PINCHOT ISSUES A FORMAL STATEMENT

Declares That the Conservation of Natural Resources and the Conservation of Popular Government Are Both at Stake.

Charlotte Observer.

Washington, Jan. 18.—The conservation of natural resources and the conservation of popular government are both at stake. The one needs conservation no less than the other."

"At this time I have no comment to make on recent events. Whether in or out of the government service, I propose to stay in the fight for conservation and equal opportunity. Every movement and measure, from whatever source, that tends to advance conservation and promote government by men for human welfare I shall try to help. Every movement and measure, from whatever source, that hinders conservation and promotes government by money for profit I shall endeavor to oppose. The supreme test of movements and measures is the welfare of the plain people. I am as ready to support the administration as it moves toward this paramount end as I am to oppose it when it moves away."

Mr. Pinchot then traced the recommendations of the conference on conservation at the White House in May, 1908, the subsequent creation of the national conservation commission which he says together with President Roosevelt's message to Congress on the subject set forth a comprehensive, definite scheme for the conservation of our natural resources—which he applauds and endorses.

Then he proceeded:

"At this critical period, when the goal was in sight, enemies of conservation in Congress not only succeeded in preventing an appropriation with which to pursue the work but attempted to forbid its progress by the Tawney amendment to the last sundry civil bill. Thereupon the work of the national conservation commission was stopped.

"Unless Congress acts the water-powers will pass into the hands of special interests without charge and without limit of time. So with the phosphate deposits on public lands, when the withdrawals which now protect them are removed. So with the enormously valuable coal deposits in Alaska, which the present law would sell for ten dollars per acre.

"The danger of bad legislation is no less serious. The special interests must no longer be allowed to take what they choose out of the great property of all the people. Those who steal homes from men and women who need them. Congress can stop the pillage, or Congress can let it go on.

Mr. Pinchot then calls upon every "man of good will" to make it clear to his representatives in Congress his firm intention to hold them personally responsible for safeguarding the "rights and property of the people." In such action, says Mr. Pinchot, lies the remedy.

"It is a tremendous moral issue, far greater than any man's personal feelings or personal fortunes. It lies between the people and their representatives on one side and the interests and their representatives on the other; between progress and reaction; between special privilege and a square deal. I repeat that the supreme test is the welfare of the plain people. It is time to apply it."

The man who is always putting his foot down is pretty sure in time to encounter a rock.

GET AN ACRE!

Caldwell county wants every boy who can get an acre of land to enter the Corn Club Contest for the year 1910. Fathers and guardians should encourage the boys in this great enterprise. Raising corn on the intensive plan will bring health, wealth and happiness to our boys, to our state and to our nation. Fall in, boys, every one who can get an acre of land. Begin now to study the conditions of the contest. For full information write to or call upon the undersigned, or write direct to T. P. Parker, Demonstrator, Raleigh, N. C.

This contest is offered to southern boys by the general government, and 16,000 of them entered the contest in 1909. Enormous yields were reported and many prizes won. The average for these boys was 60 bushels; the average yield for the south was 25 bushels. The result for the south was an extra 35-bushels to the acre for 16,000 acres, or 560,000 bushels of corn. Four of the southern prize-winners—from South Carolina, Mississippi, Arkansas and Virginia—were sent by their friends to Washington City, where they were received by president Taft and awarded Certificates of Honor and their prize money by the Secretary of Agriculture.

Our state had 142 contestants, whose average yield was 59 1-9 bushels per acre; the average yield for the state was 15 bushels. The result to the state was an extra 44 1-9 bushels to the acre for 142 acres, or 6,264 bushels—all this wealth besides the fun and prizes. Come on boys, every one between 12 and 18 years who can get an acre of land. It need not be your own land; you can rent an acre.

I was glad to see that master Cary Coffey was a Caldwell county Prize Winner last year.

Caldwell should lead in Educational Progress—better schools, better roads, better farming.

Y. D. MOORE.

Governor's Conference.

