rats and mice, the authorities have prohibited both actors and audience from bringing food into the State Opera House and the State Theatre. Enormous damage is said to have been done by the rodents thus attracted, not only the wardrobes, but the upholstery as well having been irreparably injured.

New Political Party Organized In India

(By Associated Press.)
Delhi, India, June 15.—A new political party, calling itself "The National Party," has been organized in the Indian Legislature to give embodiment to the ideas of the Indian Moderates. Under the leadership of Sir P. S. Sivaswami Iyer, it is seeking to extend its organization into the provinces and districts.

The new party stands for "the attainment by constitutional methods of full responsible government in India as an integral part of the British Empire." It is opposed on the one hand to those self-government by India, and on the other hand to the aims of extremist Indians who are seeking to make India an independent republic and who do not limit themselves to constitutional methods.

The immediate objective of the party in full autonomy in the provinces and the transfer to the Legislature in the central government of the control of all subjects other than defense, political and foreign affairs, and ecclesiastical matters, subject to adequate safeguards for the protection of the vested rights of persons already in the service.

IF YOU HAD A GOOSE that laid golden eggs, you wouldn't kill her; you would, if you could, insure her. A man who earns money is no goose, but there are goose tracks in the path of the uninsured.

National Life Insurance Co., of Va. (Mutual)

H. M. Humphrey, State Manager, Fourth Floor, Borden Building.

PRESIDENT WANTS TARIFF SETTLED

(By Associated Press.)
Washington, June 15.—Plans were under way today for a conference of republican senators to work out a line of procedure relative to the disposition of the pending tariff bill and the soldier bonus bill.

This conference was proposed today by the leaders, after a conference with President Harding at the White House had developed the fact that the President chiefly desired that the tariff bill be kept before the senate until disposed of.

LEADERS WILL NOT OBSTRUCT STRIKE

(By Associated Press.)
Cincinnati, June 15.—Officers of the railway labor unions will not intervene to prevent the strike of 1,225,000 shop craft and maintenance of way workmen, if they should vote to strike, B. M. Jewell declared in an address here today before the annual convention of the American Federation of Labor.

"The railway workers," he said, "are ready for the impending crisis, and its settlement must come sooner or later, so if they decide by their referendum vote, now being taken, to strike their decision will be regarded and cooperated in fully by the union leaders."

Home Coming Event

New Features Added to Our Fourth of July and Home Coming Celebration

The special committee from the Chamber of Commerce, promoting the amusement program for our fourth of July Home Coming Event, has announced today that in addition to the Camp Bragg Military Band, prominent speakers, horse, mule and pony racing and other interesting stunts, it would promote a free for all negro bicycle race.

This race will be held at 6 o'clock in the afternoon and any colored boy or man in Wayne County can participate. It will be a two-mile race and the winner will receive twenty-five dollars in cash.

The Daily Argus Reaches The Public

To the Editor—We wish to express our hearty appreciation for your notice to the public about the little girl for whom we recently asked a home. Will you kindly tell the good people that we have had a good number of applications from your notice and placed this child very shortly after the notice was first printed.

It is certainly gratifying to know that the people of our county respond so readily to an appeal for help. These replies have enabled us not only to place this child well but has opened homes for several other children and we hope still others may be helped in the near future from the appeal of the one child.

SUPT. PUBLIC WELFARE.

THE WEATHER

North Carolina: Fair tonight and Friday—somewhat warmer.

vice of the Crown, and the fulfillment of the country's obligations.

Among other policies favored are the Indianization of the army by training Indians for service in all branches of the defensive force and for entering the commissioned ranks thereof, so that the Indian Army may be officered by Indians; the amelioration of the conditions of labor, and the development of the resources of the country along the most suitable lines.

Leaders of the new party hope to attain their ends by peaceful, orderly and constitutional methods, and without recourse to any methods likely to result in violence. The party is opposed to the policy of producing convulsions in the internal administration of the country for the purpose of securing any of its objects.

