THE STATE GUARD.

As has been noted in THE NEWS, the negroes about Goldsboro have been leaving in swarms of hundreds for the west. The spirits who have been leading the movement came near stirring up trouble last Saturday. The Argus says: "The names of the writers and publishers of the infamous negro circular that appeals to and seeks to stir up sedition among State lands known as Camp Man-the colored masses by calling an ex-gum, west of Raleigh); allowing the colored masses by calling an exclusive negro mass meeting in this city tomorrow, for colored people only, men and women, 'where no white people will be allowed,' are known in this community. They are 'educated negroes,' that better was expected of. Their names are 'on the list,' and they will be held responsible in case of emergency. Even as it is, their circular will be before the next grand jury.

It is urged that 'the Lord and not the Bichmond & Danville Railroad is taking the negroes to Arkansas' -the ignorant negroes and not those "edu ated" ones that write infamous, incendiary circulars and don't go themselves, but remain here and expect to be tolerated by the white people whom they are seeking to arraign and prejudice their race against. But after all, may it not be that the Lord is on the side of the white people in this exoslus? Bless ings in disguise tempently come to a people."

There was a great gathering in Goldsboro on Saturday, but a wholesome fear of the State Guard alone held the negroes in subjection. The State Guard! What would we do without it anyway. It was never more necessary than now, and it will be more necessary in the future than it has been in the past. Let the Legislature provide for it liberally.

President Harrison has rented a cottage at Deer Park, Md., for his home. President Grant spent the summer in the same cottage fifteen years ago, and President Cleveland spent his honeymoon in a cottage not far distant from it. Although Mr. Harrison will have been President nearly four months by the time he reaches the Alleghany resort, and although he may have worked very industriously during that time, there will probably be 5,000 Democrata in office, and there will be five times as many republicans anxious to succeed Some of these will hie them selves to Deer Park, hoping that there they will not find red tape stretched across their approach to the President, which besets them in Washington. Deer Park, for two or three days of each week, will be the political, if not the legislative, capital.

Cardinal Gibbons returned to Baltimore on Wednesday afternoon from Richmond, where he presided at the choice of three clergymen from whom the Pope will appoint a Bishop of Richmond. The Rev P. L. Chappelle, D. D. pastor of St. Matthew's Church, Washington, D. C., formerly pastor of St. Joseph's Church, Baltimore, who ranks high in his Church as a theologian, scholar and speaker, and the Rev. A. Von De Vyon, Vicar General of the Diocese of Richmond, it is generally understood are two of the three whose names have been sent to Rome for Bishop, and probably Dr. McCongell, president of the American College at Rome, in the third.

Major David E. Porter, of Balti-Se, son of Admiral Porter, U. S. are that he will soon proceed to Hayti assume command of President Legs, one's army. He has been in consultation with Minister Preston in reterence to the achieve for sometime; but they have had several disagreements and have not yet arrived at any definite conclusion. Major Porter expects a salary of \$300 per month in gold and in event of his \$15,000 is to be paid to his

Tramps would do well to give Macon, Ga., a wide berth in journeying Southward. Whenever one of these traveling gentry is brought before the Mayor of Macon and fails to give satisfactory evidence that he has means of support he is fined \$25 and costs or sent to work on the streets for sixty days. That generally settles them.

SPRINGDALE DAIRY.

My herd consists chiefly of the grades Jersey, Devon, Ayreshire, Guinea and the best native cattle that I could get. Being thoroughly adapted to the climate and food characteristic of this section, these grades are not only the heartiest and healthiest, but the best cattle that we can get for dairy purposes. Of all the animal kingdom cown are perhaps the most sensitive to a change of food and clima e. No cattle brought from a distance are a b healthy and hearty as our native cat-tle. It to be free all the core. The food should not only be cooled, but exposed to the air for at least 12 hours, then it becomes sweet and ripe for the table. Orders for milk left at W. B.
