Managing a Russian.

Vance Thompson, the successful magazine writer and novelist, on his recent return from Russia, where he went to gather material for an article upon the douma for Everybody's Magazine, was asked how he managed to get along without hickory, thence S 3 p. to a black gum knowing the language. Mr. Thompknowing the language. Mr. Thompson said one had not the slightest difficulty in making his wishes un-derstood in Russia. "For instance, when I wanted to go to a certain place I would jump into a drosky. If I wanted to go to the right, I would kick the driver on the right leg. If my direction laid to the leg. If my inclination led me straight ahead, the kick was placed in his back. When I wanted him to stop I simply pulled his hair. It is really a most satisfactory system -at least the Russians find it so. I am thinking of innovating it here myself in Paris." — M. A. P. in is called to be held at Lenoir, N. C., on Saturday, June 8th, 1907, at 12 America.

A little pipeclay dissolved in the water used in washing linen saves a great deal of labor and soap and cleanses the dirtiest linen thoroughly. This method is specially useful in places where out of door bleaching is an impossibility.

Alcohol Stains on Furniture.

White stains on polished wood furniture caused by alcohol may be removed by rubbing the spot with camphorated oil. A hot iron held a few inches above the wood will re- | \$ store the color. The oil is safer.
