GEORGE W. LEX,  
Secretary.

Thomas A. Edison, the great American inventor, says "Fully eighty per cent. of the illness of mankind comes from eating improper food or too much food, people are inclined to over-indulge themselves." This is where indigestion finds its beginning in nearly every case. The stomach can do just so much work and no more, and when you overload it or when you eat the wrong kind of food the digestive organs cannot do the work demanded of them. It is at such times that the stomach needs help; it demands help, and warns you by headaches, belching, sour stomach, nausea and indigestion. You should attend to this at once by taking something that will actually do the work for the stomach. Kodol will do this. It is a combination of natural digestants and vegetable acids and contains the same juices found in a healthy stomach. It is pleasant to take. It digests what you eat. Sold by J. E. Shell, Dr. Kent and Granite Falls Drug Company.

A woman will forgive a man almost anything except failing to note audibly that she is pretty.

Bitten by a Spider.

Through blood poisoning caused by a spider bite, John Washington of Bosqueville, Tex., would have lost his leg, which became a mass of running sores, had he not been persuaded to try Bucklen's Arnica Salve. He writes: "The first application relieved, and four boxes healed all the sores." Heals every sore. 25c. at J. E. Shell's Drug Store.

If the world will approve of what a man is doing he manages to let himself get caught doing it.
