END OF R. R. SHOP STRIKE IN SIGHT

(By Associated Press)
Chicago, July 6.—Hope for the speedy settlement of the country-wide strike of the railway shopmen was gleaned from statements issued by Ben. W. Hoover, chairman of the United States Railroad Labor Board, and B. M. Jewell, leader of the shop crafts, who ordered the walk-out.
In a reply to a letter from Mr. Hoover, which was regarded as conciliatory, Mr. Jewell declared that the strikers were willing to "consider any negotiations with any one in authority for settlement of the strike."
"We are willing to confer with anybody authorized by the railroads to bring peace proposals to us," said Mr. Jewell. "I include or exclude nobody, but if the Labor Board, for instance, came to us with a definite proposition, we would not hesitate to consider it."

County Unit Plan In Rural Schools

(By Associated Press)
Boston, July 6.—By the county unit plan the rural schools would be able to compete with the best city schools, Agnes Samuelson, superintendent of Page County Schools, Clarinda, Ohio, said in an address last night before the National Education Association, now holding its 69th annual meeting here.
"The county unit plan means the abolishing of the small district system and the inauguration of business efficiency standards in all that pertains to the rural school, the strengthening of supervision, the unifying of administration, the facilitating of consolidation, and the elevation of the county superintendent to a position of high professional standing," said Mrs. Samuelson.
"Of pivotal importance in this program of reconstruction is the county superintendent of schools, who should become the executive official appointed by the county board of education or qualifications, not for political reasons. His salary, tenure, and the recognition and honor should be commensurate with the duties, possibilities and responsibilities of the office."

Japan Imports Bean Cakes

(By Associated Press)
Osaka, Japan, July 6.—Manchuria, the great bean producing country of the East, has been importing bean cakes from Japan, more than 1,600,000 tons of this commodity, valued at \$100,000,000, having been shipped from Kobe and Osaka since November from to Manchurian ports. This "sending of coals to New Castle" arose through this year's bean crop having been over-estimated. A large crop having been looked for large amounts of prepared cake were shipped out in advance orders. The crop being poor, Manchuria has had to send to Japan for bean cake for her own uses.

Rumor Of Attempt To Kill Russian Delegates

(By Associated Press)
London, July 6.—A rumor today that an attempt had been made to assassinate the Russian delegates at the Hague conference caused considerable concern in many quarters, but both the Russian delegation and the police at the Hague deny the truth of the report.
The supposition is offered that the rumor probably grew out of the turning back by the police constabulary of about 50 Russians on the Russian frontier who were seeking to pass across, and who were reported to be monarchists traveling under false passports.

Great Gospel Procession of The Women Last Night

The Ham-Ramsey Tent Scene Last Night of Untoward Religious Demonstration.

(By Robt. L. Denmark)
"Where did so many women come from?" a man was heard to ask last night as he watched the parade of Christian women marching through the streets to the Ham-Ramsey tent estimated between 800 and a thousand.
It does not make so much difference where they came from, but it was an impressive sight to see the fair sex ages ranging from 4 years to 84, showing to the world that they stand for the advancement of righteousness and are not ashamed to confess it before the world as commanded by Jesus.
Messrs. Ham and Ramsey were pleased with the demonstration of last night, and the expression of the face of each was an indication that these Christian women are living in such a way that their deeds on earth will not be a stumbling block in the path of others.
The men thought they had won all honors in their parade of last week, and then when Mr. Ramsey announced that the women would respond in larger numbers than the men there was a doubt in the minds of many men who thought there was more talk behind the statement Mr. Ramsey made than truth; but today the men are convinced that the ladies are due all honors coming from a religious demonstration and at the same time proud of them for the stand they took showing the men that they do not intend to be outdone in anything that will put Jesus in the eyes of the world.
But the men are entitled to some recognition because they passed the women a pleasant surprise last night. On entering the school grounds the entire membership of the Laymens Federation had formed a double line through which the women passed, the men standing with bare heads and in silent reverence thus assuring the women that they were proud of the parade and ready to assist them in any way of a religious nature.
Speaking in the presence of the newspaper man, someone was heard to say while the ladies were entering the tent: "I imagine it will be the same way in heaven—more women than men."
"What does this demonstration mean?" Mr. Ham was heard to say before the service last night. "It only means that Jesus is recognized as supreme, and I am glad the good women of Goldsboro are not ashamed to come out in the public and confess Him."

CLASH TODAY AT ROCKY MOUNT

(By Associated Press)
Rocky Mount, N. C., July 6.—A clash occurred today between the Emerson shops of the A. T. & T. Co. and D. E. Riley, one of the striking union shopmen and a special police who were guarding the company property.
The clash arose as a result of a dispute as to the value of the company, Riley holding that it was not trespassing. A riot resulted, in which Riley was injured, and afterwards he had to be carried to a hospital.
Riley was arrested and taken to the county jail. The defendants are held in jail for their appearance in court tomorrow morning at 10 o'clock.