First Aero Lighthouse in America

Hugh D. McKay, president of the American Airways Training school, operating the searchlight in the aero lighthouse, the first permanent light guide for flyers to be operated in America, which was put into service at College Point, Long Island, N. Y., at the entrance to Flushing Bay. The light is a steady beam thrown skyward from a high-power searchlight.

MILLIONAIRE INDICTED TODAY

(By Associated Press.)
White Plains, N. Y., June 15.—Walter S. Ward, millionaire baker's son, was today indicted by the Westmoreland county grand jury for first degree murder in connection with the recent killing by him of Clarence Peters, an ex-sailor.

The sheriff and his deputies at once left to arrest Ward at his home in New Rochelle, he having been released by the exonerated of the charge of the liquor and tobacco tax.

SHIP COMMITTEE TAKE ACTION

(By Associated Press.)
Washington, June 15.—The Ship Safety Committee today took action by considering a resolution to be inserted in the bill providing that no American ship carrying liquor is to be allowed to sail out of port.

The chairman of the committee is said to desire that the bill of liquor and tobacco tax be passed.

Midway For The Wayne County Fair

Secretary Denmark, together with a number of other Eastern North Carolina Fair Secretaries, left last night for Cincinnati to visit a carnival company that is playing in that city this week.

Mr. Denmark says that he is determined that our Wayne County Fair, this year, shall have the cleanest and most interesting midway that is available and that he will not permit any suggestive or immoral attractions on the midway.

The carnival that he expects to secure for our 1922 Fair is one of the best in the country, and already has contracted to play a number of the Southern State fairs.

In discussing the midway for this year with the Secretary, the Argus man was informed that positively no show, free attraction or concession would be allowed to exhibit in our Wayne County Fair in the future that any child could not witness and enjoy, not only from an amusement but from an instructive standpoint.

It is now up to the citizens of Wayne County to support the secretary in his efforts to promote our County Fair and to make it the best in the state.

FAREWELL PARTY TO MRS COHEN

One of the most beautiful social occasions of the season was a combined bridge party, shower, and picnic supper given Tuesday afternoon at Herndon Park by Mrs. Sol Well, complimentary to Mrs. Julius Cohen who has made her home here for a number of years, but will move to Greensboro in the near future. Mrs. Cohen will leave tonight for a visit to her parents in Detroit, Mich., before settling in Greensboro.

About forty of Mrs. Cohen's friends had been asked for the occasion. Bridge was played on the veranda of the park pavillion, and at the close of the game, from cloudless sky, Mrs. Cohen was deluged with a shower of party gifts, rained upon her from an exquisite Oriental parasol.

The pavillion was unusually beautiful, overlooking as it does the sparkling fountain at the center of the park. It made an ideal spot for a social gathering on a torrid day.

The final touch in Mrs. Well's hospitality was a picnic supper, served most informally with all the provincial accessories—paper plates, lemonade, deviled eggs, etc.

Goldsboro society looks upon Mrs. Cohen's departure with regret, as she has been most active in connection with social and welfare work during her residence here.

COAL SUPPLY IS RUNNING SHORT

(By Associated Press.)
Springfield, Ill., June 15.—The growing shortage of the coal supply imperatively demands an early conference of both mine owners and miners, said John Lewis, president of the United Mine Workers Union today.

"The nation faces a coal shortage of unprecedented intensity," he said, "which the general public, because of the suitfulness of the summer, are as yet unable to comprehend, but the coming fall and winter will bring them a shivering awakening."

SPECIAL LEGISLATION TO BE INVOKED

(By Associated Press.)
Washington, June 15.—Definite plans by legislation to stop the sale of liquor on board American ships were started today by representative Bankhead, democrat, of Alabama, by the introduction of a resolution in Congress barring from participating in any part or portion of the federal bounty provided for aiding American merchant marine vessels such vessels flying the American flag as sell liquor to passengers.

The Alabama representative offered his proposed amendment at a meeting of the House Merchant Marine Committee today, specially called to take formal action on the measure.

