## A MAN'S HANDS.

Some Callings That Leave Their Trade-marks impressed Thereon.

If your eyesight is keen enough it is possible to tell by looking at a person's hands what sort of employment that individual follows, according to scientific men.

It is a commonly accepted fact that the face reveals character, but very few persons have ever paid any attention to the hands as disclosers of a man's habits. Yet it seems we can get just as much information out of the latter as the former if we know how to go about it.

The continual repetition of the same kind of manual work, says Dr. Alfred Gradenzitz in the Scientific American, results in a permanent alteration of the skin and muscles as well as a transformation of the bones (atrophy or thickening of the parts), displacement of the joints, etc., for in repeating a given manipulation over and over again the palm and the balls of the thumb and little finger are called upon continually to perform the same action, leading to a permanent strain on and wear and tear of certain parts of the hand.

The greatest alterations are shown in the hands of laborers who do heavy manual work. They have coarse and clumsy hands, with short, thick and callous fingers, the balls of the thumb and little finger being especially developed and the skin being horny and covered with fissures.

Take the left hand of a smith. By continually manipulating the tongs with this hand the balls of the fingers and thumbs are very markedly developed, and the finger tips are broadened.

The hand of the average shoemaker has a strikingly broad and flat thumb, while the tips of the fingers are likewise broad and flattened.

In the hand of the typesetter who works at the case it is to be noticed that the thumb and forefinger of the right hand are tapering in the upper parts, while the left hand thumb, which presses upon the type in the stick, is flattened.

The tailor can easily be picked out by the condition of the forefinger on his right hand, while the pianist will be found to have tapering fingers and thumbs, which are flattened upon the parts which touch the keys.

### Getting Even.

On one occasion visitors to a merry-go-round on a vacant lot in the outskirts of Philadelphia were very much touched by the melancholy demeanor of a long, lean, lank individual who despite the fact that he was apparently suffering greatly persisted in riding repeatedly. At last some one said to him sympathetically:

"You appear to be in great distress."

"Yes," replied the man on the merry-go-round. "This continual riding around and around makes me seasick."

"Well, then, why don't you quit riding?" asked the inquisitive questioner.

"I can't help it," replied the poor man. "The man who runs this merry-go-round owes me money, and the only way I can collect it is by taking it out in rides."

A tickling cough, from any cause, is quickly stopped by Dr. Shoop's Cough Cure. And it is so thoroughly harmless and safe, that Dr. Shoop tells mothers everywhere to give it without hesitation even to very young babes. The wholesome green leaves and tender stems of a lung-healing mountainous shrub, furnish the curative properties to Dr. Shoop's Cough Cure. It calms the cough, and heals the sore and sensitive bronchial membranes. No opium, no chloroform, nothing harsh used to injure or suppress. Simply arosinuous plant extract, that helps to heal aching lungs. The Spaniards call this shrub which the Doctor uses, "The Sacred Herb." Demand Dr. Shoop's. Take no other. J. E. Shell's Druggist.

One of the most enjoying things about being a rich man is how people imagine he ought to spend a little of it on somebody besides himself.—New York Press.

## Constipation

Baked sweet apples, with some people, bring prompt relief for Constipation. With others, coarse all-wheat bread will have the same effect. Nature undoubtedly has a vegetable remedy to relieve every ailment known to man, if physicians can but find Nature's way to health. And this is strikingly true with regard to Constipation.

The bark of a certain tree in California—Cascara Sagrada—offers a most excellent aid to this end. But, combined with Egyptian Senna, Slippery Elm Bark, Solid Extract of Prunes, etc., this same Cascara bark is given its greatest possible power to correct constipation. A toothsome Candy Tablet, called Lax-ets, is now made at Dr. Shoop Laboratories, from this innocuous and most effective prescription. Its effect on Constipation, Biliousness, Sour Stomach, Bad Breath, Sallow Complexion, etc., is indeed prompt and satisfying.

No griping, no unpleasant after effects are experienced, and Lax-ets are put up in beautiful lithographed metal boxes at 5 cents and 25 cents per box.

For something new, nice, economical and effective, try a box of

It is very important and in fact it is absolutely necessary to health that we give relief to the stomach promptly at the first signs of trouble—which are belching of gas, nausea, sour stomach, headache, irritability and nervousness. These are warnings that the stomach has been mistreated; it is doing too much work and it is demanding help from you. Take something once in a while, especially after meals; something like KODOL for Dyspepsia and Indigestion. It will enable your stomach to do its work properly. Sold by J. E. Dr. Kent and Granite Falls Drug Co.

## Professional Card.

Dr. C. J. MATTOCKS, offers his Professional services to the citizens of Lenoir, office for the present at his new residence, phone No. 50

If a cold once gets into your system it act's on every muscle and fibre of the body and makes you ache all over. It especially affects the intestines and makes you constipated, so in order to get rid of a cold thoroughly and without delay you should not take anything that will tend to constipate. Kennedy's Laxative Cough Syrup acts upon the bowels and thereby drives the cold out of the system. It contains no opiates—it is pleasant to take and is highly recommended for children. Sold by J. E. Shell, Dr. Kent and Granite Falls Drug Co.
