## Ichabod - A Parable with an Application.

And it came to pass on a time that a woman lay in a ward of an hospital, whose feet had passed nigh unto the waters of the river of Death. They had turned back to tread again the ways of this world, but her soul was sick within her, longing for the breath of the everlasting hills, and one said unto her, "Arise, go unto the town called Lenoir, which lieth fair among the hills, for there be many who have found healing of mind and body therein. So the woman came unto that town, and dwelt in a broad house, kept by a good man and his fair wife. And it was so that when the woman grew strong again, and took up her cross and went out to fight the world, the flesh and the devil. Now, while she sojourned here, her greatest comfort was in the shade of the beautiful, over-shadowing trees that spread great arms over the house, for their shade kept off the noonday heat, and the weary way farer looked upon them and blessed the one who planted them in their place. All the town loved to sit beneath their branches, and they had comforted much people for many, many years. Also, as the woman grew to know and love the townspeople, she found a very fair garden, and lovely green lawns with other spreading trees, where dwelt godly folk who gave her good cheer and wished well unto her. When the time of her departure came, she went with sorrow, and oft went to and fro, ever loving the man and his fair wife, and divers others, and loving to feel the wind in the great trees and to come there, behold their neighbor's see the fair gardens and the green lawns. But, in the fullness of time, it came to pass that the people of the city bethought them that they needed many things to make their town more fair, so they issued things called bonds, and gathered much money together wherewith to make broad road ways and smooth paths and bright lights and divers other goodly things. Now this money was given into the hands of certain men who were doubtless, righteous men, but not entirely perfect in understanding of all things (as what men be!) Now these men, consulting together said, the one to the other, "arise, let us hasten and get unto us a man called an engineer, who hath knowledge of these roadways, paths and other things. "And not being, as hath been said, of a per fect understanding, when many men came together to answer this call and earn their hire, they even chose that the one who called and cried "Behold me, here am 1. I am He that Knows it All. My voice is loud, yea, very loud when it cometh to speaking mine own praises. I am boss from the rising of the sun even unto the going down of the same. I am It, and beside me there is no other whatsoever, from the place they turned ed a series of meeetings at Fairview the dogs loose. Selah. "And so these men hearkened unto this man's tale of himself, and pledged him to their service. And then arose lamentations, wailing and great bitterness. For this man forthwith set himself unto the destruction of the fair town of Lenoir, and he ordered that the wondrous great trees before the broad house where dwelt the good man fine school for us this year. and his fair wife who had befriended the sick woman and many others, even that these trees be cut down and east into the pit. And when the man said unto them "Why should ye deal thus wickedly with me, to take away that which Will come again if the traveler

scoffed at him, and hewed down the great trees, and east them into the pit. So the noonday heats poured in upon the broad house, so that scarcely could one dwell there. And the heart of the man's fair wife was greviously cast down within her, to that she sick. ened, and her babe grew sick also, and she and her mother arose and gat them further into the hill country about Waynesville. This they did only for very sorrow of soul. Also these men of ill understanding and caring, like Gallio, for none of these things, did hie them unto the green lawns and fair gardens of those other godly men, and did lay them waste, and digged down a great pit alongside of them, so that it was of twenty feet in depth, or more, and, when the rains came and the floods decended, and the wind blew and beat upon that naked wall, it was even shaken, and fell into the middle of the street, and carried much beautiful lawn and garden therewith. And these men too were filled with righteous wrath, and said "Wherein shall we seek for suc cor! Yea, there is no help with man for us save in those men who do bring forth the things called newspapers. Let us even arise and seek unto them." And while they yet talked on this thing, came one running, and said, "Help, if ye be men, for our neighbors house hath been undermined ( by those men of Belial who work the will of this man who knoweth not God nor regardeth man, yea, (1) they have so treated it that it is fallen and his fair young daughter ( is greviously burt.
