## PRESIDENT ARTHUR Anxious for the Success of the Coa-

lition Ticket in North Carolina. We find the following open letter n the National Republican:

C. L. Cooke, Esq. : Sin: You have done me the honor to send me your published "card to the voters of the seventh Congres-sional district of North Carolina," in which you announce yourself as an independent candidate for Congress. My only object in addressing you this public note is to correct an error

this public hote is to correct an error in your card. You make an appeal to Stalwart Republicans against the Coalition ticket and say of them:

"I honestly believe that the socalled Liberal movement was con-ceived and organized by that class of men who have induced a few broken-down, disappointed office-seeking Democrats to join them, expressly for the purpose of preventing North Carolina from contributing her in-fluence in furtherance of the nomination of a Stalwart candidate for the Presidency in 1884. They have the Presidency in 1884. the effrontery to say to Republicans when they have nominated a Bourbon Democratic Ku-Klux sympasthizer, 'You must vote for the nominee; the administration is in favor of it, and the President authorized me to say that you would never get an office if you didn't.' My country-

that the President has ever authorized any one to say that he would punish voters by non-appointment to office. He does not use the public offices as rewards for punishments, But when you deny the statemen that the President is in favor of the coalition nominees, and each of them you are mistaken. To guide you to a knowledge of the truth in this matter, and that is what I believe you desire, I will say to you that on Saturday, the 23d instant, President Arthur stated to several persons, of whom I was one, at his residence in the city of Yew York, that he was not only earnestly for the Liberal movement in North Carolina, and anxions for the election of the whole Coalition ticket (which, of course includes Dr. York), but that he did not wish his position on the subject to be doubted or misunderstood. This is not, of course, any reason why any voter in North Carolina should support the Coalition, but it s a good reason why the weight of

President Arthur's name should not be thrown into the scale against it. You would not be a willing party to a fraud, and the information herein conveyed will save you from the mortification of being an unwilling one. If any voter in North Carolina John C. Scarborough, of Johnston,
Superintendent of Public Instruction.

Arthur would vote if he was a citizen of that State, you can safely

Mr. Editor: As it is a matter of public interest to this county (and it may be to the State) I ask the use of your columns to answer a reply of the Person County News to my

letter in The TIMES.

The News says that I have tried o get it to sustain me and it refused.
say that the News wanted to be hired to sustain me and I refused, and that's where the trouble comes in. The editors of the News have the use of my property that I paid \$2,600 cash for. They were to pay me \$15 per month at the end of overy month, (this arrangement was made because they were worthless in a pecuniary sense), but when they thought it was likely I would be an independent candidate they stopped-paying, and fed me on fair promises until they were \$75 in my debt for rent, thinking no doubt that I would let them have the use of my property for nothing, or would make a proposition to them under which they could sustain me and pay nothing. But instead of this wished for proposition I served a notice on them to vacate. And, oh, how mad they were. I would not hire them to sustain me, and that brought on the trouble. I did not think that I, an old citizen, needed the aid of such trash. I do not know how much they get from my opponents, but

there is no doubt in my mind that they will do dirty work for small pay. One of the editors of the News was an editor of the Roxboro Herald that slandered our people by saying that they were so full of spirits that there was no room for the spirit of God. That they were so drunken Gospel to them. So if he will slander a whole people he will slander me, as he has nothing that I can reach in a suit. As for D. W. Whitaker, the other editor, I suppose he is generally, if not favorably,

Branch, of New Hanover, being present, was called on and made a sterling speech. Then the committee came forward and reported that they had found all the voting precincts and townships duly repre sented.

On motion of A. R. Middleton that there be a committee appointed on permanent organization, the fol-lowing gentlemen were appointed: D. A. Williams, Rufus Branch, J. M. Powers, G. Farrior, Cato Grady; which committee, after a short session, made the following report for permanent organization: Chairman, A. R. Middleton; Secretary, A. McCullough, which report was upon

Cullough; which report was unani mously adopted.

Mr. A. R. Middleton was then inoduced by Mr. A. J. Stanford. Mr. Middleton came forward and in a short speech returned thanks to the convention for the honor it had conferred upon him, and then said that on yesterday the Liberals of this county had nominated a county ticket that he hoped this convention would endorse and stand by till sunset on the 7th day of November. He then told how the Democrats cheated and defrauded Canaday and the State ticket in 1880, by pretending to the ignorant colored people who they wanted to vote for. That was the way they got Shackelford and Jarvis through, &c.

On motion of A. McCullough, the Liberal ticket was endorsed. The following is the ticket: For House of Representatives, Jas. D. Cavanaugh, Clerk Superior Court, Peter Cor-

negay.
Treasurer, John W. Grissom.
Surveyor, Flayvis Maxvill.
No nominations for Register of
Deeds, Coroner and the Senate.
On motion, A. R. Middleton, Ir-

vin Beaman and A. J. Stanford, were appointed a committee to meet the Liberal committee, on the 7th of October, to fill the remainder of the

ticket. The Hon. W. P. Canaday, candi date for Congress for the 3d District, was called for and gave us a two hours' speech. Then Col. George T. Wassom was called on and made a

The streets of Lisbon have not the busy aspect one usually finds in the thoroughteres of a capital. But it the throng is not great, those who frequent them make up for want of members by noise. Venders of fish and fruit and other catables exercise their powerful lungs, buys solling lottery tickets bawl their loudest, while newspaper boys and knife-grinders add to the uproar. The Galician water-carrier still survives in spite of modern water works, and his pro-longed "A-an!" is heard on all sides.

The people of Lisbon live much upon the street, and it is here they are to be studied to the best advantage. The houses of the poor open to it, and one can have a full view of nome life from the narrow sidewalk. In the more elegant quarters wisteria droops in purple festoons over the balustrades which edge the roofs, while spots of rosy pink or vivid scarlet tell of blossoming oleanders or cacti, for many of the houses are rowned with hanging gardens.

On one of the seven hills on which Lisbon stands, it was once proposed to build a central market, but the cooks and housekeepers refused to go up hill each time provisions were needed, so they continued to patron-ize the old markets, six or seven in number, where wine, oil, fish, meat and other provisions are sold, wholesale and retail. The traveler, entering one of their

But while their markets sapply the housekeepers of Lisbon with the bulk of their supplies, there are other articles of domestic consumption which, like our milk supplies, are carried round from house to house by pedlers. In all southern climes oil is a necessary of life, and equally indispensible for making a salad is its opposite, vinegar. "A spendthrift for oil, a miser for the vinegar, a wise man for the salt, and a madman to mix thom all together," is an old Portuguese recipe for salad making.
