A war of doctors is going on in Massachusetts between the regular licensed physicians on one side and healers of all other schools on the other. The attack is directed especially against the Christian Scientists, or faith-cure people. The quacks have employed lawyers and propose, if a law is passed against them, to test in the United States Supreme Court the right of the State to prevent them from curing people.

Virginia will elect a governor next November and Col. Charles T. O'Ferrall, of Harrisonburg, now a representative in Congress, and Col. William Lamb, of Norfolk, are being groomed for the race. Both of these gentlemen were gallant Confederates but O'Ferrall stood to his principles and Lamb apostacized. The result in the State at the election last fall was very close—only 1,541 Democratic majority—and the fight next fall will be a warm one.

In a late dinner speech, says the Newbern Journal, Gen. Slocum told that once during "the march to the sea" he had invited Gen. Sherman to dine with him, and was reproved by the former for stealing, because he discovered on the table spoons marked "Milledgeville Hotel." A few days after he went to dine with Gen. Sherman, and found spoons on his table marked in the same way. Now that these spoons are known to have been in possession of Generals Sherman and Slocum we trust that the Milledgeville Hotel will make a demand for the property. Both Generals insisted that the spoons had been stolen.

Rear Admiral Bancroft Gherardi has been ordered to relieve Rear Admiral S. B. Luce from the command of the North Atlantic squadron. He is of Italian descent, but was appointed from Massachusetts June 29, 1846. He served in squadron and on shore duty the same as other officers until the beginning of the civil war, at which time he was a lieutenant commander, and then was in command of vessels on squadron duty. The event of his naval career was at the taking of Mobile Bay. He commanded the gunboat Port Royal, and reported for duty at daylight on August 5, 1864. His vessel was lashed on the port side of the Richmond, and he so arranged the guns of his vessel as to do most effective work upon the enemy. He was made commander July 25, 1866; captain on November 9, 1874; commodore November, 1884; and rear admiral August 25, 1887.

Senoussi, who is reported to have taken El Obeid, is a famous Sheik of Kordofan who has never believed that the Mahdi was the prophet he pretended to be and who, a while ago, sent a letter to Khalifa Abdullah, the Mahdi's successor, calling him an impostor and ordering him to leave the Sudan. It is a serious blow to the Mahdist cause if El Obeid, the only important centro of Mahdism in Kordofan, has been captured by the enemies of the Khartoum pretender. For four years the Mahdi and his successor have waged incessant war against the Sheiks of Kordofan and Darfur, who declined to submit to the Mahdist rule, and the result on the whole has been very disastrous to the arms of Khalifa Abdullah. As King John, of Abyssinia, is making him a good deal of trouble in the East, the dominion of the Khalifa is practically now confined to the regions of the Middle Nile.

England is to have some theological excitement this week, reflections of which will extend all over the English speaking globe. Dr. King, the Bishop of Lincoln, is to appear at the ancient ecclesiastical palace of Lambeth, whose brown turrets face the Thames over against the houses of Parliament, on Tuesday to be tried by the Primates for ritualistic practices. It is understood that the Bishop will come in to cope and

mitre, attended by the whole body of his canons, and will take the a priori objection that he has the right to be tried by a synod of Bishops. If this plea is sustained there will be an adjournment until an Episcopal convocation can be summoned. The charges against Dr. King are six in number—the use of candles on the communion table, the mixing of water with the communion wine, having the "Agnus Dei" sung after the prayer of consecration, holding his hands in the shape of the cross while pronouncing the benediction, facing toward the east while breaking bread, and performing the rite of ablution, which means himself drinking out of the chalice. The action of the Church Association in insisting on the trial has created very bitter feeling among the more liberal clergy, and even the Tory paper denounce it as a regrettable relic of mediæval bigotry. No such trial of a Bishop has occurred before since the Reformation.