The Raleigh News and Observer of last Saturday says:

"Governor Kitchin will go to Washington Monday to attend the Conference of Governors that will meet with the President. The sessions will be held in the Willard Hotel. On Wednesday evening the Governors will dine with President Taft at the White House, and there will be other pleasant social features. The Governor of Kentucky will put before the body a consideration of the income tax.

This will be the first absence of Governor Kitchin from the State during his administration, and will be the first opportunity that Lieutenant Governor Newland shall have had to act as Governor. He was notified yesterday that Governor Kitchin will be absent from the State till Friday of next week. Lieutenant Governor Newland is attending Bakersville Court this week.

A child of Mr. James Peoples, of Yadkin county, dropped "Jimson" (Jamestown) weed seed into the coffee, under the impression that the seed were coffee grains. Five members of the family who drank of the coffee were poisoned but recovered.

Making Live Safer.

Everywhere life is being made more safe through the work of Dr. King's New Life Pills in Constipation, Biliousness, Dyspepsia, Indigestion, Liver troubles, Kidney Diseases and Bowel Disorders. They're easy, but safe, and perfectly build up the health. 25c at J. E. Shell's.

PROGRAMME OF UNION MEETING.

To Be Held With Union Church January, 29, 30.

SATURDAY.

10 a.m. Devotional Exercise—W. N. Cooke.
10:30 a.m.—Organization.
10:45 a.m.—Duty of Deacons—J. W. Thomas.
11:15 a.m.—How to develop the Mission Spirit in our churches—Chas. A. G. Thomas, E. D. Crisp.

RECESS

1 p.m.—Why should our people read the Biblical Recorder? E. D. Crisp, J. L. Beach.
1:30 p.m.—Scriptural Authority for adequate Pastoral Support—J. J. L. Sherwood, Y. D. Moore.
2 p.m.—Should our churches group themselves into Pastorate—W. N. Cook, J. M. Shaver.
2:30 p.m.—The value of a live Sunday School—J. L. Harris, Joe Powell.
3 p.m.—Miscellaneous business and adjournment.

SUNDAY

10 a.m.—Devotional—J. R. J. Annas.
10:30 a.m.—Our Orphanage—J. J. L. Sherwood, J. B. Reid.
11:15 a.m.—Sermon—C. A. G. Thomas, alternate J. W. Thomas.
J. G. BENFIELD,
For committee.

Columbus Triplett, Dead.

Special to The Observer.

Boone, Jan. 15.—Columbus Triplett, in jail here for killing his brother, Marshall Triplett, Christmas Day, died in his cell last night at 8:45 o'clock. The cause of his death, as reported by Dr. Hodges and others, was from a severe kick received in the side by one, Grant Triplett, deputy sheriff.

There will be a post mortem examination held today and if it is found that he died from injuries inflicted by the deputy sheriff the officer will be arrested at once.

The body will be buried by the county.

Postponed Again.

Charlotte Chronicle.

That unfortunate negro, Walter Morrison, who has been waiting in the penitentiary since last August for the State to kill him will have to wait some more. This was the day set for the third time for his electrocution, but now that interesting performance has been again postponed and will take place March 18th—if the electric chair is ready by that time. The management of the penitentiary authorities in the matter of providing this chair is a scandal upon the State. Governor Kitchin appears to be calm in the face of great provocation.

Optical Society Meets.

The North Carolina Optical Society, in annual session here, elected Frank M. Jolly of Raleigh, president, Samuel Rappert of Durham and A. W. Dula of Lenoir, vice presidents, W. S. Granger of Goldsboro secretary, W. B. Sorrell of Chapel Hill treasurer. Its next meeting will be held at Asheville June 18, 1911.

More than a million pine and spruce trees were planted last spring by private land owners in forty-eight counties of New York State as the result of the plan of the State forest commissioner to furnish trees for planting at cost. The commissioner it quoted as saying that not one half of the applications for young trees could be filled.

HOME FOR OLD AND INDIGENT MASONS.