Coalition Members of Parliament Alarmed

(By Associated Press)
London, July 6.—Coalition members of Parliament are muttering alarm as to what effect the refusal to allow permissives to sit in the House of Lords may have on the vote of women at the next general election. Should women in any large numbers vote against the government candidates, it is certain that many of them would be defeated, and probably Premier Lloyd George would no longer be able to command a majority in parliament. Therefore they are anxious that the government be not saddled with responsibility for a decision which was made by the Lords themselves and in which the government do not openly involved.

Lady Rhodda herself says that the decision to exclude permissives from the upper chamber was virtually that of the government and of the House of Lords. She points out that the original House of Lords Committee on privileges decided by one to one in favor of the right permissives to vote in the House. Ordinarily such a decision, supported by a majority, would have been adopted by the Lords without question. But the Lord Chancellor, Lord Birkenhead, a member of the cabinet, intervened with an amendment referring the matter back to the Committee for reconsideration. And reconsideration by a committee which in the interval had been strengthened by lords of Lord Birkenhead's own way of thinking, resulted in reversing the seven to one decision. The Committee decided 20 votes to four that permissives should not sit and vote in the House of Lords.
"It seems pretty certain," says Lady Rhodda, "that had it not been for the Lord Chancellor's intervention, the permissives would not be excluded from the House of Lords on the ground of sex."
The Sex Disqualification removal act starts with the opening generalization. "A person shall not be disqualified by sex or marriage from the exercise of any public function," and was loudly acclaimed women's new charter of liberty. Babe Ruth which purports to give equal opportunities for men and women, Lady Rhodda points out, has availed men nothing when challenged. With the civil service have been equal the same

Unique Yacht Race In Florida

(By Associated Press)
Yalaha, Fla., July 6.—A yacht race, unique in that every craft was identical and that most of the skippers never had been aboard them before, was an event today on Lake Harris under the auspices of the Yalaha Yacht Club, which recently received from Sir Thomas Lipton a perpetual cup to be competed for annually.
Lake Harris is in the central part of Florida and it was impossible for visiting skippers to bring their own craft, unless by rail. The Yalaha club thereupon hit upon the idea of leasing an invitation to the yachtsmen of Florida to come here, man the club craft and try their hand at fresh water sailing.
Members of the club own fifteen of twenty-eight identical racing machines, cat-rigged and identical in all measurements, including sail area, and the entire fleet was at the disposal of the visiting skippers, who were assigned vessels by lot. Each boat carries a crew of two men and the visitors who did not bring a sailing mate were permitted to select a "crew" from among the Yalaha yachtsmen.

Austria Ready For Prohibition

(By Associated Press)
Chicago, July 6.—Austria "is at last awake to the necessity of a great action against alcohol," President D. M. Hainisch of that country stated in a letter to Virgil G. Hinshaw, president of the Prohibition Foundation, made public by the latter today. Mr. Hinshaw visited Austria last October in the interest of the prohibition movement.
"The Federal Minister for Social Administration" has allocated the sum of fifty millions for this purpose," the letter continued. "And the National Council will pass a law in accordance with which this money will be employed. A big committee is in course of formation to which most members of the American-Austrian Committee will also belong. Altogether the general feeling at present in Austria is favorable to the idea of alcoholism being fought by means of public measures."
"Large sections of the population realize at last that a nation in our present economic distress cannot afford such a high rate of expensive consumption of alcohol, and that, therefore, all facilities for advancing this consumption must be removed or reduced."
"I hope, by intensifying our propaganda, thanks to the means put by you at our disposal, we shall succeed in utilizing this favorable feeling and shall pave the way for a comprehensive prohibition of alcohol or at least do the first steps toward that goal."
"I am certain that now all agencies at our disposal will start work

Bubonic Plague Breaks Out In South China

(By Associated Press)
Amoy, China, July 6.—The bubonic plague which usually breaks out in South Fokien during June made its appearance this year in April. It has already claimed victims by the thousands, especially in the interior districts where public health receives little or no attention. There the people are ignorant and know no precautions or remedies save superstitious rites and customs.
In Amoy the foreign health officers, schools, local Young Men's Christian Association and Boy Scouts are doing every thing in their power to prevent the spread of this malady.
Instructive lantern lectures are given in public places by the Young Men's Christian Association, and the Boy Scouts make excursions to villages in the district distributing pamphlets on the plague, its cause and prevention.
Rights as men. Women doctors in the employ of municipalities have been deprived of their positions when they married, although the act specifically stated that marriage should no longer be a bar to public service.
The government has made thousands of enemies. Lady Rhodda says, by its failure to support its own act. "The question today is," says Lady Rhodda, "does the Sex Disqualification Removal Act mean what it appears to mean, or was it simply a clever fraud perpetrated on a section of the community by political designers by an unscrupulous government?"