### The New Discovery.

You have heard your friends and neighbors talking about it. You may yourself be one of the many who know from personal experience just how good a thing it is. If you have ever tried it you are one of its staunch friends, because the wonderful thing about it is, that when once given a trial, Dr. King's New Discovery ever after holds a place in the house. If you have never used it and should be afflicted with a cough, cold or any throat, lung or chest trouble, secure a bottle at once and give it a fair trial. It is guaranteed every time, or money refunded. Trial bottles free at Burwell & Dunn's drug store.

A MONSTER SEA SERPENT SEEN IN THE CATAWBA RIVER, NEAR MOUNT HOLLY.—As the evening passenger train on the Carolina Central, which leaves Charlotte at 3:15, was nearing Mt. Holly, yesterday there was great excitement among the crowded passengers as they saw a monster sea serpent in the river which looked as large around as a small hoghead, and probably thirty or forty feet long. His great serpent-like eyes were blazing like fire as he lashed the water to foam. On his head could be seen something like a beard, with letters of some description, but the passengers could not make them out until they called on the obliging conductor Capt. Harry Johnson, to stop the train when it was seen that the serpent had got a plank locked on his head in some way, and the reading was: "Buy your Buggies, Carriages, Spring Wagons, Carts, Milk and Grocer's Wagons, from A. C. Hutchinson & Co., Charlotte, N. C., next to Walden's Sables." Call and examine our immense stock.

### SPRINGDALE DAIRY.

My herd consists chiefly of the grades Jersey, Devon, Ayrshire, Guinea and the best native cattle that I could get. Being thoroughly adapted to the climate and food characteristic of this section, these grades are not only the heartiest and healthiest, but the best cattle that we can get for dairy purposes. Of all the animal kingdom cows are perhaps the most sensitive to a change of food and climate. No cattle brought from a distance are as healthy and hearty as our native cattle. Milk to be free from all the cowey taste and flavor of the food should not only be cooled, but exposed to the air for at least 12 hours, then it becomes sweet and ripe for the table. Orders for milk left at W. B. Taylor's will be promptly filled. McD. WATKINS.

SEABOARD AIR LINE.—On and after January 8th the sleeping cars will not run through between Charlotte and Raleigh. It will be necessary for through passengers by the night trains to change cars at Hamlet. The sleeping cars between Charlotte and Wilmington will continue to run as heretofore. F. W. CLARK, Gen'l Pass. Agent. jan4

### Racket Store!

### GREAT SALE OF MENS' HATS.

A recent large purchase of Mens' Hats from a failing manufacturer, brought us over 200 dozen of the finest and best line of Brown, Drab and Pearl Derby Hats ever offered here. The manufacturer made them for his fine retail houses in New York. All the latest styles and shapes. All marked with the retail price on each hat. These had not left the factory when the sheriff took charge of them and by the drop of the hammer turned them over to us for spot cash. Candidly it does require good business resolution to sell \$3.50 Hats for \$1.50. Our salesmen urged us to offer them at \$2.50, arguing that we could not replace them at that and we know this to be true, yet by the law of the Racket we can afford to sell these hats at \$1.50 and we shall do it. It will pay you to inspect this great bargain in Hats, which we open on Saturday. \$1.50 for choice. Nobby, stylish, new, splendid stock. You cannot duplicate them under \$3.50 to \$4.00.

Our special sales of glass and queensware will begin Feb. 10th to 15th, and of Harness March 1st.

100 dozen Adamantine Pins 1c. a paper. 50 first-class Leather Buggy Washers for 30c 50 different style Buggy Whips from 10c. up. All the latest styles in Spring Neckwear now in. The greatest job in Fine Suspenders yet offered, all imported webs and the finest goods.

Great job in Tin Toilet Sets at 35c per piece. The finest Tubs you ever had the chance to buy. These were made for \$3.00 sets, and by closing them by the piece we sell them at 45 cents. Tinware is so very cheap we cannot afford to take the time to talk it up.

Mrs. Davis and our corps of Trimmers are now North schooling up and selecting stock for the season. We predict in advance that no Charlotte lady will need go North for lack of Fine Millinery at home. This department of our business will be better than ever and second to none.