Considerable doubt was expressed as to whether the amendment would be passed by the full committee.

Radio Station In Australia

Melbourne, June 15.—The preliminary work of establishing the mammoth Australian Radio Station for direct communication with Great Britain has been begun.

The substations for overseas traffic will be about three times as powerful as any European station today. It will take two years before the central and feeder stations are completed.

As a normal performance the chief station will be able to speak direct over 12,000 miles for the greater part of any working day.

Receiving and sending stations to correspond will be built in Canada during the same period. The plant for the main station will be imported from England, but the plant for the feeder stations will be manufactured in Australia, one for each of the states.

The combined cost of all these stations will be about \$5,000,000. The main station will consist of a transmitter and receiver terminal 20 miles apart, the latter including 24 towers each 800 feet high spread over a square mile.

The wireless rates will be one-third less than the present cable rates to Europe.

MISS ELIZABETH WATERS HOSTESS

Miss Elizabeth Waters was hostess at a delightful party yesterday afternoon at the home of Mrs. W. P. Wren in honor of Mrs. D. E. Nall and her guests, Mrs. C. S. Burns, Misses Matilda Jones and Sammie Dot Nall.

The party was beautifully decorated for this occasion, ferns and daisies in hanging baskets and vases being used.

Miss Waters was assisted in receiving by Miss Vera Godwin.

Three tables of progressive rummy were played, which was enjoyed by all present. The first prize was won by Mrs. Reynolds Kirkwood, which was a lovely box of correspondence cards.

The booby prize, which was a beautiful hand embroidered handkerchief, was won by Mrs. C. F. Burns. After the games were over punch and cake were served.

Those present were Mesdames I. L. Ginn, L. N. Ballard, Reynolds Kirkwood, D. E. Nall, C. F. Burns, Misses Daisy Jenkins, Margaret Sasser, Sammie Dot Nall, Matilda Jones, Mattie Sanders and Vera Godwin.

Put Forth Your Best Effort For Advance of Kingdom

ARE DEMANDING LEGAL DECISION

(By Associated Press.)
Washington, June 15.—Attorney-General Daugherty will be asked for an immediate ruling upon the legality of the selling of liquor to passengers on board vessels of the U. S. Shipping Board beyond the three-mile limit of ocean travel, it was said here today by prohibition authorities.

Heaviest Earthquake In Many Centuries

(By Associated Press.)
Tokyo, June 15.—The residents of Tokyo and vicinity who experienced the earthquake of April 26, when their houses rocked like ships in a heavy sea and moveable articles fell from tables and sideboards, have hardly been re-assured by the statement of Dr. Fusakichi Omori, famous seismologist and professor of the Imperial University, that future shocks will of their greatest be about double the force of the last quake. The late one was considered bad enough. A wall around the Imperial Palace which had withstood shocks for 800 years fell into the surrounding moat; modern granite walls were damaged and a new reinforced concrete building, one of several under construction by American firms, and which are believed to be earthquake proof was slightly cracked. However, Dr. Omori says these buildings being on more fragile ground than other Tokyo buildings have proved their ability to withstand any shock that might in future visit the city, although the last quake was only one-sixth the intensity of the shock of 1855 when 50,000 houses were destroyed and 6,700 deaths resulted.

Dr. Omori's predictions are based on the known scientific fact that earthquakes are the phenomena accompanying the removal of weak cleavages thus binding the strata and preventing the occurrence of severer shocks.

There are an average of 1,400 earthquakes yearly or about four daily felt in Japan, not including minor ones which are recorded only on the most delicate instruments and in 1,500 years there have been 224 more or less disastrous ones. Most of these originated on the Pacific. During the last 20 years, said Dr. Omori, the origin of the earthquakes felt in Tokyo has been always about 15 or 20 miles distant from the city, there being no case in which Tokyo or its vicinity was the center. "It follows that these quakes had nothing to do with Tokyo as a center," adds the professor, "but it must be feared that, as these quakes decrease in number in the future, Tokyo will be, in its turn the center of vibration. As a rule, however, points several miles distance from the center of vibration feel the quake more severely than the point of origin. For this reason, Tokyo, Yokohama and Chiba largely on reclaimed land vibrate more than the scene of origin."