The Masons of North Carolina determined some time ago to establish, somewhere in this state a home for aged and infirm Masons; very little has been said about it, nevertheless, the committee appointed to secure a suitable place have gone ahead and as we understand have located the home at Mooresville. This home for the old and indigent Masons is no small thing and we congratulate Mooresville in being able to secure its location.

The home will be for the care of aged and indigent Masons and will be maintained from the revenues from the Masonic Temple recently erected in Raleigh. The Masons were the first to establish an orphanage in the state, leading all lodges and all churches as well in this matter, and again they are leading in establishing a home for the aged and indigent.

Snowstorm in New York.

New York, Jan. 15.—Nine lives were lost and six persons injured in one of the worst storms that ever visited New York City. The total snowfall at 10 o'clock this morning was 14 1-2 inches, second only to the blizzards of 1899, when 15 1-2 inches fell, and of 1888, in which Senator Roscoe Conklyn lost his life, when 20.9 inches fell.

Eighteen thousand men have been put to work clearing the streets, and it is estimated that the cost of removal will exceed \$800,000.

Mayor Gaynor appeared at the city hall today, quite as if he had not fought for his life in the storm last night.

"I was somewhat surprised," said the mayor, "to learn by the morning papers that my life had been thought in danger. The worst effect of the incident on myself is a certain soreness of the chest which I feel today, and which I believe is due to breasting the bitterly cold wind."

Two preachers in Rock Hill, S. C., imported to that place several weeks ago two detectives. These detectives got work there in a cotton mill, and Saturday morning they played their hands. They rounded up a bunch of a dozen or so blind tigers, white and black, and the fines ranged from \$25 to \$100. The chances are, however, that the jungle is only temporarily cleaned out. To impose a fine is like clipping a tiger's ears and turning him loose. To break him of the business he should be caged, and in this instance, the cage is the rock pile.

Rev. Daniel Glass of near Johnson City Tenn., died at his home January 12th, being 161 years old, Mr Glass was a native of Yancy County N. C., and was a minister of the Baptist church.

Cured of a Severe Attack of Bronchitis by Chamberlain Cough Remedy.

"On October 18th, last, my little three year old daughter contracted a severe cold which resulted in a bad case of bronchitis," says Mrs. W. G. Gibson, Lexington, Ky. "She lost the power of speech completely and was a very sick child. Fortunately we had a bottle of Chamberlain's Cough Remedy in the house and gave it to her according to the printed directions. On the second day she was a great deal better, and on the fifth day, October 23rd, she was entirely well of cold and bronchitis, which I attribute to this splendid medicine. I recommend Chamberlain's Cough Remedy unreservedly as I have found it the surest, safest and quickest cure for colds, both for children and adults, of any I have ever used." For sale by J. E. Shell Druggist, Dr. Kents Druggist.

CARPET BAG BONDS.

Mention has been made in various News papers The Lenoir News with the others that Rhode Island was going to try to collect the old repudiated North Carolina carpet bag bonds, but this clipping from the Raleigh News and Observer does not look like there was much danger of North Carolian having to pay them.

Washington, D. C., Jan. 18.—Governor Kitchin and Governor Pothier, of Rhode Island, who are here attending the convention of governors of all the States, stood side by side in the photograph of the State executives taken at the White House this afternoon, the central figure was the President of the United States. It was at the suggestion of the Rhode Island executive that the two governors stood together for the photograph, and the incident, but reflects the kind of feeling that exists between the people of the two States.

Governor Pothier has no sympathy with the movement of New York money sharks who are endeavoring to collect repudiated carpet bag bonds from North Carolina, and he expressed the opinion today that the Rhode Island State senate will follow the lead of the House and repeal the underground act that made possible the acceptance of the questionable bonds. Had he known the facts now in his possession, Governor Pothier would have refused to sign the bill providing for the acceptance of these bonds.

World's Greatest Wireless Station.

The new wireless station in the tower of the Metropolitan Building New York, is now completed and in operation. Messages have been exchanged with Chicago, Cleveland, Toledo, Albany and Philadelphia. The new station is the largest and best equipped in the world. It reaches up 700 feet into the air above Madison Square, New York.