Ye Olde Time Telegraphers To Meet

(By Associated Press.)
Chicago, June 15.—The 39th Reunion of the Old Time Telegraphers' and Historical Association will be held in Chicago on September 14, 15, and 16. The organization has 1500 members representing every state and all of them telegraph operators of the "old school."

Some of the members have been in the business of manipulating the key for more than half a century and all have experience of at least a quarter of a century. Among the members are numbered men prominent in civic and industrial life.

B. N. Sunday of Chicago, president of the reorganization, is planning many entertainments for the visiting members.

Regular Meeting of Ruffin Lodge K. of P. Friday Night June 16th in Castle Hall, Odd Fellows Building at 9 o'clock. A full attendance urged. Election of officers. By order of C. C. Jones, C. G. Smith, K. R. S. Thore, and Fri.

What Mr. Han had to say last night was directed to the professing christian regarding their love toward God, living up to the standard of religion and carrying out God's desires.

"You cannot flatter God if you can your fellow man," said the speaker last night, "for He knows when your prayers are sincere."

"You claim to be outside world that He is Lord, but you do not show it. You go to some worldly amusement and sit for an hour or two without complaining, but if a minister speaks on Sunday for more than twenty minutes the majority of you fume and sulk the rest of the week about how tiresome it is to hear Dr. so and so preach."

"The reason for so many losers that can be seen on the street corners these days indifferent to their spiritual welfare is due to the fact that you professing christians are not doing your duty. If you were sincere you could have this town on its knees before the dawn of another day."

"God requires the best or none at all. You cannot be half-way christians. Unless you give God the best He considers it an insult."

"Take for an example the last war: we could not do too much for the loved ones who were called to service, and when they were called there was no excuse that would release them from service. Those at home made sacrifices in the way of food that the soldier would not want for anything, and yet you treat God in a different manner. If you had created your country with the indifference that you do God you would not have lived to tell the story."

Mr. Han related a personal incident in which a friend of his, a missionary in his foreign field, who did not have a conviction to take him to his churches and he purchased an automobile for this missionary friend in order that he might the more readily preach the gospel in more sections, and then tried to impress upon the minds of his hearers the opportunity of missionary work here in Goldsboro.

In the giving of money for the advancement of the Kingdom the speaker said: "You people will spend any amount of money for good roads, but will complain when asked to contribute in behalf of the work of salvation."

American Mining Congress Meets

(By Associated Press.)
Cleveland, Ohio, June 15.—The 25th annual convention and exposition—the silver jubilee anniversary—of the American Mining Congress will be held in Cleveland's new Public Hall, October 9 to 14, inclusive.

The convention, C. E. Porter, manager of the Convention, said, will bring approximately 3,500 delegates from all parts of the United States, as well as Canada, Mexico and Alaska. Delegations from all important metal and coal mining districts are planning to attend, he said. Last year at Chicago 39 states were represented among the delegates and 25 official state delegations were appointed by Governors of states to attend.

A large portion of the exposition will be devoted to public exhibits. The government will be represented with exhibits from the U. S. Bureau of Mines, U. S. Geological Survey and the Department of Agriculture. California, Colorado, Utah, Wyoming and Arizona have arranged for displays. Mexico, Cuba, British Columbia and South America will be represented.

The Colorado exhibit will consist largely of radium ore, and will feature radium activities.

Alaska will have an extensive display of its mineral resources.

A display of complete working models of mechanical methods used in preparing anthracite coal and a new process for dry cleaning bituminous coal will be a feature.

Many Newspaper Fail In Austria

Vienna, June 15.—The high cost of print paper and other elements of production have caused the suspension of 470 newspapers and periodicals in Austria since January. Here the suspension of the "Arbeiter Zeitung" has been abandoned.