In conjunction with this apparatus is now being installed a wireless telephone equipment. A commercial business between New York, Philadelphia and Albany at the rate of 10 words for 20 cents will be opened to the public at once.

Edgemont Company Granted Charter.

Special to The Observer.

Raleigh, Jan. 15.—A charter is granted the Edgemont Company, to develop real estate, water supply etc., at the town of that name, which is connected with Lenoir by rail and with a point at the base of Grandfather mountain by a turnpike, built last year. The capital stock of the company is \$25,000.

Morrison Gets Another Respite.

Raleigh, Jan. 10.—Because North Carolina's electric chair is not completed Walter Morrison, sentenced to death for the criminal assault and murder of an Indian woman, was today granted a temporary respite from death for fifth time. Parts of the chair are missing Morrison cannot be legally executed until they are found.

If you depart while your host still wants you to stay. You're sure of a welcome when next you're that way.

A Wretched Mistake

to endure the itching, painful distress of Piles. There's no need to. Listen: "I suffered much from Piles," writes Will. A. Marsh, of Siler City, N. C., "till I got a box of Bucklen's Arnica Salve, and was soon cured." Burns, Boils, Ulcers, Fever Sores, Eczema, Cuts, Chapped Hands, Chilblains, vanish before it. 25c at J. E. Shell.

FALLING HAIR.

You Run No Risk When You Use this Remedy.

While many people in their prime doubt the assertion that "the hairs of our head are numbered," yet there is to-day many a man and woman fast reaching the point where this statement is literally brought home to them. If you suffer from irritation of the scalp, and from dandruff, or if your hair is falling out, do not wait until you reach the point where you can actually count how many hairs are left on your head.

Most cases of baldness are caused because the roots lack proper nutrition. In such cases there is a microbe which bores through the scalp along the line of the hair into the root and when it lodges there it begins to destroy the fatty matter around the hair roots. When the scalp and hair roots are strong and healthy, it is impossible for these microbes to get in their deadly work.

We can promise you that, if your hair is falling out, and you have not let it go too far, you can repair the damage already done by using "Rexall '93" Hair Tonic. It is a scientific, cleansing, antiseptic, germicidal preparation, that destroys microbes, stimulates good circulation around the hair roots, promotes hair nourishment, removes dandruff and restores hair health. It is as pleasant to use as pure water, and it is delicately perfumed. It is a real toilet necessity.

We want you to try Rexall '93" Hair Tonic with our promise that it will cost you nothing unless you are perfectly satisfied with its use. It comes in two sizes, prices 50 cents and \$1.00. Remember you can obtain it only at our store, —The Rexall Store. The Lenoir Drug Co.

Accidentally Stabbed Young Woman.

Wadesboro Messenger.

While attending the burial, Friday, at the Tarleton burying ground near town on the Camden road, of the infant son of Mr. and Mrs. Judge Treadaway, Miss Eb Saunders, of South Wadesboro, was the victim of a very peculiar accident. She was standing by the iron gate leading into the burying ground when the wind blew the gate shut. Mr. John Tarleton, who was standing near with his knife in his hand threw out his hand to catch the gate and stuck the blade of the knife in the young lady's side, inflicting a painful, though not serious wound.

Laughing.

Laughter is nature's device for exercising the internal organs and giving us pleasure at the same time.

It sends the blood bounding through the body, increasing the respiration, and gives warmth and glow to the whole system.

It expands the chest, and forces the poisoned air from the least used lung cell.

Perfect health, which may be destroyed by a piece of bad news, by grief or anxiety, is often restored by a good, hearty laugh.

A jolly physician is often better than his pills.

A bill is being considered in the South Carolina Legislature, and with a prospect of being passed, to impose a license tax of \$1 on every one who wants to hunt in the State. That would be a proper beginning for a good work. A practical system of licensing all hunters is needed in the Southern States, and we hope someone will get to work on the formulation of a license bill to present to the next Legislature. —Charlotte Chronicle.
